Apex Hides the Hurt Colson Whitehead,2007-01-09 This wickedly funny (The Boston Globe) New York Times Notable Book from the two-time Pulitzer Prize-winning author of *The Underground Railroad* and *The Nickel Boys* is a brisk, comic tour de force about identity, history, and the adhesive bandage industry. The town of Winthrop has decided it needs a new name. The resident software millionaire wants to call it New Prospera; the mayor wants to return to the original choice of the founding black settlers; and the town's aristocracy sees no reason to change the name at all. What they need, they realize, is a nomenclature consultant. And, it turns out, the consultant needs them. But in a culture overwhelmed by marketing, the name is everything and our hero's efforts may result in not just a new name for the town but a new and subtler truth about it as well. Look for Colson Whitehead's new novel, *Crook Manifesto*, coming soon!

The Six Great Themes of Western Metaphysics and the End of the Middle Ages Heinz Heimsoeth,1994 Heimsoeth enters boldly into the historical drama of Western philosophical thought at its deepest level and tells a story focused not so much on actors as on the plot itself: the great metaphysical questions about philosophy and life.

The Masterwork in Music: Volume 1, 1925 Heinrich Schenker,1994-11-24 A translation of Volume I of a major work by one of the leading music theorists of the century.

The Masterwork in Music: Volume I, 1925 Heinrich Schenker,Richard Kramer,Hedi Siegel,2014-10-13 Three-volume set features complete translation of major writings by a distinguished Austrian music theorist. Volume I includes analyses of keyboard pieces by Bach, Scarlatti, Chopin, and Beethoven; Bach's music for solo violin, and more.

Ernst Kurth: Selected Writings Ernst Kurth,1991-07-26 This book provides a selection of annotated translations from Ernst Kurth's three best-known publications: *Grundlagen des linearen Kontrapunkts* (1917), *Romantische Harmonik und ihre Krise in Wagners 'Tristan'* (1920), and *Bruckner* (1925). Kurth's contemporaries considered these books to be pioneering studies in the music of J. S. Bach, Wagner and Bruckner. Professor Rothfarb's extensive introductory essay discusses the intellectual and socio-cultural environment in which Kurth was writing, referring to aspects of the early twentieth-century cultural renewal movements and to intellectual developments of the day in phenomenology, aesthetics and psychology. By reading Kurth against the cultural-intellectual background provided in the essay and commentaries, today's music historians and theorists can round out their picture of music theory in the early twentieth century.

Color Harmonies Augusto Garau,1993-05 Because theories of visual perception have traditionally concentrated on form, artists have generally dealt with the problem of color through their own observation and intuition. In *Color Harmonies*, Augusto Garau systematically investigates the role of both color and form in visual perception and presents an original theory of the aesthetic relations among colors. Garau, a painter who teaches the psychology of form, pays particular attention to the way colors behave when organized in patterns. His theory of color combination addresses two principal compositional elements: the relations between figure and ground and the phenomenon of transparency. Garau meticulously analyzes the use of color in paintings by masters such as Cézanne, Picasso, and Matisse to show how his theory applies to actual works of art. Containing many full-color examples, his introduction to the workings of color relations is of great practical use to art historians and critics, artists, interior decorators, fashion and set designers, and anyone who works with color to display information or convey emotions. In an area of the psychology of art where reliable guidance is still so hard to come by, [Garau's] well-supported contributions to the theory of color composition ought to be welcomed by practitioners and scholars alike.—from the Foreword by Rudolf Arnheim

Mediating Order and Chaos Rodney Farnsworth, 2021-11-08 This literature-centered study offers an interdisciplinary approach to Romantic culture. If is pioneering in that it employs the complexity method of anthropology. Recent literary studies employ the complexity/chaos theory adapted from the natural sciences; however, here is presented for the first time a complexity method taken from the social/human sciences. This complexity method is useful in mediating not only contradictions within Romanticism, but the chaos of contemporary theories concerning it. One of the intensifying literary debates is that between the so-called “Greens” and “Reds,” naturalists and humanists. *Mediating Order and Chaos* not only traces the split between nature and man to Romantic Culture but finds there, too, a Spinozian vision of man and nature in unity – thereby denying any naturalist/humanist split. This volume is of interest for those who wish to see essays in the holistic approach to culture. Centering on hydraulics, hydrology, and meteorology, this study examines literature, painting, music, economics, and the rhetoric of science, philosophy, and politics, it therewith demonstrates how the water cycle was transformed into a cosmic metaphor that mediated, in the form of several complex adaptive systems, between the chaos of too much change

and that of not enough.

Festival Places Chris Gibson,John Connell,2011-01-25 Festivals have burgeoned in rural areas, revitalising old traditions and inventing new reasons to celebrate. How do festivals contribute to tourism, community and a rural sense of belonging? What are their cultural, environmental and economic dimensions? This book answers such questions - featuring contributions from leading geographers, historians, anthropologists, tourism scholars and cultural researchers. It draws on a range of case studies: from the rustic charm of agricultural shows and family circuses to the effervescent festival of Elvis Presley impersonators in Parkes; from wildflower collecting to the cosmopolitan beats of ChillOut, Australia’s largest non-metropolitan gay and lesbian festival. Festivals as diverse as youth surfing carnivals, country music musters, Aboriginal gatherings in the remote Australian outback, Scottish highland gatherings and German Christmas celebrations are united in their emphasis on community, conviviality and fun.
