Home Security Joshua Elans, 2016-02-21 Every day the newspapers report dozens of robbery and break-in cases. Although modern technology has assisted us to restrict these activities yet the robber's community is also appearing competent enough. The ultimate solution to this problem lies in a proactive strategy so that all of us become readily prepared against any of the robbery or theft attacks. It is only possible when we extend strategic thinking about the home security concerns. In this book the major focus for stating the home security issues is to make the individual household

unit capable enough of handling the security issues on its own. If every person starts looking forward to maintaining the security of his or her house then the overall rate of break-ins and burglary can be eventually reduced to a greater level. So in this book we will provide an elaborative discussion for the overall security of homes, dealing with various areas of concern including the interior and exterior area of the house. The contributing discussions and suggestions which are curtailed in this book will present the following leading issues, which are collectively aimed at making the individual household units well equipped with security measures. * The preliminary discussion about the rising level of security concerns, its implementations for our daily routines and major pillars of security systems which can ensure secured houses.* The major strategies for making your home security fool proof with the category related to overall mental preparedness* Some important home security strategies pertaining to the use of proper hardware of the house* An account of strategies for home security applying modern technology
