Applications of Cognitive Computing Systems and IBM Watson Danish Contractor,Aaditya Telang,2017-10-29 This book presents reports and methods that demonstrate the ease with which cognitive applications can be built using IBM Watson application program interfaces (APIs). It includes application reports from two IBM Watson API-based competitions – Hackathon (24 hours) and a Challenge task (~3 months). It also features a selection of papers presented at I-CARE 2016, the IBM Collaborative Academia Research Exchange event, from the areas of “Theory and Cognitive Computing”, “Data Platforms and Systems,” and “Societal Applications.” IBM has a long tradition of research collaboration with colleagues in academia, and I-CARE is an annual event initiated in 2009 to promote collaborative innovation and learning, and explore new ways of fostering a culture of innovation. I-CARE's main goal is to “amalgamate” the thought leadership in Indian academia with that in industry, and foster a symbiotic environment for establishing a rich research culture in India. The 8th edition of I-CARE presents a collection of thought-provoking ideas and novel Indian research projects related to three crucial areas: cognitive computing, systems and platforms that support large-scale data processing and practical systems that are designed for the public good.

The Four Tendencies Gretchen Rubin, 2017-09-12 NEW YORK TIMES BESTSELLER • Are you an Upholder, a Questioner, an Obliger, or a Rebel? From the author of *Better Than Before* and *The Happiness Project* comes a groundbreaking analysis of personality type that “will immediately improve every area of your life” (Melissa Urban, co-founder of the Whole30). During her multibook investigation into human nature, Gretchen Rubin realized that by asking the seemingly dry question “How do I respond to expectations?” we gain explosive self-knowledge. She discovered that based on their answer, people fit into Four Tendencies: • Upholders meet outer and inner expectations readily. “Discipline is my freedom.” • Questioners meet inner expectations, but meet outer expectations only if they make sense. “If you convince me why, I’ll comply.” • Obligers (the largest Tendency) meet outer expectations, but struggle to meet inner expectations—therefore, they need outer accountability to meet inner expectations. “You can count on me, and I’m counting on you to count on me.” • Rebels (the smallest group) resist all expectations, outer and inner alike. They do what they choose to do, when they choose to do it, and typically they don’t tell themselves what to do. “You can’t make me, and neither can I.” Our Tendency shapes every aspect of our behavior, so using this framework allows us to make better decisions, meet deadlines, suffer less stress, and engage more effectively. It’s far easier to succeed when you know what works for you. With sharp insight, compelling research, and hilarious examples, *The Four Tendencies* will help you get happier, healthier, more productive, and more creative.

110 Amazing Apps for Education Rane Anderson, 2012-02-01 Here's an easy-to-use, quick reference guide for apps that supplement student learning. It gives suggestions for how teachers can implement each app in the classroom and for how parents can use the apps at home to extend their child's learning. This resource is correlated to the Common Core State Standards, is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills, and supports core concepts of STEM instruction.

Big Tech Tyrants Floyd Brown, Todd Cefaratti, 2019-09-03 They are driven without respect for the lives they are changing... “Boy Kings,” or Big Tech Tyrants, are considered the most powerful individuals in the world. They’re the autocratic aristocrats who run the tech giants in Silicon Valley, and if the labels are accurate, they suggest these social platform operators have gained a non-elected (or, should we say, a self-elected) authoritarian power.

They wield it with more effectiveness and precision than any sitting government or military strategist. Big Tech Tyrants boast riches beyond emperors of old but act like juveniles who don't want to grow up. They are modern-day robber barons. Big Tech Tyrants don't know the meaning of privacy, when it comes to you. They try to make you believe they will give their products away for free as a service to society, when really, they are vacuuming your personal data. They use this data to discover your deepest secrets. Are you or your partner trying to get pregnant? Are you underwater financially? Are you having an extramarital affair? Do you have a tidy nest egg? Are you a Trump supporter? Are you a Bernie Sanders follower? Are you a Scientologist, Mormon, Christian, or Buddhist? Your personal data is extremely valuable to them—and they use it—and abuse. These tyrants knowingly addict users to make more money. Not only that, they also consider themselves the most enlightened the world has ever seen—so they know what's best for you to see—from the news and information you read to the political candidates they think you should vote for. They censor news and only let you see what they want you to see. This is an eye-opening must read for anyone living in the twenty-first century!

