Volume 3 offers even more challenging and exciting puzzles. With 100 puzzles inside, this book will provide hours of fun! These puzzles are coded crosswords. Here are the rules of codewords:- Each letter from A - Z has been replaced with a number from 1 - 26. Codeword puzzles can be tricky to solve. You'll need a good vocabulary and, as with any puzzle type, practice helps too. There are various hints and tips that can aid the solving process. First of all, you will be given three number/letter combinations at the start of each puzzle. Therefore the first thing to do is to write all of these occurrences into the grid. See if this gives any distinctive combinations of letters for other words in the grid: sometimes it does, and sometimes it doesn't. There is an A - Z letter bar underneath each grid. Each time you place a letter, remember to cross it off here - this will help you keep an eye on which letters are placed and which aren't. Solutions are featured towards the back if at any point you get stuck, and full instructions are included. Good luck and happy solving! For other puzzle books, visit www.puzzle-book.co.uk

Children's Codewords Clarity Media,2015-06-02 Welcome to this brilliant collection of 50 codeword puzzles for children! Printed in a large 8x11 inch book on high quality paper, this book is perfect for taking notes and scribbles along the way! If you haven't played a codeword puzzle before, here is how they work: Each letter of the alphabet has been swapped with a number, from 1 - 26. Each number represents a different letter of the alphabet, and this changes from puzzle to puzzle. So in puzzle 1, the number 6 represents the letter P. This means that you should go through the puzzle grid, and enter the letter 'P' everytime you see the number 6 in the grid. As you'll see, we give you some letters at the start of each puzzle. As the puzzles get harder, you are given less starting letters. Every letter from A - Z always appears at least once in every puzzle, so it is a good idea to cross-off each letter as you find it in the bar of letters directly underneath the grid. And when you work out the identity of a new number, remember to record it in the number and letter key at the bottom of each puzzle. If you are unsure of the rules, then take a quick peek at the first solution to see how it works. The aim of the game is to work out the number that represents all 26 letters of the alphabet, and to complete the puzzle grid. The end result will be a valid crossword solution, filled with words you'll find in the dictionary. Good luck - we hope you enjoy solving these codeword puzzles. If you can get through all 50, then you are a champion codeword solver!
