How Stella Learned to Talk Christina Hunger, 2021-05-04 INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn’t take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn’t they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word “outside” when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. *How Stella Learned to Talk* is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella “spoke” her first word, and the other breakthroughs they’ve had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, *How Stella Learned to Talk* will be the indispensable dog book for the new decade.

The Other End of the Leash Patricia McConnell, Ph.D.,2009-02-19 Learn to communicate with your dog—using their language “Good reading for dog lovers and an immensely useful manual for dog owners.”—The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “man’s best friend” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover: • How you can get your dog to come when called by acting less like a primate and more like a dog • Why the advice to “get dominance” over your dog can cause problems • Why “rough and tumble primate play” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief • How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “alpha wanna-bes!” Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Rock Critic Law Michael Azerrad, 2018-10-23 Straight out of his beloved Twitter feed @RockCriticLaw, acclaimed rock journalist and author of the classic books *Come As You Are: The Story of Nirvana* and *Our Band Could Be Your Life*, Michael Azerrad turns his trenchant eye to the art of rock writing itself, hilariously skewering 101 of the genre's seemingly endless litany of hackneyed phrases and tropes. One of the finest music writers today, Michael Azerrad has catalogued the shortcuts, lazy metaphors and uninspired prose that so many of his beloved colleagues all too regularly rely on to fill column inches. In 2014, he began his wickedly droll Twitter feed @RockCriticLaw to expose and make fun of this word-hash. Now, he consolidates these Laws into one witty, comprehensive and fully illustrated volume. Rock Critic Law includes timeless gems such as: If a band pioneered something, you must say they are seminal. That is the Seminal Law of Rock Criticism. If a recording features densely layered guitars, then you MUST use the phrase sonic cathedrals. Even when it's easy to find out with research, by all means ask a band how they got their name. Please feel free to deny an artist's individuality and say they are the new [x]. If two guitars play a melodic line in harmony, you MUST say they are twin lead guitars. All 101 Rock Critic Laws are accompanied by original illustrations from Ed Fotheringham, beloved Seattle scenester and highly regarded artist who has created album covers for everyone from, well, seminal grunge band Mudhoney to iconic jazz label Verve Records, as well as illustrations for The Atlantic, Vanity Fair, The New Yorker and more, making this book a must-have for music lovers everywhere. A unique appreciation of music writing from one of its own, Rock Critic Law irreverently captures all the passion and furor of fandom.
