*UK Longshot Horse Racing System* M C Horrocks, 2021-05-06 I will make this bold statement straight away, This book finds big priced winners in UK handicap horse races easily and consistently! I need to make a very important statement here backing double figure priced horses can return some huge profits but you must remember they all do not win, more will lose races which is to be expected. There is a reason why the horse is such a big price it is mainly due to the fact the horse has not won for a long time. Another reason is that a horse could be out of its depth in other words running in a higher class of race. Most punters want winners every day at any odds this makes them feel good. They think they are making a profit, how wrong they are and the bookmakers take their money every day with a smile on their faces. Another mistake the average punter makes is that they will take current SP starting price of a horse and not look for a larger price. So say a horse is 2/1 that's decimal odds 3.0 on the Betfair betting exchange. They will readily take these odds. A more profitable approach is to take higher odds like decimal odds 3.5. Ok you might think there is not much difference between decimal odds 3.0 and 3.5 but it adds up over a year and that is where your profit is. The only way to profit in horse racing is to back horses at larger odds than what is being offered. The betting exchanges show the true odds of a horse just before the race starts. As these odds are derived from many punters and bookmakers who are using the betting exchanges then the price of the horse before the race starts is its true odds. This price is a consolidated view and it is normally correct and near the mark. This system also finds large priced horses that are placed 1st 2nd 3rd or 4th regularly in a horse race and these can be exploited in the Betfair place market at some juicy odds. I have taken decimal odds of 7.0 on four places in a horse race and mopped up.

*Horse Racing Betting Secret System* M C Horrocks,  
Introduction I must thank you for buying my book and appreciate

any comments on the system. I have inserted my email address at the end of the book. Plus feel free to email me if you have any questions or need any help. This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races. This would have not been possible without my 10 years database of horse form and my I.T. computer skills. Handicap horse racing fascinates me I find it a great puzzle to solve and love form variables like weight, official rating and many more. This horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit. I like using this system for betting singles and doubles which are lethal and produce massive profits! In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily.

**UK Horse Racing Betting Systems** Mark Horrocks, I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the Racing Post at £2K per advert and offices. I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business. In my late 30's around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form. It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair. This is where I believed maximum profit could be gained. The computer model allowed me to process 100's of handicap races per day and then formulate my system tweeking a horse's weight and BHB or

OR ( Official Rating ). I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet.

### UK Horse Racing Handicap System M C Horrocks, My

Background I graduated from University with a computer science degree many years ago when a degree meant something! I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle. I started my own computer business in my early 20's where I made good money and travelled across Europe. I eventually found the correct weight and BHB rating for a horse based on it's last performances in handicap races. This eBook outlines this system and can be manually applied easily using the Racing Post on the internet. Punter's can be fickle people which 95% of them have no understanding of horse form and probability. If you can back horses at higher prices then you will make money! I regularly back horses that have a starting price of

2/1 and get 10/1! Most punters want winners everyday regardless of the price and the horse's real chance of winning that race, this is where the bookmakers clean up.

**The Two Step Horse Racing System** M C Horrocks, The system works for UK Handicap and Non Handicap races but I tend to favour Handicap races as the prices are larger. I will concentrate only on Handicap races in this book. In summary the system works on two form variables that can be obtained from the Racing Post website and a race can be assessed in 5 minutes. This horse racing system can find winners of a UK horse race very quickly and allows punters who have busy lives to assess horse form very quickly. I wrote this horse racing system as I had many emails from punters who wanted to have a bet on Saturday or day at the races but did not want to spend hours reading horse form. This system can benefit novice to professional punters.

**Most Profitable Horse Racing System** M C Horrocks, This UK and Irish Handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race. I wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races. I like this book because I have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate. I have written numerous books on horse racing but this is my favourite and most profitable UK and Irish horse racing system.

