

Racial Profiler

Milton Heumann,Lance Cassak

Racial Profiling Alison Marie Behnke,2017-04-01 In the United States, racial profiling affects thousands of Americans every day. Both individuals and institutions—such as law enforcement agencies, government bodies, and schools—routinely use race or ethnicity as grounds for suspecting someone of an offense. The high-profile deaths of unarmed people of color at the hands of police officers have brought renewed national attention to racial profiling and have inspired grassroots activism from groups such as Black Lives Matter. Combining rigorous research with powerful personal stories, this insightful title explores the history, the many manifestations, and the consequences of this form of social injustice.

Suspect Race Jack Glaser,2015 Social psychologist and public policy expert Jack Glaser unpicks a century's worth of social psychological research to provide a clear understanding of how stereotypes, even those operating outside of conscious awareness or control, can cause police to make discriminatory judgments and decisions about whom to suspect, stop, question, search, use force on, and arrest. Glaser argues that stereotyping, even non-conscious stereotyping, is a completely normal human mental process, but that it leads to undesirable discriminatory outcomes.

Racial Profiling Michael L. Birzer,2012-11-14 Many racial minority communities claim profiling occurs frequently in their neighborhoods. Police authorities, for the most part, deny that they engage in racially biased police tactics. A handful of books have been published on the topic, but they tend to offer only anecdotal reports offering little reliable insight. Few use a qualitative methodol

Racial Profiling Karen S. Glover,2009-08-16 Karen S. Glover investigates the social science practices of racial profiling inquiry, examining their key influence in shaping public understandings of race, law, and law enforcement. Commonly manifesting in the traffic stop, the association with racial minority status and criminality challenges the fundamental principle of equal justice under the law as described in the U.S. Constitution. Communities of color have long voiced resistance to racialized law and law enforcement, yet the body of knowledge about racial profiling rarely engages these voices. Applying a critical race framework, Glover provides in-depth interview data and analysis that demonstrate the broad social and legal realms of citizenship that are inherent to the racial profiling phenomenon. To demonstrate the often subtle workings of race and the law in the post-Civil Rights era, the book includes examination of the 1996 U.S. Supreme Court's Whren decision—a judicial pronouncement that allows pretextual action by law enforcement and thus widens law enforcement powers in decisions concerning when and against whom law is applied.

Racial Profiling Michael L. Birzer,2012-11-14 Many racial minority communities claim profiling occurs frequently in their neighborhoods. Police authorities, for the most part, deny that they engage in racially biased police tactics. A handful of books have been published on the topic, but they tend to offer only anecdotal reports offering little reliable insight. Few use a qualitative methodological lens to provide the context of how minority citizens experience racial profiling. *Racial Profiling: They Stopped Me Because I'm ———!* places minority citizens who believe they have been racially profiled by police authorities at the center of the data. Using primary empirical studies and extensive, in-depth interviews, the book draws on nearly two years of field research into how minorities experience racial profiling by police authorities. The author interviewed more than 100 racial and ethnic minority citizens. Citing 87 of these cases, the book examines each individual case and employs a rigorous qualitative phenomenological method to develop dominant themes and determine their associated meaning. Through an exploration of these themes, we can learn: What racial profiling is, its historical context, and how formal legal codes and public policy generally define it The best methods of data collection and the advantages of collecting racial profiling data How certain challenges can prevent data collection from properly identifying racial profiling or bias-based policing practices Data analysis and methods of determining the validity of the data The impact of pretextual stops and the effect of Whren v. United States A compelling account of how minority citizens experience racial profiling and how they ascribe and give meaning to these experiences, the book provides a candid discussion of what the findings of the research mean for the police, racial minority citizens, and future racial profiling research. Michael L. Birzer was recently interviewed on public radio about his book, *Racial Profiling: They Stopped Me Because I'm ———!*

Profiles in Injustice David A. Harris,2003 Argues that racial profiling by police officers, highway troopers, and customs officials is morally reprehensible and does not help catch criminals, but rather contributes to the moral decay of American society.

