Riceyman Steps Arnold Bennett,2022-11-13 Riceyman Steps is a novel by British novelist Arnold Bennett, first published in 1923 and winner of that year's James Tait Black Memorial Prize for fiction. The story takes place in 1919-1920 and deals with the final year in the life of its main character, Henry Earlforward, a miser, who keeps a second-hand bookshop in the Clerkenwell area of London. Henry marries Violet Arb, a widow who keeps a neighbouring shop, and who sees in Henry a financially secure future. Henry's parsimony drives them into an increasingly wretched existence. Their lives are contrasted to that of their maid servant Elsie Sprickett and it is she, despite her extreme poverty, who brings life and a future to the bittersweet tale. Arnold Bennett (1867-1931) was an English journalist, novelist, and writer. After working as a rent collector and solicitor's clerk, Bennett won a writing contest which convinced him to become a journalist. He later turned to the writing of novels, including his most famous Clayhanger and Anna of the five towns.

Pin Ups Hannah Brocklehurst,Frances Fowle,2018 This book offers a beautiful exploration of Henri de Toulouse-Lautrec's works in lithography. It explores the new artistic approach to the poster at the end of the 19th century, which bridged visual and popular culture and turned the relationship between 'high' and 'low' art on its head. Technical innovations in lithography pioneered by Lautrec and other artists produced larger sizes, more varied colours and new effects and launched the role of the poster as a powerful tool for communication and marketing in fin de siecle Paris. Lautrec's embrace of celebrity helped to define the famous hotspots (theatres, cabarets and cafe-concerts) of fin de siecle Paris and made their stars recognisable figures across the whole city. Works by contemporaries such as Pierre Bonnard, Theophile Alexandre Steinlen and Jules Cheret also feature, and Lautrec's influence on British, and particularly Scottish, artists of the period will be explored. These include Walter Richard Sickert, Arthur Melville, John Duncan Fergusson, William Nicholson and James Pryde. Exhibition: Scottish National Gallery, Edinburgh, UK (06.10.2018 - 20.01.2019).

The Mythic Warrior's Handbook the Centaur Chiron,2010-01-18 Back when lightning-throwing gods and multiheaded monsters ruled a world in constant chaos, there was one man who stood on four hooves against it all. He was Chiron the Centaur, the wise(-cracking) teacher to amateur heroes. He turned cowardly boys into powerful warriors, helped them achieve greatness, and overcome their Daddy issues--seriously, how many kids back then were waiting for Zeus to come by and play catch? Now, thousands of years later, Chiron's textbook has been unearthed. And it's your chance to join the ranks of Ancient Greece's finest. Be forewarned: It's no simple task. You have a lot to learn. Inside lies the necessary knowledge to start a quest as epic as one of the great's--from the inner workings of Mt. Olympus to the ins-and-outs of the Underworld to the Achilles' heel of each brutal beast you'll battle along the way. This handbook is as important as the sword in your hand and the shield on your back.

Small-Scale Synthesis of Laboratory Reagents with Reaction Modeling Leonid Lerner,2011-02-16 The in-lab preparation of certain chemical reagents provides a number of advantages over purchasing various commercially prepared samples. This is especially true in isolated regions where acquiring the necessary substances from overseas can cause undue delay and inconvenience due to restrictions on the transportation of hazardous chemicals. An invaluable resource for chemists in a variety of environments, Small-Scale Synthesis of Laboratory Reagents with Reaction Modeling presents efficient, sensible, and versatile methods for the laboratory preparation of common chemical reagents. Rapid, reliable synthesis Designed to facilitate smooth experimentation in the lab, this volume presents preparations chosen for their short duration, availability of apparatus, high yield, and high purity of the product. Adding an educational component, the book also discusses fundamental processes in inorganic chemistry, presenting original modeling of reactions and their practical implementation. Theoretical aspects are discussed to a greater extent than is

usual in synthetic literature in cases where there is a direct impact on experimental parameters, such as the reaction time, yield, and purity of the product. More than 30 convenient, time-saving preparations Focusing on simple synthesis of high-purity reagents, the book contains over 30 presentations, a substantial number of which are mathematically modeled for the first time. Most syntheses can be carried out in one day using common laboratory equipment, making this volume a valuable and time-saving tool.

