The Book of Pride Mason Funk,2019-05-21 THE BOOK OF PRIDE captures the true story of the gay rights movement from the 1960s to the present, through richly detailed, stunning interviews with the leaders, activists, and ordinary people who witnessed the movement and made it happen. These individuals fought battles both personal and political, often without the support of family or friends, frequently under the threat of violence and persecution. By shining a light on these remarkable stories of bravery and determination, THE BOOK OF PRIDE not only honors an important chapter in American history, but also empowers young people today (both LGBTQ and straight) to discover their own courage in order to create positive change. Furthermore, it serves a critically important role in ensuring the history of the LGBTQ movement can never be erased, inspiring us to resist all forms of oppression with ferocity, community, and, most importantly, pride

The Yellow Wallpaper Illustrated Charlotte Perkins Gilman,2021-05-29 The Yellow Wallpaper is a short story by American writer Charlotte Perkins Gilman, first published in January 1892 in The New England Magazine.

The Yellow Wallpaper Charlotte Perkins Gilman,2023-03-06 Edited with a new introduction by Aimee McLaughlin The Yellow Wallpaper by American writer Charlotte Perkins Gilman, first published in January 1892, is regarded as an important early work of American feminist literature for its illustration of the attitudes towards mental and physical health of women in the 19th century. What happens when a woman is pushed too far? Is she able to express her thoughts and feelings, or is she forced towards the expectation of behaving 'normally' again soon? A woman travels with her husband to an old colonial mansion after a nervous breakdown triggered by the birth of their child. Confined to the nursery and allowed only to breathe fresh air, eat well and rest in line with a regimented 'cure', she slowly begins to unravel at the seams. Her only distraction is writing in secret – that, and the woman she begins to see trapped inside the yellow wallpaper of the room itself. Isolated and breaking apart, she sets herself a task: to free the woman, and to become one with her temporary confinement. Charlotte Perkins-Gilman's 'The Yellow Wallpaper' presents a harrowing, disturbing account of mental stress, confinement and female turmoil - within which the only available solace can be found inside four peeling, sickly yellow walls ... Our new edition also features the sequence of poems Woman by Charlotte Perkins Gilman. The gothic genre offers Gilman an effective mode of diagnosing contemporary culture whilst in tandem expressing her ensuing fears and anxieties. Gilman within this novella, gothicises the domestic setting, inverting the pillars of domesticity: family, security and understanding, in turn unveiling the dangers lurking behind the familiarity of gender roles within marital relations. The intimate first-person narration of the narrative serves to enhance Gilman's exposure of the oppressive forces of a male-dominated society, as she deplores her protagonist's inferior position in her domestic arrangement. The female narrator is encumbered by masculine superiority, undoubtedly dwelling in the middle of patriarchy. Embedded within her characterisation is the subjugated role bestowed upon Victorian women. Gilman projects derangement onto a familiar literary figure — the middle–class wife and mother — placing the source of this madness in the inviolate sphere for dutiful women — the home. from the new introduction to The Yellow Wallpaper by Aimee McLaughlin

Educational Leaders Without Borders Rosemary Papa,Fenwick W. English,2015-06-23 Building from the history of inequality in education up to current problems, this text posits viewpoints on how to cultivate humanistic leaders in education to best benefit

underserved children around the world. Among perspectives examined are economic, cultural, and political circumstances that benefit some and harm others, creating educational inequality. To illustrate the work that must be done, this book connects vignettes of compelling school issues to educational philosophies, e.g., Makiguchi's work, to bridge the theoretical and the practical and pose real solutions.

