Policing the Sex Industry Teela Sanders, Mary Laing, 2017-12-12 The exponential growth of sexual commerce, migration and movement of people into the sex industry, as well as localised concerns about transactional sex, are key areas of interest across the urban west. Given the complex regulatory frameworks under-which the sex industry manifests, the role of the police is significant. *Policing the Sex Industry* draws on the research and expertise of academics and practitioners, presenting advanced scholarship across a range of countries and spaces. Unpicking the relationship between police practice and commercial sex whilst speaking to the current policy agendas, *Policing the Sex Industry* explores key issues including: trafficking, decriminalisation, localised impacts of punitive policing approaches, uneven policing approaches, hate-crime approaches and the impact of policing on trans sex workers. A dynamic and incisive contribution to existing research, *Policing the Sex Industry* will appeal to undergraduate

and postgraduate students, as well as researchers at all levels, interested in fields including Criminology, Sociology, Gender Politics and Women's Studies

Failure to Protect Eric S. Janus, 2018-07-05 Most crimes of sexual violence are committed by people known to the victim—acquaintances and family members. Yet politicians and the media overemphasize predatory strangers when legislating against and reporting on sexual violence. In this book, Eric S. Janus goes far beyond sensational headlines to expose the reality of the laws designed to prevent sexual crimes. He shows that sexual predator laws, which have intense public and political support, are counterproductive. Janus contends that aggressive measures such as civil commitment and Megan's law, which are designed to restrain sex offenders before they can commit another crime, are bad policy and do little to actually reduce sexual violence. Further, these new laws make use of approaches such as preventive detention and actuarial profiling that violate important principles of liberty. Janus argues that to prevent sexual violence, policymakers must address the deep-seated societal problems that allow it to flourish. In addition to criminal sanctions, he endorses the specific efforts of some advocates, organizations, and social scientists to stop sexual violence by, for example, taking steps to change the attitudes and behaviors of school-age children and adolescents, improving public education, and promoting community treatment and supervision of previous offenders. Janus also warns that the principles underlying the predator laws may be the early harbingers of a preventive state in which the government casts wide nets of surveillance and intervenes to curtail liberty before crimes of any type occur. More than a critique of the status quo, this book discusses serious alternatives and how best to

overcome the political obstacles to achieving rational policy.

Control and Protect Jennifer Musto, 2016-07-05 Control and Protect explores the meaning and significance of efforts designed to combat sex trafficking in the United States. A striking case study of the new ways in which law enforcement agents, social service providers, and nongovernmental advocates have joined forces in this campaign, this book reveals how these collaborations consolidate state power and carceral control. This book examines how partnerships forged in the name of fighting domestic sex trafficking have blurred the boundaries between punishment and protection, victim and offender, and state and nonstate authority.

SFSX (Safe Sex) #1 Tina Horn, 2019-09-25 Notorious kink writer TINA HORN teams up with artist MICHAEL DOWLING (Unfollow, Death Sentence) for SFSX, a social thriller about sex, love, and torture that reads like SEX CRIMINALS in Gilead crossed with OCEANS WITH A SUNSTONE twist! Protecting Our Kids? Emily Horowitz, 2015-04-21 This thought-provoking work raises important questions about sex offender laws, drawing from personal stories, research, and data to prove the policies promote fear, destroy lives, and fail to protect children. Do sex offender laws protect children, or are they inherently unfair practices that, at their worst, promote vigilante justice? The latter, this book argues. By analyzing the social, political, historical, and cultural context surrounding the emergence of current sex offender policies and laws, the work shows how sex offenders have come to loom as greater-than-life monsters when, in many cases, that is not true at all. Looking at its subject from a fresh viewpoint, the book shares research and new analyses of data and qualitative evidence to show how sex-offender laws are not only ineffective, but engender destructive fear and anxiety. To help readers understand the impact of these laws, the author presents interviews with sex offenders and their families as they describe the day-to-day reality of living on the sex offender registry. Citing research and statistics, the book challenges the idea that sex offenders must be continually monitored and publicly identified because they are incurably predatory. Most important, the study shows that

undue sex offender panic is preventing policymakers from addressing the true threats to children—poverty and growing inequality.

Overcoming Abuse: Child Sexual Abuse Prevention and Protection Reina

Davison, 2019-12-26 *Overcoming Abuse: Child Sexual Abuse Prevention and Protection* is an encyclopedic manual for parents, caregivers or helpers to educate their self and train children on body safety. This is an indispensable resource for anyone who is interested in becoming aware and informed about child sexual abuse (CSA). It is an informative reservoir on the dynamics of child sexual abuse, the sex offender profile, and a guide on how to protect and prevent a child from being a target of CSA anywhere, including the internet. Instructs the adult: on initiating conversation to help the child gain an understanding about the precious gift of his body. Introduces and walks the adult through a healthy age-appropriate biblical perspective on human sexuality. The process of overcoming CSA for the parent/caregiver and child is spelled out (whether the parent/child have experienced CSA or not) healing and hope are offered. An example of a Body Safety Family Plan is provided to develop the skills of self-protection. The parent/caregiver are able to reassure the child that home is where love is—and CSA is not!

