**Resource Guide for Towing Industry Support Specialists** Towing And R Association of America Inc, 2021-05-20 TRAA is publishing this guide as a resource for those working in the towing and recovery industry who are not themselves towing operators. In this advanced level, we will expand on the topics previously discussed in the Resource Guide for Support Professionals (Book 1) and build on that knowledge base to introduce new topics specific to higher level support staff such as company safety managers, compliance directors, non-operator company owners, etc. Additionally, this guide may be used a study guide to prepare for the TRSCP(R) Advanced Level certification exam available on [www.towcert.com](http://www.towcert.com). Background For towing and recovery professionals to effectively do their jobs, they rely on other industry professionals serving in supportive roles who are not themselves tow operators. While many don't work directly on the roadways, support personnel such as dispatchers, scene safety supervisors, compliance directors, and office managers are an integral part of the towing and recovery team. The role of support personnel is critical to effective incident management. Many of these individuals respond to incident sites or work behind the scenes to dispatch equipment and resources that are necessary to facilitate the clearance. They also handle communication, documentation, and track the incident for safety compliance thereby contributing to quick clearance needs. While the TRSCP(R) was developed specifically for the towing and recovery industry, the program is open to all qualified candidates in other associated fields that meet the requirements. If you are an agency dispatcher in law enforcement, 911, TIM, Department of Transportation (DOT), etc. we hope this program will enhance your understanding of the equipment, resources, and logistics necessary for an efficient towing and recovery response and, thereby, increase interdisciplinary communication. If you are a non-agency party that may be present at an incident scene (such as Public Information Officers (PIO), media, fleet safety directors, and insurance adjusters), we hope this will expand your knowledge base of incident management and quick clearance. These materials are intended for educational purposes only.

**Principles of Light Duty Towing and Recovery** Towing and Recovery Association of America Inc, 2021-09-14 TRAA is publishing this guide as a resource for light duty operators working in the towing and recovery industry. Additionally, this guide may be used a study guide to prepare for the TROCP(tm) Level 1 - Light Duty certification exam available at [www.towcert.com](http://www.towcert.com). As a professional certification program, the Towing & Recovery Operator Certification Program(tm) (TROCP(tm)) is intended to measure certain basic knowledge, skills, and competencies that have been deemed appropriate for those employed as light duty tow truck operators. Participants must demonstrate that they meet these predetermined standards by successfully completing the corresponding assessment. As the voice of America's towing industry the Towing and Recovery Association of America, Inc. ® (TRAA) has created this resource guide to define the basic towing services, skills, topics, and procedures that should be known by a light duty tow truck operator within the United States. For the purposes of this guide, a light duty tow truck operator is defined as a person capable of executing the proper and safe towing and recovery of vehicles under 10,001 GVWR and related services. These materials are intended for educational purposes only.
