Journey to the White Rose in Germany Ruth

Bernadette Melon,2007 In Munich 1942-43, handbills appeared-some in mailboxes-some left secretly on parked cars-others still, surfaced in city phone booths. The words condemned Adolf Hitler and the Nazi regime and called Germans to passive resistance. The message, penned and distributed by a handful of student-soldiers and other youthful associates who had come of age during the twelve-year catastrophe of the Third Reich, hoped to stir the conscience of a nation. The regime had tempted them with promises of power and prosperity. In time, the youths made their way through a labyrinth of propaganda, confusion, and personal conflict, arriving at the threshold of their own inner convictions-a passage bringing them to a destination called the White Rose. Among the recipients of the Leaflets of the White Rose were teachers the group hoped would spread the call to resistance. A university professor accepted their challenge. Sixty years later, an American teacher felt compelled to learn and follow the story, not knowing when she began, that it would lead her to the spirit of the White Rose that lives yet today. Along with three fellow educators, Ruth traveled to Germany to dialogue with schools now named for members of the White Rose. On a quiet country lane or a busy city street, teachers toil daily, urging students to think critically, stay informed, and develop skills that will nurture and renew the freedoms the White Rose could only imagine. Journey to the White Rose in Germany is an invitation to encounter a past that inspires the present and the future. Ruth Bernadette Melon recently celebrated

more than three decades as a New Jersey middle school educator. During her tenure, she taught Humanities, World Cultures, and writing. Now enjoying the writing life, she considers herself a life-long learner. Having received a BA in English from Rutgers University and an MFA in Creative Nonfiction from Goucher College in Maryland, she is currently a candidate for a D.Litt degree with a concentration in writing. Ruth was named a 2003 Morris County Teacher Fellow by the Geraldine R. Dodge Foundation. Ruth lives with her husband Ira in New Jersey and enjoys the frequent company of her children and the larger family circle.

The Numbers on My Parents' Arms Jerry

Bagel,2019-09-19 In June, 1991 sitting in his hospital room contemplating cardiac bypass surgery my father said, "Vus ich hot adorch geleibt!" (What I have lived through!) I wasn't sure at the time if he meant his recent heart attack but over time especially after researching his journey it became clear to me. I thought I knew my dad's plight only to realize some of his most horrible experiences were never brought to my attention. The adage of the first casualty of war is the truth hung in the balance with loss and trauma deserves its own sanctity. Helen Friedman and Sam Bagel walked through the shadows of death, lost their entire nuclear families, and like the Phoenix bird re-emerges from its own ashes, they too resurrected themselves to start a family, be happy and thankful people.

Introduction to Digital Systems introduces digital electronics from first principles and goes on to cover all the main areas

of knowledge and expertise needed by students up to first year degree level, as well as technicians and other professionals. Whether you are looking for a complete self-study course in digital electronics, a concise reference text to dip into or a course text that is readable and straightforward, John Crisp has provided the solution. A concise, readable introductory text ideal for self-study by professionals or students on courses with limited contact time Covers the practical side from a technician/professional viewpoint Content carefully matched to a range of BTEC and C&G syllabuses

Minority Discourses in Germany since 1990 Ela Gezen, Priscilla Layne, Jonathan Skolnik, 2022-04-08 While German unification promised a new historical beginning, it also stirred discussions about contemporary Germany's Nazi past and ideas of citizenship and belonging in a changing Europe. Minority Discourses in Germany Since 1990 explores the intersections and divergences between Black German, Turkish German, and German Jewish experiences, with reflections on the evolving academic paradigms with which these are studied. Informed by comparative approaches, the volume investigates social and aesthetic interventions into contemporary German public and political discourse on memory, racism, citizenship, immigration, and history.

The World Disorder Luiz Alberto Moniz Bandeira, 2019-01-23 This book offers a historical analysis of the geopolitical and geoeconomic competition between the USA and Russia, which has recently heated up again due to

the eastward expansion of NATO. The analysis departs from an exploration of the USA's foreign policy and geopolitical ambitions by illustrating the influence of Wall Street and the military-industrial complex on the country's political decision-making. The historical review covers a wide timespan, from the Second World War and the birth of NATO, to the wars against Iraq and Afghanistan, to the rebellions that erupted in Eurasia, Northern Africa and the Middle East in the 2010's, as well as the wars in the Ukraine and in Syria. By doing so, it reveals the influence of US neocons, the US intelligence services and the military complex on the Arab Spring, the Color Revolutions and the armed conflicts in Ukraine and Syria. Ultimately, the book depicts a new era of worldwide instability and disorder, dominated by violence and arbitrariness.
