*Quick Note Daily Journal* Speedy Publishing LLC, 2014-06-18 It is to your benefit to be able to jot down notes quickly and concisely. Many people carry around a big computer tablet to take notes on the fly. This is not practical as tablets have limited battery life, cumbersome word processing features, and it becomes heavy to carry around all day during work or during leisure time in town. If you have a quick notes journal, you can record your thoughts faster, more effectively, and have the freedom to share those notes with anyone on demand without having to worry about slow loading times or accidentally deleted files off your tablet.
