Madness Marya Hornbacher,2009-04-01 In the vein of An Unquiet Mind comes a storm of a memoir that will take you deep inside bipolar disorder and change everything you know. When Marya Hornbacher published her first book, Wasted: A Memoir of Anorexia and Bulimia, she did not yet have the piece of shattering knowledge that would finally make sense of the chaos of her life. At age twenty-four, Hornbacher was diagnosed with Type I rapid-cycle bipolar, the most severe form of bipolar disorder. In Madness, in her trademark wry and utterly self-revealing voice, Hornbacher tells her new story. Through scenes of astonishing visceral and emotional power, she takes us inside her own desperate attempts to counteract violently careening mood swings by self-starvation, substance abuse, numbing sex, and self-mutilation. How Hornbacher fights her way up from a madness that all but destroys her, and what it is like to live in a difficult and sometimes beautiful life and marriage—where bipolar always beckons—is at the center of this brave and heart-stopping memoir. Madness delivers the revelation that Hornbacher is not alone: millions of people in America today are struggling with a variety of disorders that may disguise their bipolar disease. And Hornbacher's fiercely self-aware portrait of her own bipolar as early as age four will powerfully change, too, the current debate on whether bipolar in children actually exists. New York Times“Humorous, articulate, and self-aware...A story that is almost impossible to put down.”— “With the same intimately revelatory and shocking emotional power that marked [Wasted], Hornbacher guides us through her labyrinth of psychological demons.”—Elle

Scattershot David Lovelace,2008 An account of the author's predominantly bipolar family discusses his parents' and brother's struggles with their symptoms, his own development of bipolar disorder, and his observations on the connection between his family's illness and their religious faith.

A Mind of Your Own Kelly Brogan, M.D.,Kristin Loberg,2016-03-15 Named one of the top health and wellness books for 2016 by MindBodyGreen Depression is not a disease. It is a symptom. Recent years have seen a shocking increase in antidepressant use the world over, with 1 in 4 women starting their day with medication. These drugs have steadily become the panacea for everything from grief, irritability, panic attacks, to insomnia, PMS, and stress. But the truth is, what women really need can’t be found at a pharmacy. According to Dr. Kelly Brogan, antidepressants not only overpromise and underdeliver, but their use may permanently disable the body’s self-healing potential. We need a new paradigm: The best way to heal the mind is to heal the whole body. In this groundbreaking, science-based and holistic approach, Dr. Brogan shatters the mythology conventional medicine has built around the causes and treatment of depression. Based on her expert interpretation of published medical findings, combined with years of experience from her clinical practice, Dr. Brogan illuminates the true cause of depression: it is not simply a chemical imbalance, but a lifestyle crisis that demands a reset. It is a signal that the interconnected systems in the body are out of balance – from blood sugar, to gut health, to thyroid function– and inflammation is at the root. A Mind of Your Own offers an achievable, step-by-step 30-day action plan—including powerful dietary interventions, targeted nutrient support, detoxification, sleep, and stress reframing techniques—women can use to heal their bodies, alleviate inflammation, and feel like themselves again without a single prescription. Bold, brave, and revolutionary, A Mind of Your Own takes readers on a journey of self-empowerment for radical transformation that goes far beyond symptom relief.

The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television.