Protection of Sexual Minorities since Stonewall Phil C.W. Chan, 2013-09-13 The Stonewall Riot in New York in 1969 marked the birth of the sexual minority rights movement worldwide. In the subsequent four decades, equality and related rights on grounds of sexual orientation and gender identity have been enshrined in many African, Asian, Australasian, European and North American countries, thanks to better informed discourses of the natures of sexual orientation, gender identity, equality and rights that

systematic scientific and socio-legal research has generated. Discrimination, harassment and persecution on grounds of a person's sexual orientation or gender identity, however, continue to pervade the laws and social norms in all developed and developing countries. In tribute to the courage of those who participated in the Stonewall Riot, this book examines the progress and stalemate in various countries on five continents, as well as in the development of international law, concerning the rights of persons belonging to sexual minorities. This book covers issues including homophobic bullying and gay-straight alliances in schools; the merits and problems that legislation prohibiting hate speech on grounds of sexual orientation presents; criminal justice systems in relation to male rape victims and to criminalisation of HIV exposure and transmission; the development of sexual minority rights, from historical and socio-legal perspectives, in Hong Kong, Japan, Singapore, and Zimbabwe; the lives of transgender persons in Asian countries; the evolution, operation and impact of international and domestic refugee laws on sexual orientation and gender identity as grounds for refugee status and asylum; and the conflicts between law, religion and sexual minority equality rights that inhere in the same-sex marriage debate in Ireland. This book was previously published as a special double issue of The International Journal of Human Rights.

Protecting Children from Sexual Violence Building a Europe for and with Children (Program), 2010-01-01 Protecting children from sexual violence - A comprehensive approach is a collection of highly readable expert papers for both child professionals And The general public. it is divided into five parts, presenting a European overview and covering the existing legal frameworks; abuse prevention and reporting; rehabilitation and

social reintegration of victims; sexual violence on the Internet; and public and private partnerships against abuse. it also sheds light on the little-known problem of children who are sexually abusing other children. In addition to providing thorough information on the many facets of this complex subject, this publication also highlights new concepts, facts and recommendations. Foremost is the significant lack of data on the prevalence and nature of sexual violence in Europe, underscoring the need for co-ordinated pan-European research and information gathering, which are vital to effective policy making and programme design. it also sounds the alarm for urgent co-ordinated action in various fields to drastically improve child protection through awareness raising; targeted and specialised training, intervention and therapy programmes; sex education in schools; responsible family attitudes; and justice systems with tighter abuse laws and which take account of children's special needs as reliable witnesses. Protecting children from sexual violence is published as part of the Council of Europe campaign to stop sexual violence against children. The hope is that this publication will inspire judges, The police, educators, governments, The media and legislatures to join the campaign and expose, demythify and take concerted action to combat sexual violence against children, a phenomenon that affects as many as 20% of children in Europe

Sex Discrimination Issues ,1996

Unwanted Sex Stephen J. Schulhofer,1998 Despite three decades of intense scrutiny and repeated attempts at ambitious reform, the laws regarding rape and sexual harassment still fail to protect women from sexual overreaching and abuse. This original, provocative, and enlightening work shows the need to refocus on laws against rape and to

create a new system of legal safeguards against interference with sexual autonomy.

Lesbian Women and Sexual Health R Dennis Shelby, Kathleen Dolan, 2014-07-16

Interviewer: Where did you find out how to have safe lesbian sex? Val: I found out in jail. Why do so many lesbian women engage in sexual behavior that puts their health, even their lives, at risk? Many know they're at risk, yet somehow feel safe enough to behave as if there is no reason to practice safe sex. *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* examines how lesbian women perceive their level of risk for HIV and other sexually transmitted infections (STIs). It describes how their perceptions of risk and susceptibility are shaped by factors such as sexual identity, cultural themes, and community knowledge - and how those perceptions impact on the very real HIV/STI risks that lesbian women face. The genesis of *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* lies in Kathleen Dolan's exploratory study of this under-researched area, in which 162 structured interviews and 70 in-depth interviews were conducted with women who self-identify as lesbians. What these women have to say will inform, educate, and probably surprise you. Tables and figures make complex data easy to access and understand. Lesbian women construct and label their identities and actions in complex ways that may lead to risky behavior. In the words of the women surveyed—and in Dr. Dolan's insightful commentary—this book explores the ways in which lesbian women construct their perceptions of risk and susceptibility to seek answers to questions that include: Do many lesbian women see themselves, to an extent, as immune to HIV contraction? How does their self-constructed sense of risk and susceptibility lead to making dangerous choices? Why, in spite of their

professed willingness to engage in protective actions, do many lesbians not actually do so? Why do many lesbian women, and some of the health care professionals who serve them, feel that pap smears are not necessary for women who have sex only with other women—and what are the consequences of this opinion? What is the relationship between drug/alcohol use and risky sexual behaviors in lesbian women? *Lesbian Women and Sexual Health: The Social Construction of Risk and Susceptibility* is an important resource for women's/lesbian health advocates, health care professionals, and courses in gay/women's/medical studies. It addresses gaps in the existing research to enhance our understanding of the physical and mental health status of lesbian women, of risk factors and protective actions regarding HIV and STIs, and of the conditions for which protective actions actually reduce risk. Use it to update your knowledge of this under-studied area at the intersection of physical, emotional, and sexual health.