RACIAL PROFILING Darin D. Fredrickson,Raymond P. Siljander,2002-01-01 This book was written to eliminate confusion regarding what has come to be called racial profiling by clarifying the legitimate law enforcement practice of criminal profiling, and by clarifying what constitutes unfair discrimination, and persecution. This book was written to benefit sociology students, law enforcement officers, and anyone else in a position to be concerned with, or affected by, the profiling issue. Police administrators, judges, and legislators, must adequately understand the topics and their many ramifications if they are to make decisions that are based on fact rather than stereotype and myth, and free from the influence of adverse social and political pressures. And, attorneys, when prosecuting or defending cases wherein profiling and discrimination is an issue must have good insight into the many interrelated dynamics of the topics to properly prepare and argue their case. This writing explores difficult social issues that are often poorly understood, but issues that need to be understood if solutions are to be meaningful. And, a poorly conceived solution is especially likely when the issues are both complex and controversial. In this book, the writers acknowledge that while criminal profiling is a necessary and legitimate law enforcement practice, unchecked bias can pollute the practice. And, while they acknowledge that measures to detect those whose enforcement practices reflect bias can have merit, they emphasize that such efforts must be in addition to the hiring of high caliber officers, providing quality training, providing competent leadership, and on a properly staffed and trained Internal Affairs department. But, the authors also emphasize the unfortunate fact that many efforts intended to prevent bias are to varying degrees ineffectual and create collateral problems. Germane to that discussion is illumination of the difficulties of monitoring fair treatment policies, and the unintended problems that often accompany consent decrees.

Black and Mainstream Press' Framing of Racial Profiling Mia Moody-Ramirez,Mia Nodeen Moody,2008 Racial profiling has been a controversial topic in civil right's dialogue for centuries beginning with the Negro Free Registry in the slave era, emerging again with the 1980s 'War on Drugs, ' and climaxing with the 2000 'War on Terror.' This study offers an in-depth overview of the evolution of racial profiling in the United States throughout these diverse periods. It specifically offers an in-depth examination of how mainstream and Black press newspapers framed the phenomena of 'racial profiling' three years before and after the September 11 terrorist attacks. It offers readers a peek at the various types of frames, ethnic groups, and sources that journalists chose in their quest to cover the issue. Moreover, it defines, compares, and contrasts the differences in Black and Mainstream media's coverage of the issue and the unique purpose that each media form serves. Finally, this work provides a brilliant example of a frame analysis carried to its full extent

Shopping While Black Shaun L. Gabbidon,George E. Higgins,2020-05-25 Winner of the 2022 Academy of Criminal Justice Sciences Outstanding Book Award! *Shopping While Black: Consumer Racial Profiling in America* lays out the results of nearly two decades of research on racial profiling in retail settings. Gabbidon and Higgins address the generally neglected racial profiling that occurs in retail settings. Although there is no existing national database on shoplifting or consumer racial profiling (CRP) from which to study the problem, they survey relevant legal cases and available data sources. This problem clearly affects a large number of racial/ethnic minorities, and causes real harm to the victims, such as the emotional trauma attached to being excessively monitored in stores and, in the worst-case scenarios, falsely accused of shoplifting. Their analysis is informed by their own experience: one co-author is a

former security executive for a large retailer, and both are Black men who understand firsthand the sting of being profiled because of their color. After providing an overview of the history of CRP and the official and unofficial data sources and criminological literature on this topic, they address public opinion polls, as well as the extent and impact of victimization. They also provide a review of CRP litigation, provide recommendations for retailers to reduce racial profiling, and also chart some directions for future research. This book is appropriate for researchers as well as advanced undergraduates and graduate students in Criminology, Black Studies, Ethnic Studies, Sociology, Security Studies, and Law programs, and will be of interest to the general reader.

Racial Profiling Steven J. Muffler, 2006 In recent years, racial profiling has drawn the attention of state and federal governments. In this book, racial profiling is defined as the practice of targeting individuals for police or security interdiction, detention, or other disparate treatment based primarily on their race, ethnicity, or national origin in the belief that certain minority groups are more likely to engage in unlawful behaviour. Assertions that law enforcement personnel at all levels unfairly target certain racial and ethnic groups, particularly but not exclusively for traffic stops and searches, have raised concerns about violations of the Constitution. The major debate on racial profiling centres on whether the practice should be prohibited entirely and whether data on traffic stops and searches should be collected to determine if the practice is occurring. This book gathers presents the major issues, available data, and analyses important to understanding on the most dangerous and divisive practices of our time.

