Analyse des contenus audiovisuels : métalangage et modèles de description STOCKINGER

Peter,2012-09-05 L'enjeu majeur pour les bibliothèques et archives numériques d'aujourd'hui est de permettre à tout usager une appropriation active de leurs fonds textuels et plus particulièrement audiovisuels. L'appropriation active implique l'adaptation des données audiovisuelles aux besoins et intérêts spécifiques d'un utilisateur ou d'un groupe d'utilisateurs. Analyse des contenus audiovisuels propose une étude du métalangage de description. Cet ensemble de modèles fonctionnels est un outil sémantique nécessaire à l'analyse concrète et personnelle d'un corpus de textes audiovisuels documentant l'univers du discours d'une archive audiovisuelle. Cet ouvrage dresse en premier lieu le cadre théorique et méthodologique de référence qui est celui de la sémiotique du texte audiovisuel. Les

deux parties suivantes développent d'une manière détaillée et concrète, le travail de l'analyste d'un corpus audiovisuel à l'aide d'un métalangage de description. Enfin, les différents éléments métalinguistiques qui le composent sont analysés.

L'épuisement du biographique? Vincent Broqua, Guillaume Marche, 2010-10-12 Pourquoi penser le biographique? N'est-il pas épuisé? Le siècle passé semble l'avoir vidé de son contenu et de sa substance et l'a réduit à un état d'affaiblissement presque complet dans le domaine des sciences sociales comme dans celui de la critique littéraire. L'enjeu de cet ouvrage est d'affirmer que le biographique déborde la biographie et de considérer le biographique comme une condition du retour de la biographie au moyen de son dépassement. Cet ouvrage rassemble des travaux abondant ...

Chamfort and the Revolution David McCallam, 2002 Sébastien-Roch Nicolas Chamfort remains one of the most enigmatic 'prompters' of the French Revolution. This study analyses his rhetorical and political programmes in tandem to reveal how Chamfort's discourse and politics inform and elucidate one another in both pre-revolutionary and revolutionary periods. It considers his key political texts - his 'Discours à l'Académie française', *Des académies*, the *Tableaux historiques de la Révolution française* and his posthumous *Maximes et pensées, caractères et anecdotes* - and exposes how, in each instance, Chamfort's conception of politics hinges on the adoption and subversion of prescribed discursive forms (reception speech, historical tableau,

maxim). In the 'Discours' and Des académies, Chamfort opposes the implicit discursive norm of le bon usage sanctioned by the Académie française, because it represses free expression and at the same time constitutes the Académie itself into an oppressive corporation imbued with neo-feudal values. Chamfort's subsequent interpretations of revolutionary events in his Tableaux historiques, while making explicit this same radical libertarianism, frame some reservations about the insurgent people as a political force. In the end, many of the tensions troubling Chamfort's politics are resolved by his posthumous Maximes et pensées, whose prevailing principle of honnêteté gives them a rhetorical and political independence from both the ancien régime, centred on notions of honneur, and the revolutionary Republic, founded on a principle of vertu. Previous studies have tended either to interpret Chamfort's works from their historical or biographical context, or - by considering exclusively the Maximes et pensées - to subordinate them to an established literary tradition. This innovative reading posits Chamfort's texts as an exemplary meeting-place of literary practice and political praxis at the time of the Revolution, shedding new light on both the function of literary forms in Chamfort's politics and the role of Chamfort the writer, as an ideological subject caught up in revolutionary events.

A Dictionary of Scientific Quotations Alan L. Mackay, 2019-04-04 Science affects us all-in the words of Albert Einstein, The whole of science is nothing more than a refinement of everyday

thinking. It is therefore fascinating to discover the thoughts of scientists, philosophers, humanists, poets, theologians, politicians, and other miscellaneous mortals on this most important of subjects. A Dictionary of Scientific Quotations is a personal selection of scientific quotations by Professor Alan L Mackay that includes graffiti, lines of song, proverbs, and poetry. Whether you believe that All problems are finally scientific problems (George Bernard Shaw) or that Imagination is more important than knowledge (Einstein), it is without doubt that It is a good thing for an uneducated man to read books of quotations (Churchill). You will be charmed and delighted by this collection and remember, 'Why,' said the Dodo, 'the best way to explain it is to do it' (Alice in Wonderland, Lewis Carroll).