HQ Trivia Brayden C. Harris,Christopher C. Harris,2017-12-23 HQ Trivia Is the Hottest Game: What You Need to Know Know that the questions are hard, and you need a study guide. You won't be able to google the answers, so you need to study.What else do you need to know, well that is how to play.Are your friends taking breaks at 3 p.m. and 9 p.m. every day to gather around an iPhone? They're probably playing HQ, a recent sensation on smartphones in which they play trivia for real money. The rules are simple, the host is personable and the lure of a real cash prize brings hundreds of thousands of people to the table.What is HQ Trivia?HQ Trivia is a live trivia app that you play for real money. The game goes live at 3 p.m. and 9 p.m. EST on weekdays and 9 p.m. EST on weekends. The game is hosted by comedian Scott Rogowsky, though he occasionally has substitutes, including British broadcast personality Sharon Carpenter.What are the rules?The game consists of 12 multiple choice trivia questions, ranging from easy to devastatingly hard (the latter have been labeled savage questions by the hosts). You have roughly ten seconds to answer each question, starting from when the host begins reading it. HQ's creators suggest this keeps the questions from being Google-able (I've found that they're right.) Everyone who completes all 12 questions split the jackpot. If no one wins, it carries over to the next game.How much money can I win?When the game debuted in August, jackpots were around \$100, but they have since ballooned to regular games for \$250 and now \$1,000. Every once in a while, a game will go much higher, including a recent set for a grand prize of \$8,000. Of course, if you win, you're likely splitting it with other winners. You can cash out with a PayPal account.You mentioned iPhones. Is there an Android version?Right now, HQ Trivia is only available on iOS. . But it seems to be coming to Android soon. In a tweet, the company suggested that Android owners could see the game by time the holidays roll around.How do I get extra lives?While HQ used to hand out extra lives, now you seemingly only get them by referring friends. Give them your referral code, which is identical to your username. When they plug it in, you'll get a second chance in your next game.What's with all of the memes?HQ has a chat on the bottom, and boy is it active. I mean, it's really something else. If you find it annoying, you can swipe it away, but it's also the breeding ground for a bunch of weirdness. Chat is where fans started calling

Rogowsky quiz daddy, and started continuously writing the phrases dink fam and Fish Squad Worldwide, neither of which I understand. There's also a lot of horror in the chat, too, with people writing derogatory statements about all types of minority groups, seemingly for no reason. Some people get banned, but that hasn't stopped the behavior. What is The Q? Is it related? You may have recently heard of a similar game, The Q, which has received some buzz. It's an HQ clone with fewer players (for now), far less charismatic hosts, poorer production values and a smaller prize pool (usually \$500 or less). But it's on both iOS and Android, so it planted a flag on the trivia app landscape on Android before HQ did. If you've noticed in uptick in coworkers and friends stopping dead in their tracks around 3pm EST to stare intensely at their phones, it's likely they've fallen under the spell of HQ Trivia. The live mobile game show app, developed by the team behind Vine and launched in late August, draws hundreds of thousands of contestants multiple times a day to compete for a pot of actual cash. To win, you just need to answer 12 multiple choice trivia questions correctly within the time limit and a piece of the jackpot -- usually \$1,000 per game, but it's been as big as \$8,500 -- is yours. Simple enough, right? Wrong. Winning HQ is hard as hell.

The Five Love Languages Gary Chapman, 2009-12-17 Marriage should be based on love, right? But does it seem as though you and your spouse are speaking two different languages? #1 New York Times bestselling author Dr. Gary Chapman guides couples in identifying, understanding, and speaking their spouse's primary love language-quality time, words of affirmation, gifts, acts of service, or physical touch. By learning the five love languages, you and your spouse will discover your unique love languages and learn practical steps in truly loving each other. Chapters are categorized by love language for easy reference, and each one ends with simple steps to express a specific language to your spouse and guide your marriage in the right direction. A newly designed love languages assessment will help you understand and strengthen your relationship. You can build a lasting, loving marriage together. Gary Chapman hosts a nationally syndicated daily radio program called A Love Language Minute that can be heard on more than 150 radio stations as well as the weekly syndicated program Building Relationships with Gary Chapman, which can both be heard on fivelovelanguages.com. The Five Love Languages is a consistent New York Times bestseller - with over 5 million copies sold and translated into 38 languages. This book is a sales phenomenon, with each year outselling the prior for 16 years running!
