The Pea and the Sun Leonard M. Wapner,2005-04-29 Take an apple and cut it into five pieces. Would you believe that these five pieces can be reassembled in such a fashion so as to create two apples equal in shape and size to the original? Would you believe that you could make something as large as the sun by breaking a pea into a finite number of pieces and putting it back together again? Neither did Leonard Wapner, author of *The Pea and the Sun*, when he was first introduced to the Banach-Tarski paradox, which asserts exactly such a notion. Written in an engaging style, *The Pea and the Sun* catalogues the people, events, and mathematics that contributed to the discovery of Banach and Tarski's magical paradox. Wapner makes one of the most interesting problems of advanced mathematics accessible to the non-mathematician.

IBM Power Systems SR-IOV: Technical Overview and Introduction Scott Vetter,Shivaji D Bhosale,Alexandre Bicas Caldeira,Bartłomiej Grabowski,Chuck Graham,Alexander D Hames,Volker Haug,Marc-Eric Kahle,Cesar Diniz Maciel,Manjunath N Mangalur,Monica Sanchez,IBM Redbooks,2017-01-12 This IBM® Redpaper™ publication describes the adapter-based virtualization capabilities that are being deployed in high-end IBM POWER7+™ processor-based servers. Peripheral Component Interconnect Express (PCIe) single root I/O virtualization (SR-IOV) is a virtualization technology on IBM Power Systems servers. SR-IOV allows multiple logical partitions (LPARs) to share a PCIe adapter with little or no run time involvement of a hypervisor or other virtualization intermediary. SR-IOV does not replace the existing virtualization capabilities that are offered as part of the IBM PowerVM® offerings. Rather, SR-IOV compliments them with additional capabilities. This paper describes many aspects of the SR-IOV technology, including: A comparison of SR-IOV with standard virtualization technology Overall benefits of SR-IOV Architectural overview of SR-IOV Planning requirements SR-IOV deployment models that use standard I/O virtualization Configuring the adapter for dedicated or shared modes Tips for maintaining and troubleshooting your system Scenarios for configuring your system This paper is directed to clients, IBM Business Partners, and system administrators who are involved with planning, deploying, configuring, and maintaining key virtualization technologies.

Assetization Kean Birch,Fabian Muniesa,2020-07-14 How the asset—anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. In this book, scholars from a range of disciplines argue that the

asset—meaning anything that can be controlled, traded, and capitalized as a revenue stream—has become the primary basis of technoscientific capitalism. An asset can be an object or an experience, a sum of money or a life form, a patent or a bodily function. A process of assetization prevails, imposing investment and return as the key rationale, and overtaking commodification and its speculative logic. Although assets can be bought and sold, the point is to get a durable economic rent from them rather than make a killing on the market. Assetization examines how assets are constructed and how a variety of things can be turned into assets, analyzing the interests, activities, skills, organizations, and relations entangled in this process. The contributors consider the assetization of knowledge, including patents, personal data, and biomedical innovation; of infrastructure, including railways and energy; of nature, including mineral deposits, agricultural seeds, and “natural capital”; and of publics, including such public goods as higher education and “monetizable social ills.” Taken together, the chapters show the usefulness of assetization as an analytical tool and as an element in the critique of capitalism. Contributors Thomas Beauvisage, Kean Birch, Veit Braun, Natalia Buier, Béatrice Cointe, Paul Robert Gilbert, Hyo Yoon Kang, Les Levidow, Kevin Mellet, Sveta Milyaeva, Fabian Muniesa, Alain Nadaï, Daniel Neyland, Victor Roy, James W. Unfinished Business Vivian Gornick, 2020-02-04 A New York Times Book Review Editors' Choice. One of Library Journal's Best Books of 2020. One of our most beloved writers reassess the electrifying works of literature that have shaped her life I sometimes think I was born reading . . . I can't remember the time when I didn't have a book in my hands, my head lost to the world around me. *Unfinished Business: Notes of a Chronic Re-reader* is Vivian Gornick's celebration of passionate reading, of returning again and again to the books that have shaped her at crucial points in her life. In nine essays that traverse literary criticism, memoir, and biography, one of our most celebrated critics writes about the importance of reading—and re-reading—as life progresses. Gornick finds herself in contradictory characters within D. H. Lawrence's *Sons and Lovers*, assesses womanhood in Colette's *The Vagabond* and *The Shackle*, and considers the veracity of memory in Marguerite Duras's *The Lover*. She revisits Great War novels by J. L. Carr and Pat Barker, uncovers the psychological complexity of Elizabeth Bowen's prose, and soaks in Natalia Ginzburg, “a writer whose work has often made me love life more.” After adopting two cats, whose erratic behavior she finds vexing, she discovers Doris Lessing's *Particularly Cats*. Guided by Gornick's trademark verve and insight, *Unfinished Business* is a masterful appreciation of literature's power to illuminate our lives from a peerless writer and thinker who “still read[s] to feel the power of Life with a capital L.”

