Off-Track and Online Holly Kruse,2016-04-01 How horse racing's pioneering use of

communication and information networks helped shape the modern media, information, and leisure environment. The horse racing industry has been a pioneer in interactive media, information networks, and their deployment. The race track and the off-track betting parlor offer interactive media environments that reconfigure the relationships among private and public space and presence and copresence. In this book, Holly Kruse explores how horse racing has used media over the last several decades, arguing that examining the history and context of horse racing and gambling gives us a clearer understanding of the development of data networks, media complexes, public entertainment, and media publics. Kruse describes an enormous industry that depends on global information and communication flows made possible by a network linking racetracks, homes, off-track betting, farms, and auction sites. Racetrack architecture now allows for the presence of screens, most showing races

from other locations. Online betting sites enable bettors to wager from home. Off-track betting facilities collect wagers on races from all over the country. Odds are set interactively through the pari-mutuel market system. Kruse considers the uses of public space, and its redefinition by public screens; the effect of interactive media on the racing industry, including networked, in-home betting; the “technopanic” over online poker and the popularity of in-home pari-mutuel wagering; and the use of social media by racing fans to share information and creative work with no financial payoff.

Drag Racing 201 – Racing in the New Economy Ike Heckler Jr, 2011-11-25 Following the success of his first book, *Drag Racing 101*, where IH Racing’s Team Owner Ike Heckler Jr. explains how to build your first race car and secure sponsorship, Ike now brings you *Drag Racing 201 – Racing in the New Economy*. After racing at NHRA tracks in the northeast and southeast for the past 10 years in a booming economy where securing sponsorships was relatively easy, Ike takes you on an exciting journey through 2010 and explains what it is like to uproot your personal life in order to pursue the goal of semi-pro drag racing. With over 52 career round wins and national media exposure from

SPEED TV's Pinks All Out, NHRA's National Dragster, and NMCA's Fastest Street Car magazine, Ike has secured corporate sponsorships from Lucas Oil, VP Racing Fuels, WIX Filters, O'Reilly Auto Parts, ReMax Realty, Holiday Inn Hotels & Resorts, CARQUEST Auto Parts, and Ken's Speed & Machine. IH Racing's primary sponsor, Premier Properties of the Space Coast, is owned by Mr. Heckler and develops residential and commercial properties in southeast Florida. In Drag Racing 201 Ike explains how to use your own company together with your other sponsors to be able to fund a full race season and be able to travel the hundreds of miles from racetrack to racetrack economically. From getting into the Final 32 at the Pinks All Out event in West Palm, FL to making the WIX All Out 16 at the Pinks All Out event at zMax Dragway in Charlotte, Ike brings you along to all the other races and other fun events he was able to attend in 2010 with the help of good friends and sponsors. You will also ride along as he moves from Florida to North Carolina, then back to Florida just so he could honor his commitment to all his sponsors and race the season. He will also show you how the degrading economy affected his racing operation in 2010 and how he had to adjust and sacrifice his

personal life to be able to race and survive. Drag Racing 201 then looks into the future of the sport and projects how it may look a few years from now and gives the reader some valuable tips on how to afford racing a full season and how the racer may have to live differently in order to race and live their dream. Ike also gives the reader some valuable sponsorship tips along the way that will help with sponsor exposure and could make securing sponsorships a little easier. This 80 page full color book has over 75 pictures highlighting the West Palm FL, Charlotte NC, and the Bristol TN Pinks All Out events (and getting on SPEED TV), the Atlanta, NHRA Unleashed event, and what it feels like to work for an NHRA national event. If your goal is to drag race in the New Economy, this book is a must read that will save you money and increase your sponsor exposure !!

Thoroughbred Horse Handicapping and Wagering A. A.J,2012-05-08 Thoroughbred Horse

Handicapping and wagering using the Holy Bible of Horse Racing is a book that contains a primer for folks that do not know much about thoroughbred horse racing. In addition, it provides a methodology for picking horses that will most likely finish second or better in races that are qualified for wagering. It then describes different approaches to wagering. There are what I call another section which I call special conditions that prompt special attention and will provide an avenue for Win/Place/Show bets (across the board), as well as some short stories of the some of the real characters I have met while playing the ponies.