Why Can't I Meditate? Nigel Wellings,2016-04-12 An accessible guide from an expert on Mindfulness on how to get the most out of meditation--and make the practice a permanent part of your daily life. Meditation is supposed to be a practice that's relaxing and beneficial...so why is it so hard to commit to? While many people have taken workshops in meditation, a significant number don't maintain their practice for long after the class is finished. Mindfulness can help us relax and is great for coming to grips with thoughts that make us depressed or anxious, but it can also bring us into a more intimate relationship with ourselves--a prospect that can make some feel uncomfortable. Yes, lots of good things come out of meditation practice, but keeping it up is challenging. This is where Why Can't I Meditate? comes in. Full of practical ways to help our mindfulness practice flourish, it also features guidance from a wide spectrum of secular and Buddhist mindfulness teachers, and personal accounts by new meditators on what they find difficult and what helps them overcome those blocks. It takes what is boring, painful, or downright scary about meditating and shows how these struggles can become an invaluable part of our path. If you have been considering meditating but doubted your ability, if you are having a hard time continuing, or if you've reluctantly stopped, Why Can't I Meditate? will help you get your mindfulness practice back on track.

Water, sanitation, hygiene (WASH) and wastewater management to prevent infections and reduce the spread of antimicrobial resistance (AMR) WHO/FAO/OIE,2020-06-01 This technical brief provides information to inform Water Sanitation and Hygiene (WASH) and wastewater elements within multi-sectoral antimicrobial resistance (AMR) national action plans (NAPs). It includes a summary of evidence and the co-benefits rationale for action in each sector and presents a menu of actions for consideration and refinement in each country context. The technical brief also identifies sector specific policy options and to additional information, including knowledge gaps and research needs, as well as additional technical resources to support planning and implementation.

Governing through Crime in South Africa Dr Gail Super,2013-10-28 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment. It examines how the problem of crime has emerged as a major issue to be governed in post-apartheid South Africa. Having undergone a dramatic transition from authoritarianism to democracy, from a white minority to black majority government, South Africa provides rich material on the role that political authority, and challenges to it, play in the construction of crime and criminality. As such, the study is about the socio-cultural and political significance of crime and punishment in the context of a change of regime. The work uses the South African case study to examine a question of wider interest, namely the politics of punishment and race in neoliberalizing regimes. It provides interesting and illuminating empirical material to the broader debate on crime control in post-welfare/neoliberalizing/post transition polities.

Exploring the Frontiers of Innovation to Tackle Microbial Threats Engineering National Academies of Sciences (and Medicine),2020 On December 4-5, 2019, the National Academies of Sciences, Engineering, and Medicine held a 1.5-day public workshop titled Exploring the Frontiers of Innovation to Tackle Microbial Threats. The workshop participants examined major advances in scientific, technological, and social innovations against microbial threats. Such innovations include diagnostics, vaccines (both development and production), and antimicrobials, as well as nonpharmaceutical interventions and changes in surveillance. This publication summarizes the presentations and discussions from the workshop.

Lloyd's Register Technical Association Session 1989-1990 Lloyd's Register Foundation,1989-01-01 The Lloyd's Register Technical Association (LRTA) was established in 1920 with the primary objective of sharing technical expertise and knowledge within Lloyd's Register. Publications have consistently been released on a yearly basis, with a brief interruption between 1938 and 1946. These publications serve as a key reference point for best practices and were initially reserved for internal use to maximise LR's competitive advantage. Today, the LRTA takes a fresh approach, focusing on collaboration by combining professional expertise from across LRF & Group to ensure a frequent output of fresh perspectives and relevant content. The LRTA has evolved into a Group-wide initiative that identifies, captures, and shares knowledge spanning various business streams and functions. To support this modern approach, the LRTA has adopted a new structure featuring representatives and senior governance across the business streams and the LR Foundation. The Lloyd's Register Technical Association Papers should be seen as historical documents representing earlier viewpoints and are not reflective of current thinking and perspectives by the current LR Technical Association. The Lloyd's Register Staff Association (LRSA) changed its name to the Lloyd's Register Technical Association (LRTA) in 1973.
