**The Zones of Thought Series** Vernor Vinge, 2017-06-13 This discounted ebundle includes: A Fire Upon the Deep, The Children of the Sky, A Deepness in the Sky "Vinge is one of the best visionary writers of SF today." —David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these regions of thought, but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. A Fire Upon The Deep – Fleeing a galactic threat, Ravna crash lands on a strange world with a ship hold full of cryogenically frozen children, the only survivors. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. The Children of the Sky – Ten years have passed on Tines World, and Ravna and the children have survived a war. While there is peace among the Tines, there are those among them—and among the humans—who seek power...and no matter the cost, these malcontents are determined to overturn the fledgling civilization that has taken root since the humans landed. A Deepness in the Sky – Thirty-thousand years before A Fire Upon the Deep, two human groups, the Qeng Ho, a culture of free traders, and the Emergents, a ruthless society based on the technological enslavement of minds, stand on the verge of first contact with an alien race. After thousands of years of searching, humans stand on the verge of first contact with an alien race. Two human groups: the Qeng Ho, a culture of free, innovative traders, and the Emergents, a ruthless society based on the technological enslavement of minds. The group that opens trade with the aliens will reap unimaginable riches. But first, both groups must wait at the aliens' very doorstep, for their strange star to relight and for the alien planet to reawaken, as it does every two hundred and fifteen years... Amidst terrible treachery, the Qeng Ho must fight for their freedom and for the lives of the unsuspecting innocents on the planet below, while the aliens themselves play a role unsuspected by Qeng Ho and Emergents alike. More than just a great science fiction adventure, A Deepness In the Sky is a universal drama of courage, self-discovery, and the redemptive power of love. This new Tor Essentials edition of Vernor Vinge's A Deepness In the Sky includes an introduction by the Hugo, Nebula, and World Fantasy Award-winning Jo Walton, author of Among Others. As a business leader, you are tasked with not only navigating change yourself, but also guiding others through the maze successfully. This book shows you how to shift your perspective, hone your focus and deliver what your people need by: Understanding the reasoning behind different perspectives. В номере:База независимостиУгрозы независимости государства сегодня все чаще возникают не на его физических границах, а в области ИТ. Это свидетельствует об условности понятия суверенитета страны и подталкивает к мысли, что критически важные технологии должны развиваться внутри государства силами собственных специалистов. Похоже, что к этому в очередной раз начинают возвращаться и в России – все чаще на федеральном уровне слышны призывы развивать и поддерживать любые виды свободного ПО с целью демонополизации софтверного рынка, 70-90% которого сейчас принадлежит зарубежным коммерческим компаниям. Выступая на открытии Российской конференции разработчиков и пользователей PostgreSQL, собравшей разработчиков, пользователей, администраторов этой СУБД, а также представителей бизнеса и госучреждений, глава Минкомсвязи Николай Никифоров обратил внимание на необходимость достижения баланса, при котором доля одного разработчика ПО в ландшафте информационных систем федеральных ведомств не превышала бы 30–50%.
