Muni Metro Joe Mendoza,2010-09-14 Take a journey on San Francisco's Muni Metro system. Ride the light rail cars in the outer neighborhood, and then dip into San Francisco's tunnels and subway for a swift ride downtown. Visit all the Muni Metro underground stations and all handicap accessible stops on the surface. Then, after visiting Muni Metro, take a quick tour of the historic streetcars on Market Street, and the cable cars on Powell and California Streets. Included are color photos of all the stations and accessible stops. Most of these photos were taken at the end of 2009 and the beginning of 2010. Historic photographs are also included.

BART Michael C. Healy,2013-01-01 An insider's "indispensible" behind-the-scenes history of the transit system of San Francisco and surrounding counties (Houston Chronicle). In the first-ever history book about BART, longtime agency spokesman Michael C. Healy gives an insider's account of the rapid transit system's inception, hard-won approval, construction, and operations, warts and all. With a master storyteller's wit and sharp attention to detail, Healy recreates the politically fraught venture to bring a new kind of public transit to the West Coast. What emerges is a sense of the individuals who made (and make) BART happen. From tales of staying up until 3:00 a.m. with BART pioneers Bill Stokes and Jack Everson to hear the election results for the rapid transit vote to stories of weathering scandals, strikes, and growing pains, this look behind the scenes of an iconic, seemingly monolithic structure reveals people at their most human—and determined to change the status quo. "The Metro. The T. The Tube. The world's most famous subway systems are known by simple monikers, and San Francisco's BART belongs in that class.

Michael C. Healy delivers a tour-de-force telling of its roots, hard-fought approval, and challenging construction that will delight fans of American urban history."—Doug Most, author of The Race Underground: Boston, New York, and the Incredible Rivalry That Built America's First Subway

From the Ground Up Alison Sant,2022-01-11 In From the Ground Up: Local Efforts to Create Resilient Cities, design expert Alison Sant focuses on the unique ways in which US cities are working to mitigate and adapt to climate change while creating equitable and livable communities. Sant presents 12 case studies, drawn from research and over 90 interviews with people who are working in these communities to make a difference. These efforts show how US cities are reclaiming their streets from cars, restoring watersheds, growing forests, and adapting shorelines to improve people's lives while addressing our changing climate. From the Ground Up is a call to action. When we make the places we live more climate resilient, we need to acknowledge and address the history of social and racial injustice. Advocates, non-profit organizations, community-based groups, and government officials will find examples of how to build alliances to support and embolden this vision together.