The Future of Economic Design Jean-François Laslier, Hervé Moulin, M. Remzi Sanver, William S. Zwicker, 2019-11-15 This collection of essays represents responses by over eighty scholars to an unusual request: give your high level assessment of the field of economic design, as broadly construed. Where do we come from? Where do we go from here? The book editors invited short, informal reflections expressing deeply felt but hard to demonstrate opinions, unsupported speculation, and controversial views of a kind one might not normally risk submitting for review. The contributors – both senior researchers who have shaped the field and promising, younger researchers – responded with a diverse collection of provocative pieces, including: retrospective assessments or surveys of the field; opinion papers; reflections on critical points for the development of the discipline; proposals for the immediate future; science fiction; and many more. The readers should have fun reading these unusual pieces – as much as the contributors enjoyed writing them.

Agent 407 Olivia Forsyth, 2015-07-15 I owe it to many people, and to myself, to set the record straight. There have been many versions of parts of the story in the press over the years, many lies overlaid with truths and truths overlaid with lies. Much of the truth is just a palimpsest, an echo that changes even in the act of repeating it, but this is my story. In the dying years of apartheid, a most extraordinary story hit the headlines. Agent Olivia Forsyth had escaped from ANC imprisonment in Angola. Upon her return home she was feted as a hero by the government. In a flurry of media appearances and press releases, Forsyth claimed to have infiltrated the ANC and passed on vital

information. Is that what really happened? In the world of espionage, truth is the first victim and nothing is as it seems. Here, for the first time and in her own words, South Africa's most notorious female spy during apartheid lays bare the story of her life. Olivia Forsyth was also known as agent RS407, codename Lara, lieutenant in the Security Branch of the South Africa Police, ANC comrade Helen Bronson, prisoner Thandeka, alias Christine Smith.

The Dream House Craig Higginson, 2016-04-01 A farmhouse is being reproduced a dozen times, with slight variations, throughout a valley. Three small graves have been dug in the front garden, the middle one lying empty. A woman in a wheelchair sorts through boxes while her husband clammers around the old demolished buildings, wondering where the animals have gone. A young woman – called ‘the barren one’ behind her back – dreams of love, while an ageing headmaster contemplates the end of his life. At the entrance to the long dirt driveway, a car appears and pauses – pointed towards the house like a silver bullet, ticking with heat. So begins *The Dream House*, Craig Higginson’s riveting and unforgettable novel set in the Midlands of KwaZulu-Natal. Written with dark wit, a stark poetic style and extraordinary tenderness, this is a story about the state of a nation and a deep meditation on memory, ageing, meaning, family, love and loss. This updated 2016 edition contains new content, with Craig Higginson exploring the background to *The Dream House*, his varied experiences in a farmhouse in KwaZulu-Natal and the subsequent and poignant motivations for this moving novel.

Endings & Beginnings Redi Tlhabi, 2012 When Redi Tlhabi is eleven years old, two years after her father's death, she meets the handsome, charming and smooth, Mabegzo. A rumoured gangster, murderer and rapist, he is a veritable 'jack roller' of the neighbourhood. Against her family's wishes, she develops a strong connection to him. Tlhabi herself doesn't understand why she is drawn to Mabegzo and why, at eleven, she feels a brokenness that only Mabegzo can fix. 'Endings & Beginnings' is Tlhabi's emotional journey back into her past to finally humanise this man whose hollowness mirrored her own and who was hated and abhorred by so many when he was alive. Through interviews and deep emotional conversations with his family, friends and those who knew him, Redi finally gets to fit together the pieces of the puzzle that was Mabegzo. Her revelations do not in any way excuse who and what he was, but they go a long way in shedding light on the scourge that is violence in our societies and why young black men are consumed by anger. -- Back cover.