The History and Politics of Motor Racing Damion Sturm,Stephen Wagg,David L. Andrews,2023-06-09 This book explores the history and politics of motor racing, one of the most popular and lucrative elements in the international sport industry. Written by a group of international

scholars and motor racing specialists it discusses the sport's origins, the relationship of motor racing to nation building and modernity (noting its links to fascism and dictatorship), the links between motor racing and the automobile industry, motor racing and the politics both of gender and of race, motor racing, the media and postmodernity, and motor racing, the spatial and globalization. This book speaks to scholars in history, politics, sport studies, the sociology of sport, sport management and cultural studies, along with the many lay readers who are interested in the relationship between motor sport and society.

Northfield Park Keith L. Gisser, 2004 From Al Capone and dog racing, to midget car and harness

racing, the history of Northfield Park is one of the most colorful in the standardbred sport. A half-mile track located mid-way between Cleveland and Akron, Ohio, it has hosted the greatest drivers and horses in harness racing since its founding in 1957. From modest beginnings, the track now races 220 live race cards every year, providing a consistent racing schedule for patrons on-site and across North America via simulcast. This book details in both words and pictures the history of the storied oval known as The Flying Turns.

Annual Report of Michigan Racing Commission to Hon. ... Governor Michigan Racing Commission,2001

Ascot Dave Wolin, 2023-04-08 Ascot - The story of the iconic dirt track that defined Southern California racing. It began in 1903 as a horse track, then as a one mile dirt track in L.A., then as New Ascot Raceway in East L.A. which became Legion Ascot and finally Southern Ascot in Southgate. Then, Los Angeles Speedway was built in 1957 on the site of a former landfill just south of Gardena. The promoter got into financial difficulties and it became New Ascot Stadium and eventually just Ascot. Everyone raced there, sprint cars, stock cars, midgets, buggies and motorcycles. 90 Indy 500 drivers raced there. Names like A.J. Foyt, Rick Mears and Parnelli Jones were regulars. It was said that if you haven't raced Ascot, you haven't raced. Read the book to see why it closed in 1990. Written in scrapbook style, decade by decade, full of newspaper and magazine articles, photos and stories from those who were there. Read the review from LACar.com (edited for brevity) -This is a feisty, tough little (is 399 pages with what must be a thousand photos really little?) MOFO (of a book) that triggers memories long dulled by watching racing live, and in person TV racing from four of five camera angles and then again from the blimp or fast-flying drone and over and over in replay. Ascot was a blink and

you'll miss it, in your face, wall to wall. It was a shut the (heck) up and race joint that some seem to master, but that very few had a real wrap-around view of. That track seemed to thrive on being mythical, moody, a place where almost everything went for even the best of them and winning was a cause for great celebration. It has always been something of an anomaly that no book (until now) had been written about the place where some of the greatest dirt short track racing ever seen had thrilled generations of Angelenos over its short, 33-year life. If you were lucky enough to have been there, I'm sure noise and smells are hard to forget. Chevy V-8s screaming out while being tortured by competitors who had tipped the can and doctored the nasty, eye-watering methanol fuel with liquid dynamite (nitro-methane) to get a few horsepower over another racer and who's motor oil spit out on to red-hot open exhaust.... In case you didn't notice, this is a book that every LA motorsports fan of a certain age has been asking for for a long time now ... a scrapbook of photos and news clips that recount (and remind in a lot of cases) of the glory that was Ascot, where the ambiance was not about the place, but exclusively about the sort racing that went on there for thirty-three years. But every foot,

no matter what the tape made it, was jam-packed with real racing action at that joint. The growling motorcycles, the howling sprint cars, the screaming midgets, the high-flying off-road buggies and three-wheelers, the blunt force trauma of the demolition derby cars, the shouting parents of the bike-x kids, even the occasional over-served fan who decided to see what kind of a lap they could cut on foot, all conspired to make a very satisfying show at Ascot. It always managed to be that kind of place - the one where (the you know whats) COL-LIDE. Wolin's use of photos - and contemporary news articles - pays off in the best way possible for the Ascot legend. There's a ton of truth in this one. Thanks for all the memories Mister Wolin! 399 Pages - 8 1/2 x 11 - B&W. Published by the Racing History Project and autographed by the author.