Racial Profiling Noël Merino, 2014-12-12 The writings in this anthology have been selected to introduce your readers to a wide array of viewpoints on the use of racial profiling in law enforcement. Written by foremost authorities in the field, these essays express leading liberal, conservative, and centrist views. Each chapter asks a relevant question about the topic, and the viewpoints that follow are grouped into “yes” and “no” categories. Questions debated in this book are whether racial profiling is a problem, whether Arab Muslims should be profiled in the War on Terror, what the causes and consequences of racial profiling are, and what should be done about it.

Racial Profiling and the NYPD Jay L. Newberry, 2017-06-15 This book analyzes New York City’s stop-and-frisk data both pre- and post-constitutionality ruling, examining the existence of both profiling and unequal treatment among the three largest groups identified in the database: Blacks, Whites, and Hispanics. The purpose for using these two time periods is to determine which group(s) benefited the most from the ruling. This research goes beyond standard statistics to identify the place that race holds in contributing to the stop disparities. Specifically, this research will add a spatial element to the numbers by analyzing the determinants of stop location by race, applying a principal component analysis to a mixture of census and stop-and-frisk data to determine the influence of location on stops by race. The results present a way of determining the plausibility of stops being the product of racial profiling—or just a matter of happenstance.

Racial Profiling Fred C. Pampel, 2004 Provides historical background about racial profiling in the United States and includes a chronology, biographical listings, and a list of relevant organizations and agencies.

Racial Profiling Deborah Kops, 2007 This book focuses on the debate surrounding racial profiling in the United States—including a historical look at criminal profiles and U.S. government initiatives like Japanese-American internment during WWII through to the modern anti-terrorist age—through scholarly opinions, statistics, and studies.

Measuring Racial Discrimination National Research Council, Division of Behavioral and Social Sciences and Education, Committee on National Statistics, Panel on Methods for Assessing Discrimination, 2004-07-24 Many racial and ethnic groups in the United States, including blacks, Hispanics, Asians, American Indians, and others, have historically faced severe discrimination—pervasive and open denial of civil, social, political, educational, and economic opportunities. Today, large differences among racial and ethnic groups continue to exist in employment, income and wealth, housing, education, criminal justice, health, and other areas. While many factors may contribute to such differences, their size and extent suggest that various forms of discriminatory treatment persist in U.S. society and serve to undercut the achievement of equal opportunity. Measuring Racial Discrimination considers the definition of race and racial discrimination, reviews the existing techniques used to measure racial discrimination, and identifies new tools and areas for future research. The book conducts a thorough evaluation of current methodologies for a wide range of circumstances in which racial discrimination may occur, and makes recommendations on how to better assess the presence and effects of discrimination.

Good Cop, Bad Cop Milton Heumann, Lance Cassak, 2003 Good Cop, Bad Cop looks at the rise of racial profiling, one of the most important and hotly debated topics in criminal justice, and traces its development from its origins in criminal profiling, through the use of profiles in drug trafficking prevention efforts in airports and on the U.S. highways, until it became synonymous with racial discrimination by law enforcement. The authors draw upon an extensive body of primary sources, social science literature, and court cases to examine how law enforcement, legislators, and the courts have handled racial profiling. They also review the debate over racial profiling, offering arguments made by its opponents and defenders before and after the events of September 11 and describe its development as both a legal and a cultural concept.

Racial Profiling in America Alejandro del Carmen, 2008 Unique in both its scope and focus, Racial Profiling in America is a must read to anyone interested in this contemporary issue. Offering a comprehensive view of the topic, the author addresses the origins, components, dilemmas, and challenges surrounding racial profiling. Utilizing current research and statistics, the book offers a balanced presentation that moves beyond one point of view to address the complexities involved with this particular issue. Filled with academic discussion and personal anecdotes, the book appeals to a diverse audience and provides a broad overview of racial profiling in America today.

Racial Profiling David L. Hudson, 2010 This volume discusses various aspects of the effectiveness and legality of racial profiling.
