On the Air John Dunning,1998-05-07 Now long out of print, John Dunning's *Tune in Yesterday* was the definitive one-volume reference on old-time radio broadcasting. Now, in *On the Air*, Dunning has completely rethought this classic work, reorganizing the material and doubling its coverage, to provide a richer and more informative account of radio's golden age. Here are some 1,500 radio shows presented in alphabetical order. The great programs of the '30s, '40s, and '50s are all here--Amos 'n' Andy, Fibber McGee and Molly, The Lone Ranger, Major Bowes' Original Amateur Hour, and The March of Time, to name only a few. For each, Dunning provides a complete broadcast history, with the timeslot, the network, and the name of the show's advertisers. He also lists major cast members, announcers, producers, directors, writers, and sound effects people--even the show's theme song. There are also umbrella entries, such as News Broadcasts, which features an engaging essay on radio news, with capsule biographies of major broadcasters, such as Lowell Thomas and Edward R. Murrow. Equally important, Dunning provides a fascinating account of each program, taking us behind the scenes to capture the feel of the performance, such as the ghastly sounds of *Lights Out* (a horror drama where heads rolled and bones crunched), and providing engrossing biographies of the main people involved in the show. A wonderful read for everyone who loves old-time radio, *On the Air* is a must purchase for all radio hobbyists and anyone interested in 20th-century American history. It is an essential reference work for libraries and radio stations.

Powerful Patriots Jessica Chen Weiss,2014-08-01 What role do nationalism and popular protest play in China's foreign relations? Chinese authorities permitted anti-American demonstrations in 1999 but repressed them in 2001 during two crises in U.S.-China relations. Anti-Japanese protests were tolerated in 1985, 2005, and 2012 but banned in 1990 and 1996. Protests over Taiwan, the issue of greatest concern to Chinese nationalists, have never been allowed. To explain this variation, *Powerful Patriots* identifies the diplomatic as well as domestic factors that drive protest management in authoritarian states. Because nationalist protests are costly to repress and may turn against the government, allowing protests demonstrates resolve and makes compromise more costly in diplomatic relations. Repressing protests, by contrast, sends a credible signal of reassurance, facilitating diplomatic flexibility. *Powerful Patriots* traces China's management of dozens of nationalist protests and their consequences between 1985 and 2012.

New Perspectives on Geography of Media SHAO Peiren,2023-12-02 Based on the ancient Chinese concept of the unity of Heaven and Man (天人合一, 'tian ren he yi'), guided by principles governing the connections and interdependencies between Heaven, Earth, Man, and the media, and in accord with the coexistence of these four elements in balance and in harmony, this monograph outlines the scope of the study, fundamental concepts and theories, and future directions of research in the interdisciplinary field of the geography of media. The author delves deeply into the themes of time, space, place, landscape, and scale to introduce readers to a wide array of intriguing concepts that add new dimensions to this relatively new academic field. In addition, this monograph presents a history of media geography as it has evolved in the West and in China over the past several decades, and introduces principles and values from traditional Chinese culture that shed light on the nature, direction, and significance of media studies and communication research now being conducted around the globe. Intended readership: professional scholars, graduates, and general readers.

Rhode Island Stories Michael Fine,2021-08 Rhode Island. A tiny little state with more stories than people. Hopes and dreams, sicknesses, deaths and disappointments. Loves and heartbreaks. Breaking the News Alex Marlow, 2021-05-18 From the editor in chief of Breitbart News, the New York Times bestselling "must-read" (Sean Hannity) investigation into how the establishment media became weaponized against Donald Trump and his supporters on behalf of the political left. In this timely and "important book" (Glenn Beck), Marlow explains how the establishment press destroyed its own credibility with a relentless stream of "fake news" designed to smear Donald Trump and his supporters while advancing a leftist agenda. He also reveals key details on how our information gatekeepers truly operate and why America's "fake news" moment might never end. Breitbart—and Trump—began banging the drum about "fake news" during the 2016 election, and it resonated with millions of voters because they intuitively knew the corporate media was willing to say or write anything to achieve their political ends. It's a battle cry that continues to this day. Deeply researched and eye-opening, *Breaking the News* rips back the curtain on the inner workings of how the establishment media weaponizes information to achieve their political and cultural ends.

Environmental Justice in North America Paul C. Rosier, 2023-11-01 Emphasizing the voices of activists, this book's diverse contributors examine communities' common experiences with environmental injustice, how they organize to address it, and the ways in which their campaigns intersect with related movements such as Black Lives Matter and Indigenous sovereignty. The global COVID-19 pandemic exposed the ways in which BIPOC (Black, Indigenous, People of Color) communities and white working-class communities have suffered disproportionately from the crisis due to sustained exposure to toxic land, air, and water, creating a new urgency for addressing underlying conditions of systemic racism and poverty in North America. In addition to exploring the historical

roots of the Environmental Justice movement in the 1980s and 1990s, the volume offers coverage of recent events such as the DAPL pipeline controversy, the Flint water crisis, and the rise of climate justice. The collection incorporates the experiences of rural and urban communities, Alaska Natives, Native Hawaiians, Puerto Ricans, and Indigenous peoples in the U.S., Canada, and Mexico. The chapters offer instructors, undergraduate and graduate students, and general readers a range of accessible case studies that create opportunities for comparative and intersectional analysis across geographical and ethnic boundaries.
