World-maps for Finding the Direction and Distance to Mecca David

King, 2021-09-06 Two remarkable Iranian world-maps were discovered in 1989 and 1995. Both are made of brass and date from 17th-century Iran. Mecca is at the centre and a highly sophisticated longitude and latitude grid enables the user to determine the direction and distance to Mecca for anywhere in the world between Andalusia and China. Prior to the discovery of these maps it was thought that such cartographic grids were conceived in Europe ca. 1910. This richly-illustrated book presents an overview of the ways in which Muslims over the centuries have determined the sacred direction towards Mecca (qibla) and then describes the two world-maps in detail. The author shows that the geographical data derives from a 15th-century Central Asian source and that the mathematics underlying the grid was developed in 9th-century Baghdad.

World Maps for Finding the Direction and Distance of Mecca David A.

King, 1999-01-01 The author describes how Muslims over the centuries have determined the sacred direction (qibla) towards Mecca and presents two highly sophisticated Mecca-centred world-maps for finding the qibla. These recently-discovered world-maps have forced a reevaluation of Muslim achievements in mathematics and cartography.

The Law of Exception Amuh, 2024-01-01 The law of exception is a law that reveals an object that has different and special characteristics from other objects in a group. The number of objects that become exceptions varies quite a lot and is usually less than the other objects. In this book, objects that are exceptions are generally divided into two types, namely one or a few. The laws of exception is arranged formulacally and arranged systematically by using a simple formula arrangement. From this arrangement, the law of exception creates a concept to seek and find an object that has different and

special characteristics from other objects that have relationships between one with another in a group. After that, it is explained where the different and special characteristics lie. So that these different objects provide their own uniqueness from other objects. The law of exception is a universal law in general. This is done to uncover a number of phenomena that often occur in natural and social life. This is intended to focus on objects that have different and special characteristics and become exception from other objects in a group. In this discussion, the description of each chapter reveals an exception object of the other objects in several parts of the verse in the Quran, the relationship between God and the creature, the history of several figures known by the community, Qibla and prayer, uniqueness of the calendar, organization, the uniqueness of numbers, soccer, solar systems, and recognize vulnerable past history to the future of relations between China and Taiwan.

The Legacy of Muslim Spain Salma Khadra Jayyusi, Manuela Marín, 1992 The civilisation of medieval Muslim Spain is perhaps the most brilliant and prosperous of its age and has been essential to the direction which civilisation in medieval Europe took. This volume is the first ever in any language to deal in a really comprehensive manner with all major aspects of Islamic civilisation in medieval Spain.

Studies in the Making of Islamic Science: Knowledge in Motion Muzaffar Iqbal, 2017-05-15 Situated between the Greek, Indian and Persian scientific traditions and modern science, the Islamic scientific tradition received, enriched, transformed and then bequeathed scientific knowledge to Europe. The articles selected for this volume explore the fascinating process of knowledge in motion between different civilizations.

Mansehra to Manhattan Aziz Ahmad, 2021-10-31 I have been writing these essays (I like to call them stories) for a long time, the earliest being in 1984, and publishing some in Pakistani newspapers and some on blogs. Several times, I toyed with the idea of compiling these stories in a book form but was not sure of the usefulness of such an endeavor. One difficulty was the diversity of the subjects – from reminiscences to anecdotal history to folklore to so much else. It was not possible to assign a genre to the collection. It was only recently when a pen friend, Ejaz Rahim, who has also written one of the two generous forewords to this volume, prodded me in an email, saying, “The fact is humans die; the fiction is books continue to

live." I fell for the fiction, and hence this slim volume of mostly reminiscences about the people I came across or worked with and events I was part of. In short, it is about the world I left behind. I plan to publish the other essays in a second volume.

The Poincaré Conjecture Donal O'Shea, 2008-10-30 The Poincaré Conjecture tells the story behind one of the world's most confounding mathematical theories. Formulated in 1904 by Henri Poincaré, his Conjecture promised to describe the very shape of the universe, but remained unproved until a huge prize was offered for its solution in 2000. Six years later, an eccentric Russian mathematician had the answer. Here, Donal O'Shea explains the maths behind the Conjecture and its proof, and illuminates the curious personalities surrounding this perplexing conundrum, along the way taking in a grand sweep of scientific history from the ancient Greeks to Christopher Columbus. This is an enthralling tale of human endeavour, intellectual brilliance and the thrill of discovery.

Seâdet-i Ebediyye Endless Bliss Fourth Fascicle Hüseyin Hilmi Işık, The importance and value of the book *Endless Bliss* is explained briefly right in the second page of the same book by Sayyid Ahmad Mekki Beg, a great Islamic scholar who was Sayyid Abdulhakim Arwâsî's precious son. *Endless Bliss* consists of six fascicles. This fourth fascicle includes some essential topics like; various aspects of Hanafi Fiqh are explained, e.g., taharat, najasat, ghusl, wudu, tayammum, water, satr, women's covering themselves,

adhan, iqamat, namaz, traveler's namaz, juma prayer, and music. Alongside these topics, this book also includes some letters (which were translated from Persian) written by the islamic scholars of 16th century India, Imam Ahmed Rabbani and his blessed son Muhammed Masum Faruqi. Diversity in Design Vibhavari Jani, 2014-02-07 Diversity in Design: Perspectives from the non-Western World addresses the need for a text that encourages evaluation, appreciation, and comparison amongst diverse cultures by incorporating real-world non-Western design traditions into Western context. Each chapter represents a selected non-Western country written by native and resident experts and offers insight into that country's culture, highlighting the ways in which social and physical influences have affected the development of architecture and design. Contributors native to the featured countries offer insight into design philosophies, theories, principles and elements, symbolism, colors, patterns, and textiles from their regions.

