Cagri Tolga, Irem Ucal Sari, 2021-08-23 This book presents recent research in intelligent and fuzzy techniques. Emerging conditions such as pandemic, wars, natural disasters and various high technologies force people for significant changes in business and social life. The adoption of digital technologies to transform services or businesses, through replacing non-digital or manual processes with digital processes or replacing older digital technology with newer digital technologies through intelligent systems is the main scope of this book. It focuses on revealing the reflection of digital transformation in our business and social life under emerging conditions through intelligent and fuzzy systems. The latest intelligent and fuzzy methods and techniques on digital transformation are introduced by theory and applications. The intended readers are intelligent and fuzzy systems researchers, lecturers, M.Sc. and Ph.D. students studying digital transformation. Usage of ordinary fuzzy sets and their extensions, heuristics and metaheuristics from optimization to machine learning, from quality management to risk management makes the book an excellent source for researchers.

3000 Years of Karma Legacy- An Indian Baniya Story KIM Moon-Young, 2021-10-22 As per the findings of the Korean author, the Indian business community of Baniyas i.e. Marwaris, Gujaratis, Jains, and others has ruled the Indian economy world for ages. These Baniya merchant groups with their origins in Gujarat, Rajasthan, and around are merely 2% (about 2.5 million) of the Indian population, and currently run 8-9 out of 10 top conglomerates in India. The author has credited Indian Baniyas and their 3000 years of Karma legacy for making India the economic superpower of the world. These Indian Baniya groups are and will remain dominant not only in traditional sectors but also in the new generation industries like IT-enabled e-commerce and other services. The book talks about the sacrifices made by this community, which forms the part of the global G3 (Great 3) merchant groups including Jewish and Chinese merchants who own a major chunk of business activity across the world. It shares characteristics with Korea's merchant community, Gaesung Merchants also. The book narrates the core competency of the Indian Baniyas and NRIs to address and prosper with this huge and prosperous country. The content of this is based on the South Korean author's years of research and first-hand experience while staying in Ahmadabad and parts of North India.

**E-Commerce, Competition & ASEAN Economic Integration** Cassey Lee, Eileen Lee, 2019-10-10 The e-commerce market has grown rapidly within the ASEAN region in recent years. This trend is expected to continue in the future given the region's large population base, rising middle-class and improvements in connectivity. This edited volume examines the current state of e-commerce in ASEAN countries. It highlights some of the key domestic and cross-border challenges faced by ASEAN member states in developing e-commerce. These challenges include the regulatory and legal environment in which e-commerce firms operate across ASEAN, and the supporting infrastructure in ASEAN member states. "A comprehensive snapshot of the latest emerging regulatory, policy and consumer issues. It's essential reading for anyone working in this field. E-commerce is fundamentally altering the way in which businesses are being conducted, both within and between ASEAN countries. More than just an alternate distribution channel, online trading offers new opportunities and challenges for consumers, businesses, regulators and policymakers. How do markets operate in the new paradigm? How should regulators and governments ensure that dynamic competitive economies evolve, instead of descending into anti-competitive structures? And how are markets evolving in different parts of Southeast Asia? All of these issues—and much more—are discussed in here. The editors are to be congratulated for assembling a range of insightful perspectives from across ASEAN. These are issues that will affect the region for many years to come. The lessons here are timely and timeless." —Michael Schaper Ph.D., Deputy Chairman, Australian Competition and Consumer Commission, 2008-18