**UK Horse Racing Dutching Black Book** M C Horrocks, 2022-10-09 THAT'S BANKED £36000 IN THE LAST 12 MONTHS TO GET THE UK HORSE RACING DUTCHING BLACK BOOK READ ON... TIMES ARE TOUGH... As you all know we are going through a painful cost of living crisis and things are going to get worse, a great deal worse trust me on this. The cost of fuel, food and other essentials are at record highs with wages not increasing - it's that simple. Most people will moan, some people will get extra jobs even three jobs, it's understandable... but the best you

can do is make as much extra cash as possible. This recession will last for years, costs will not come down anytime soon and the housing bubble will continue to spiral out of control with mortgage costs increasing monthly and interests rates increasing at a rapid rate. Yet, there is some light at the end of the tunnel. **THERE ARE PEOPLE OUT THERE MAKING SOME EXTRA MONEY...** A tax-free, supplemental income which takes up very little time each day, and requires **NO** previous experience. They're doing it from one of the easiest, most straight-forward ways to earn extra money... **UK HORSE RACING DUTCHING.** Yes I know, you've heard it all before, only the bookies get rich from the races, while the average punter loses everything. I get it. That's generally true, if you plan on placing bets based on a hunch, some newspaper tipster or a system you once read online, then forget about it. Keep your hard-earned money in your pocket. However, if you want to succeed in this game, you need to follow someone who's been walking the walk for 20 years. **FOR A FEW LUCKY PUNTERS THIS IS ABOUT TO BECOME REALITY...** Allow me to introduce myself, my name is Mark Horrocks and for the past 20 years of my life I've been dedicated to UK horse racing. I have written many books on horse race betting and make a living from betting. I spend 12 hours per day studying the UK horse racing markets for profitable dutching opportunities. I am very passionate about dutching horses as this has proved to be the most profitable for me over the years. Over the years I've developed a system which selects the best horses and UK races to dutch and make a profit on a daily basis. This approach allows me to earn a healthy full time living solely from dutching UK horse races. **I HAVEN'T WORKED A FULL TIME JOB SINCE 2015, AND I NEVER WILL AGAIN. THE UK HORSE RACING DUTCHING BLACK BOOK HAS ARRIVED...** This is a game changer forget the dutching videos out there showing great profits. You will not see this dutching system anywhere else. The system has a 80% strike rate and will make you profits on a daily basis. No more 33/1 shots winning and causing your dutching bet to fail we have

all been there! THERE IS A CATCH..... THE BOOK IS EXPENSIVE AS IT SHOULD BE.

*The Sniper UK Horse Racing System* M C Horrocks,2023-12-07 I like this book as it brings together my knowledge of UK horse racing in handicap and non handicap horse races that I have acquired over 30 years which involved a vast amount of time studying UK horse form. This has cost me financially due to the many mistakes I made along the way. If you have not lost money whilst learning to race read you have not been putting enough skin in the game! Quite simply it's the Sniper UK horse racing system that laser pinpoints horses as potential bets and trust me you will have a great deal of confidence when the system does identify horses as potential bets.

UK Horse Racing Systems M C Horrocks,2023-07-24 If you have purchased any of my horse racing systems books before then you will know I only concentrate on UK handicap horse racing. In this book I will outline two UK horse racing systems for non handicap and handicap horse racing. I like these two racing systems as they are easy to apply and more importantly they produce winners. I have also included a Golden Nugget system that produces large priced winners, Another Batt 11/1 Uther Pendragon 22/1 There is another bonus system that helps you find winners quickly this is great for the busy punter.

Horrocks,2022-01-06 This was a book I really enjoyed writing and was quite an eye opener for me. I hope you enjoy this book and have great profitable horse racing days in the future. If you have read some of my other UK horse racing books you will know my approach to handicap horse races. There are so many ways you can interpret horse form this is the beauty of horse racing it fascinates me. I have modelled thousands of horse races over the years and no shoe fits all. This is my first book that focuses on one code of horse racing and one type of horse race, more on this later!

UK Handicap Horse Racing Buster M C Horrocks,2024-02 My new book will show you how to master UK handicap horse racing in any racing code. I spent many months modelling this system and you will be surprised how easy this racing system is to use and how effective it is. I love UK handicap horse races they are a great puzzle to solve but a difficult one if you do not know where to look. Most punters will fumble in the dark and ultimately get it wrong and lose money long term.

**Horse Racing Form Guide UK** M C Horrocks,2021-02-26 After many years of modelling handicap horse racing form I eventually discovered the key horse form variables that identify the best handicapped horses in a particular UK horse race. I must stress this was not an easy journey as I would model a number of UK handicap horse races noting down key horse form variable patterns that identified the best horses in the race only to be disappointed. I repeated this modelling 1000's of times over 10 years of horse form data. Eventually my patience and tenacity allowed me to identify the best horse form variables that can be applied to a UK handicap horse race. More importantly I was impressed how consistent these horse variables were over 100's of horse races in selecting the best horses. In this horse racing form guide I will outline the most effective way to read horse form for UK handicap horse races effectively and consistently and quickly as we all lead busy lives.