Islamic Culture Farid Younos, 2013-11-14 "Islamic Culture: A Study of Cultural Anthropology," illustrates Islamic culture from an anthropological point of view. It shows that Islam as a way of life relates to all cultural aspects based upon the tradition of its Prophet, Mohammad. For the first time, this study shows that the Prophet of Islam is the founder of Islamic culture

and this culture is not an inherited concept but based upon a revelation received from God.

The Qur'an Explained in Layman's Language P. Jainulabdeen, 2023-07-25 This book offers explanations to misconceived notions in the minds of some people about verses, words and phrases of the Quran. An essential clear understanding is imperative to imbibe the ideologies propounded by the authors and rightful owners of books containing the said ideology. Here the ideology known as Islam has its author as 'The Creator' and His prophets, any misunderstanding and misconceptions about the contents of the book by men would lead them to a disastrous end in their hereafter life. This compilation of explanations for the words, phrases and verses of the Quran by the Tamil Islamic Scholar widely known as PJ is unique and challenges some preconceived, ill-conceived notions of established traditional thinking deeply seated in the minds of Muslims all over the world, and in Tamil Muslims in particular. May the Almighty bless all those who are rightly guided by him.

A Geography of Jihad Stephanie Zehnle, 2020-01-20 This book addresses the Jihad movement that created the largest African state of the 19th century: the Sokoto Caliphate, existing for 99 years from 1804 until its military defeat by European colonial troops in 1903. The author carves out the entanglements of jihadist ideology and warfare with geographical concepts at Africa's periphery of the Islamic world: geographical knowledge about the boundary between the "Land of Islam" and the "Land of War"; the pre-colonial construction of "the Muslim" and "the unbeliever"; and the transfer of ideas between political elites and mobile actors (traders, pilgrims, slaves, soldiers), whose reports helped shape new definitions of the African frontier of Islam. Research for this book is based on the study of a very wide range of Arabic and West African (Hausa, Fulfulde) manuscripts. Their policies reveal the persistent reciprocity of jihadist warfare and territorial statehood, of Africa and the Middle East. Stephanie Zehnle is Assistant

Professor (JProf) of Extra-European History at Kiel University (Christian-Albrechts-Universität). Her work on African and trans-continental history includes research on the history of Islam, human-animal relations, and comics in Africa.

Elements of Islamic Studies Sayyid Saeed Akhtar Rizvi, A greatly beneficial text book for students of all ages who wish to learn or review the basic fundamentals of Islamic studies. This booklet is based mostly on the lessons of Maulana Sayyid Sa'eed Akhtar Rizvi, though at the time of editing he has added some lessons from the 'Book of Salat' (Majlis-ul-Muslimeen, Karachi), and 'Diniyat' (Rah al-Najat Office, Karachi), with necessary adaptations. This edition has been completely revised (according to the Fatwa of Agha Syed Abu'l Qasim al-Khu'i, Dama Dhilluhul-Aali, Najaf, Iraq). Also, many subjects have been added because of the popular demand. For example, details of Ghusls, prayers of Ayaat, Jumu'ah, 'Eidain, Mayyit and Jama'at. Simply a must read for those that are unable to attend Hawza (Islamic University) yet wish to learn at least the basics of religion by means of authentic texts as compiled in this booklet

Prayer (Solah) Abu Khadijah Damansari, 2024-03-15 In this book, Abu Khadijah Damansari embarks on a profound journey, delving deep into the essence of Islamic worship through the lens of Prayer (Solah). With care, the author carefully arranges sacred texts from the Qur'an, Hadiths of the Prophet Muhammad (may Allah's peace and blessings be upon him), the sayings of the

prophetic Companions (may Allah be pleased with them), and insights from our esteemed Islamic scholars (may Allah have mercy on them). This compelling guide serves both – as a technical manual and a spiritual roadmap, compiled and written to nurture both the heart and mind of the reader. From the obligation of Solah to the intricate details of its performance, every aspect is elucidated with clarity and reverence. Readers will find themselves equipped with not only the knowledge of how to perform Solah correctly but also the inner disposition necessary for a meaningful connection with the Divine. The book meticulously outlines the essentials: from the times for prayer to the significance of the Adhan and Iqamah, from ensuring bodily purity to dressing appropriately for prayer. Each chapter unfolds seamlessly, addressing the compulsory, recommended, offensive, and forbidden elements of Solah. From the basic description of prayer to the details and nuances of prayers, from the significance of supererogatory prayers to the etiquette of group prayer, no stone is left unturned. Additionally, the author navigates through special circumstances, such as the prostrations of forgetfulness, shortening and combining prayers, and the prayers for various occasions like the two 'Eids and Jumu'a. Prayer (Solah) – invites readers to deepen their spiritual connection with the Lord Almighty through the profound worship of prayer. Whether you're just beginning your spiritual journey to seek guidance or yearning for a deeper understanding, this book intends to illuminate your path towards spiritual fulfillment, InshaAllah.
