Cars of the Fast and the Furious Eddie Paul,2008-08-01

Combining high-action cinematography, a flashy lineup of modified sports cars, and American muscle cars, *The Fast and The Furious*, introduced fans to the world of street racing and the sport compact scene. In *2 Fast 2 Furious*, hot cars again took center stage. This book tells the story of the creation of the modified cars in these two movies. Describes the process, from purchasing 50 cars, through the modification and paint of each machine, and on to how the stunts were performed. Behind-the-scenes photography shows the cars jumping bridges, streaking down Miami streets, and being repaired on the set. Movie techniques used with the cars are explained. Includes lists of the performance parts and modifications on each car. 250+ photos.

The author brings together photos and text of the region's best-loved drivers and their cars, as well as the "also-rans," during the '60s and '70s when modifieds were built in backyards by local mechanics utilizing junkyard parts, no

two cars looked alike, and there were so many tracks to race at. See them now as they were!

The Asphalt Modified Years at Stafford Motor Speedway Phil

Smith,2020-08-11 Starting out as a dirt fairground track for horses, the Stafford Motor Speedway rose to become one of the most prominent forces in New England Stock Car Racing. Cars began racing at Stafford in 1940 and NASCAR has sanctioned the facility since 1959. Clarence Benton sold the speedway to Malcom Barlow who paved the track in early 1967. Barlow went broke in mid-1970 and leased the track to Jack Arute who, along with his brother Chuck, bought the speedway in 1971.

*Anatomy of the Works Minis* Brian Moylan, 2011-11-16

Particularly famous for their great adventures in the Monte Carlo rally, works Minis humbled many bigger and more powerful cars during the 1960s and 1970s. Mechanic Brian Moylan spent 22 years in the workshops of the BMC Competitions Department where the works cars were built. Here, all the secrets of how ordinary production line Mini Coopers were converted into the mighty giant-killing Minis of motorsport are revealed in full.

Contributions from ‘Ginger’ Devlin & ‘Jumping Jeff’ Williamson reveal in detail the modifications to the works racing and rallycross cars respectively. “ ... invaluable to anyone restoring a period car ... good stuff if you’re into nuts and bolts, and top value.” – Classic & Sports Car “ ... a technical profile on the various modified Minis that were produced by the BMC competitions department for racing, rallying and rallycross. Separate chapters ... all backed up by appendices on the race and rallycross cars ... complete a package that will interest competitive Mini pilots” – Classics

**Kar-Kraft** Charlie Henry,2017-06-15 The story of Kar-Kraft began, as did many others in the automotive industry, with an axe to grind. In 1963, Ford was seriously interested in purchasing Ferrari. Ferrari was a legendary brand with considerable success in racing, and Ford saw the acquisition as a great way to be instantly successful in the racing arena. When Enzo Ferrari realized that Ford would not give him complete control of the racing program, he

backed out of the deal late in the process. Ford had spent millions in vetting and audits, which then set in motion a vengeful response against Ferrari. The result was the unthinkable: Ford beat Ferrari at Le Mans. Ford wanted to become competitive quickly, but it did not have the race history or resources in house. To remedy the situation, Ford searched the U.K. for an independent company to help accelerate its race car development. It first settled on Lola Cars and set up Ford Advanced Vehicles. Later, Ford brought its LeMans effort to the U.S. and the Kar-Kraft relationship was established. Although Kar-Kraft was technically an independent company, it really only had one customer: Ford Special Vehicles. Kar-Kraft's story doesn't begin and end with the GT 40 that took the win away from Ferrari at Le Mans. Ford expanded upon the program and organized an all-out assault on racing in general. Cars were prepared for Trans-Am, NASCAR, NHRA, and Can-Am competition. Street versions of the Boss 429 were assembled under its roof. And fabled prototypes including the LID Mustang, Boss 302 Maverick, and Mach 2C were all assembled in Ford's contracted race shop. And then, out of the blue, its doors closed for good on a cold day in 1970. History tells us that Ford won Le Mans, the Daytona 500, and the Trans-Am championship. But it

doesn't tell us how this was accomplished. Author Charlie Henry (a former Kar-Kraft employee) has enlisted the help of many of his former co-workers to bring you the very first book ever published on Ford's all-encompassing special projects facility, Kar-Kraft. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

**The Cars of Trans-Am Racing: 1966-1972** David Tom, 2020-04-23 The legendary history of the pony car wars comes to life in this softcover edition of The Cars of Trans-Am Racing.

The SCCA Trans-Am Racing Series launched in 1966 and was designed to showcase a new class of sporty domestic cars racing on road courses. Each major automotive manufacturer participated heavily in the Trans-Am Series, and in a few short years, it became the ultimate American automobile showdown. When the modified muscle cars of the series were seen performing well on the country's finest tracks, fans wanted a model of their own in the driveway. These pony cars boasted a new look and style not seen before, and their all-around performance eclipsed anything accomplished by production-based American GT cars up to that point. This softcover edition of *The Cars of Trans-Am Racing* is unique in that it focuses on the cars used in this legendary series. These vintage Mustangs, Camaros, Challengers, Barracudas, Firebirds, Cougars, and Javelins all are extremely popular with collectors and enthusiasts today. Seeing them in their “full-competition” versions when they were new will bring back many fond memories for those who were fans of this series. In addition, enthusiasts who enjoy these cars today look to the Trans-Am Series cars for styling inspiration and performance hints as part of the growing Pro Touring trend. Many of these historic cars have been restored to race-ready condition. Additional insight and

interviews from the original builders and the teams that maintained the cars provide an insider's viewpoint never before seen in print.