**How To Implement A UK Horse Racing System** M C Horrocks,2021-07-06 Do you want to implement your own automatic UK horse racing system? This is not as easy as you think and it took me quite some time to implement a UK horse racing handicap system that worked automatically on a daily basis. During my journey there were many times I wish I had never started the project. I had over 25 years of I.T. experience in SQL, Unix and relational database technologies and I thought it would be a stroll in the park! How wrong I was I had underestimated how large and the number of tasks that would be involved in the

implementation of this automatic UK horse racing handicap system. This book covers all aspects of this implementation including the algorithm that is used in the horse racing system to pick winning horse selections in UK handicap horse races automatically. When I say automatic what I mean by this is when the horse racing system is run a small selection of horses would be produced that could qualify as potential bets. With this in mind I would say the horse UK racing system was 95% automatic which is pretty good. How long would it take to trawl through horse form for every horse in every race! I wrote this book to help punters create a similar automatic UK horse racing handicap system that works and explain the pitfalls so they can implement it quicker and more smoothly. You will need to be an existing punter who has the basic understanding of UK horse form and an above average understanding of computers. Implementing a decent UK horse racing system cannot be achieved in days it's more like months so be prepared to put some hard work into its implementation. An alternate solution is to outsource the work but this will cost quite a large amount of money. You will learn more implementing it yourself and gain some satisfaction from your labours.

*Picking Winners No Problem* M C Horrocks, Introduction The title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is! I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing system and how easy it is to apply. The system uses the excellent free racing post website where you can obtain all the form data you need to use this system. Plus you do not have to be a form expert to understand it. I personally think horse racing pundits make heavy weather of horse racing form, i.e. looking at a horse's breeding and many other factors. I think this information just confuses the average punter. I have added a special bonus horse laying system in this book and I think you will enjoy it! This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong! Yes it will hurt knowing how much money you lost when you should have not.

Moving back onto the horse backing system, picking winners will be very easy for you and even more you will gain confidence and control in your betting. This horse racing system normally picks 2 to 3 horses per day in UK handicap horse racing markets. You should aim at using Betfair to place your bets due to the better prices and in-play tactic I will show you in this book. Understand the system before placing bets, I hope you enjoy it!

**UK Horse Racing System** M C Horrocks,2024-03-31 I have now written many UK horse racing system around certain key horse form variables which many of you will understand already if you have purchased my other books. These other books have mainly concentrated around UK handicap horse races. This UK horse racing system is completely different and you will see why. It is a very simple system that can be used very quickly in assessing a race and finding a NAP bet and more importantly it is effective. I like this system as it is ideal for the busy punter.

**Horse Racing in Britain and Ireland** Anne Holland,2014-09-10 Often called the sport of kings, horse racing dates back at least to the chariot races of the ancient Olympic Games. Arriving in Britain with the Romans in the first century BC, its popularity among the elite led to the breeding of thoroughbred racehorses and prompted the establishment of a formal racing calendar with flat races and steeple chases at a plethora of dedicated racecourses throughout the country. Now no longer restricted to the aristocracy, a day at the races has become a perennial highlight of the social calendar. Shedding new light on this increasingly popular equestrian sport, Anne Holland here explores the broad history of horse racing from the horses, jockeys and racecourses to the practice of bookmaking and those in the audience.

Mixed-Race in the US and UK** Jennifer Patrice Sims,Chinelo L. Njaka,2019-11-23 Contributing to the emerging literature on mixed-race people in the United States and United Kingdom, this

book draws on racial formation theory and the performativity (i.e., doing) of race to explore the social construction of mixedness on both sides of the Atlantic Ocean.

Finished Last at Folkestone John Norbury, 2011-11-01 Finished Last at Folkestone is the story of John Norbury who visited all 60 UK racecourses as part of his love of racing. From Cheltenham to York, Catterick to Goodwood, John takes us to many of the courses and shares his memories of the people he meets, races he witnesses and gambles won and lost. Since being old enough to look at the runners and riders everyday in his dad's morning newspaper, John Norbury became embroiled in the sport of horseracing and wanted to know more. He developed a desire to explore everything this fabulous sport had to offer; from the jockeys and the trainers to the various idiosyncrasies each individual course offered. As a part tribute to his love of racing and part memoir, his book - Finished Last at Folkestone - blends comedy, personal tragedy and factual information in a title that will appeal to all racegoers.
