Classic Keys Alan S. Lenhoff,David E. Robertson,2019-12-09 Classic Keys is a beautifully photographed and illustrated book focusing on the signature rock keyboard sounds of the 1950s to the early 1980s. It celebrates the Hammond B-3 organ, Rhodes and Wurlitzer electric pianos, the Vox Continental and Farfisa combo organs, the Hohner Clavinet, the Mellotron, the Minimoog and other famous and collectable instruments. From the earliest days of rock music, the role of keyboards has grown dramatically. Advancements in electronics created a crescendo of musical invention. In the thirty short years between 1950 and 1980, the rock keyboard went from being whatever down-on-its-luck piano awaited a band in a bar or concert hall to a portable digital orchestra. It made keyboards a centerpiece of the sound of many top rock bands, and a handful of them became icons of both sound and design. Their sounds live on: Digitally, in the memory chips of modern keyboards, and in their original form thanks to a growing group of musicians and

collectors of many ages and nationalities. Classic Keys explores the sound, lore, and technology of these iconic instruments, including their place in the historical development of keyboard instruments, music, and the international keyboard instrument industry. Twelve significant instruments are presented as the chapter foundations, together with information about and comparisons with more than thirty-six others. Included are short profiles of modern musicians, composers, and others who collect, use, and prize these instruments years after they went out of production. Both authors are avid musicians, collect and restore vintage keyboards, and are well-known and respected in the international community of web forums devoted to these instruments.

Stella by Starlight Sharon M. Draper,2015-01-06 Sharon M. Draper presents "storytelling at its finest" (School Library Journal, starred review) in this New York Times bestselling Depression-era novel about a young girl who must learn to be brave in the face of violent prejudice when the Ku Klux Klan reappears in her segregated southern town. Stella lives in the segregated South—in Bumblebee, North Carolina, to be exact about it. Some stores she can go into. Some stores she can't. Some folks are right pleasant. Others are a lot less so. To Stella, it sort of evens out, and

heck, the Klan hasn't bothered them for years. But one late night, later than she should ever be up, much less wandering around outside, Stella and her little brother see something they're never supposed to see, something that is the first flicker of change to come, unwelcome change by any stretch of the imagination. As Stella's community—her world—is upended, she decides to fight fire with fire. And she learns that ashes don't necessarily signify an end.

   Dinnusos Rises Tej Turner,2017-04-07 Archetypal grass roots activists The vibe has soured somewhat after a violent clash in the Janus nightclub a few months ago, and since then Neal has opened a new establishment called 'Dinnusos'. Located on a derelict and forgotten side of town, it is not the sort of place you stumble upon by accident, but over time it enchants people, and soon becomes a nucleus for urban bohemians and a refuge for the city's lost souls. Rumour has it that it was once a grand hotel, many years ago, but no one is quite sure. Whilst mingling in the bar downstairs you might find yourself in the company of poets,

dreamers, outsiders, and all manner of misfits and rebels. And if you're daring enough to explore its ghostly halls, there's a whole labyrinth of rooms on the upper floors to get lost in... Now it seems that not just Neal's clientele, but the entire population of the city, begin to go crazy when beings, once thought mythological, enter the mortal realm to stir chaos as they sow the seeds of militancy. Eight characters. Most of them friends, some of them strangers. Each with their own story to tell. All of them destined to cross paths in a surreal sequence of events which will change them forever. visit bit.ly/DinnusosRises Although a standalone novel, the story follows the events in Tej Turner's debut novel The Janus Cycle. What reviewers said about The Janus Cycle: "Truly magical" – Allen Stroud, SF Book Reviews "an intriguing and insightful speculative fiction novel ... wonderfully vivid and vibrant story and colourful characters" – Risingshadow