Pathfinders' Dawn of Understanding Elle Travis, 2023-01-31 It is the year 2030. Six best friends discover a magical world under the earth where time stands still. A messenger fairy takes the teens through an education unlike anything they know. She transports them through historic ages and helps them remember truths found deep in their DNA. The teens hear wisdom from the giant whales that nature was never a competition or struggle of survival of the fittest, but rather all life; plants, trees, animals, insects, fish, microorganisms, and humans living in mutual cooperation. As the teens get a new education from Light Feather, another equally important mission is being carried out. Ms. Cheryl, a trailblazer and friend of the teens, is hard at work holding ceremonies at ancient sites where an energy grid crisscrosses the earth. It is being restored for the first time since the collapse of Atlantis. We learn how it mirrors a grid 60 miles above the earth which is under control of dark forces and has been for thousands of years. If Ms. Cheryl is successful, light forces from far away galaxies will be able to flip the grid and regain control. This will further accelerate the awakening of humanity to new possibilities for peace. Once their education is complete they take next steps for their initiation or 'rite of passage from childhood to adulthood. Upon completion they attend a graduation ceremony on the other side of the earth in the Great Pyramid of Giza where they experience many surprises. They step into character as superheroes in waiting as they meet their mentors and practice perfecting their superpowers. They each tackle a different aspect of nature. Over time the teens' crusade makes big changes to help people heal and that helps Mother Earth get better.

We repeatedly tell ourselves things that may or may not be true on a daily basis. Some of the things we tell ourselves are accurate, encouraging, edifying and Christ-centered. In how to believe your positive self-talk, here is just a fraction of what you will discover: • Why understanding and embracing your inner child is essential for developing authentic positive feelings • Practical exercises to help you get in touch with your innermost self and begin to make lasting changes • How to practice forgiveness for yourself and others, even if you have no idea where to begin • 4 exercises to help you develop self-compassion and silence the inner critic that is tearing you down • How life scripts have been defining your story long before you were consciously aware of them Talking to yourself and learning how to listen will get you one step closer to understanding how to rewire your brain hack you're self-talk, and use it to thrust yourself towards your goals. The Boilerplate Rhino David Quammen, 2012-10-23 In 1981 David Quammen began what might be every freelance writer's dream: a monthly column for Outside magazine in which he was given free rein to write about anything that interested him in the natural world. His column was called Natural Acts, and for the next fifteen years he delighted Outside's readers with his fascinating ruminations on the world around us. The Boilerplate Rhino brings together twenty-six of Quammen's most thoughtful and engaging essays from that column, none previously printed in any of his earlier books. In lucid, penetrating, and often quirkily idiosyncratic prose, David Quammen takes his readers with him as he explores the world. His travels lead him to rattlesnake handlers in Texas; a lizard specialist in Baja; the dinosaur museum in Jordan, Montana; and halfway across Indonesia in search of the perfect Durian fruit. He ponders the history of nutmeg in the southern Moluccas, meditates on bioluminescent beetles while soaking in the waters of the Amazon, and delivers The

Dope on Eggs from a chicken ranch near his hometown in Montana. Quammen's travels are always jumping-off points to explore the rich and sometimes horrifying tension between humankind and the natural world, in all its complexity and ambivalence. The result is another irrepressible assortment of ideas to explore, conundrums to contemplate, and wondrous creatures to behold.

Vignettes Manoj Kumar Patel, Gayatri Patel, 2019-10-31 The entire universe is a book to read and understand. Nature, environment, human, human behaviors, hunger, thirst, power, lust, love, competition, birds, animals, stars all of these convey mute as well as verbal messages with consistency and inconsistencies to its system and surroundings. Observant, if one is, can capture these and convert these to meaningful words which in turn can help in making a good living environment for one and all. The present book is a compilation of articles written over a period of 12 months starting from May 2018 to June 2019. The authors have expressed their observations and their own interpretations in different moods, melancholy, painful moments and pleasurable instances. Hence, these are, one can say, the manifestation of both conventional as well as unconventional thoughts. We have not limited our expressions to any limits. The articles are written as the words started coming to our mind based on the situation and circumstance of the events observed. We, consciously, have kept the articles in a format that is different from other books. We have discussed the Ramayana as a history rather than mythology, we have also deliberated on beauty as a deeply valued material, we have also written about materials such as narcissism and living with originality. We have also spoken about – life as a practical field and is not to be lived as a moral science classroom. The articles are deliberately kept at random and each article is a stand-alone description. We would suggest readers read any article as the first article and any article as the final article because all articles in the book are independent and mutually exclusive from other articles.