A new comparative French grammar, and phraseological reference book Marin J George de La Voye, 1847

Les études philoniennes ,2021-07-19 This volume gathers the proceedings of the Paris conference in Philonic studies (2017), consisting of 23 papers by contributors from 8 countries. Fifty years after the Lyon conference, it aimed at taking a retrospective look at the intellectual contexts and the academic fields in which Philonic studies have penetrated, as well as the ways in which they evolved. The work of the Alexandrian became of major importance in the history of philosophy. It has been studied as a source of cultured Christianity, in connection with Second Temple Judaism and the Alexandrian Jewish community, but also in the context of research on rabbinic

Judaism, New Testament and philosophy of the imperial era. Ce volume rassemble les actes du colloque de Paris (2017), qui réunissent 23 intervenants de 8 nationalités. Cinquante ans après le colloque de Lyon, il s'agissait de réfléchir aux milieux intellectuels et aux disciplines universitaires dans lesquels les études philoniennes avaient pénétré le monde de la recherche, les bases sur lesquelles elles avaient évolué. L'œuvre de l'Alexandrin a pris une importance majeure dans l'histoire de la philosophie; elle a été explorée comme source du christianisme lettré, en lien avec le judaïsme de l'époque du Second Temple et la communauté juive d'Alexandrie, mais aussi dans le cadre des études sur le judaïsme rabbinique, dans le développement des études sur le Nouveau Testament et sur la philosophie de l'époque impériale--

Variations stylistiques Diane M.

Dansereau, 2016-02-23 This advanced level course book teaches stylistic variations of modern French grammar using examples from films and interviews as well as other authentic texts. Written entirely in French, it focuses on the most difficult grammar points and their usage, rather than on their formation. *Variations stylistiques* includes an abundance of oral and written exercises that are practical, relevant, creative, and fun, encouraging students to use the grammar in meaningful contexts. By highlighting the many linguistic variants employed by native speakers, Dansereau provides an engaging alternative to traditional French grammar textbooks. An ancillary

L'énonciation Médiatisée II Le Traitement Épistémologique de L'information Jon

Landaburu, 2007 Avec ce recueil qui reunit dix-huit contributions, nous poursuivons la quête collective entreprise dans le volume L'énonciation médiatisée ou, pour éviter toute confusion conceptuelle et terminologique, une distinction avait été introduite entre médiatif et énonciation médiatisée. Rappelons que, selon cette distinction, le terme de médiatif désigne une catégorie grammaticale qui, fondée sur des oppositions formelles au sein du système grammatical d'une langue, permet à l'énonciateur de présenter des situations (...) dont il n'assume pas la responsabilité pour en avoir eu connaissance par voie indirecte, d'où la possibilité pour lui de manifester divers degrés de distance par rapport au contenu de son propre message (Guentcheva 1996: 11). Notons que le médiatif exclut de son champ sémantique tout fait présenté comme un constat ou lié à la perception visuelle, que les degrés de distance que l'énonciateur manifeste à l'égard du contenu propositionnel du message transmis, laissent l'énoncé en dehors de toute assignation en vrai ou en faux (ibid.) et qu'il ne relève pas de la modalité épistémique. En revanche, l'énonciation médiatisée n'implique pas nécessairement de procédés grammaticalisés qui s'organisent en un

systeme coherent au sein de la langue, bien que, dans un contexte particulier, une forme verbale puisse recevoir une valeur mediativite ou qu'un element syntaxique comme certains adverbes ou expressions adverbiales puisse conduire a une interpretation mediativite de la phrase. Rappelons egalement que les contributions au recueil en question attestaient de la complexite du phenomene mediatif, de la variete de procedes morphosyntaxiques et lexicaux mis en uvre dans l'expression de la notion de mediation (ou de mediativisation) et de la relation complexe que la categorie du mediatif entretient d'une part avec la valeur de resultativite liee au parfait et d'autre part, avec la modalite epistemique. C'est le questionnement sur cette variete de procedes morphosyntaxiques et sur la pertinence de la notion de mediation ou de mediativisation dans d'autres langues du monde qui est a l'origine de ce second volume.
