Radio Canada International James L. Hall, 1997 Radio Canada International probes the policies of Canadian shortwave broadcasting - the Canadian Broadcasting Corporation's International Service and Radio Canada International - from 1945 to 1985 to determine why and how this voice of a middle power broadcast to a world radio audience. Hall explains why Radio Canada International's shortwave service persisted despite the absence of documentable impact and despite challenges to its legitimacy as the voice of Canada.

Losing Our Voice Alain Saulnier, 2015-11-21 The inside story of decades of government interference in the work of our national public broadcaster, CBC/Radio-Canada. Is there a quiet campaign to hamstring and silence the CBC? In *Losing Our Voice* Alain Saulnier, long-time head of news and public affairs at Radio-Canada, documents the decades of political interference that have jeopardized the very existence of one of Canada's most important cultural institutions. For French-speaking Canadians, with limited options in their own language, the national broadcaster is all the more important. But tensions surrounding national unity and identity have exacerbated the tendency of federal politicians to meddle in CBC/Radio-Canada's content and management. Saulnier takes us behind the scenes as these tensions play out, and culminate in the punitive Harper budget cuts.

John P.L. Roberts, the CBC/Radio Canada, and Art Music Friedemann Sallis, Regina Landwehr, 2020-10-15 This book examines the impact of the Canadian Broadcasting Corporation/Société Radio Canada (CBC/SRC) on the development of art music in Canada during the broadcaster's first fifty years (1936-1986). In so doing, it investigates the achievement of one man: John Peter Lee Roberts. Born in Australia, he arrived in Canada in 1955, and, over the next thirty years, he worked tirelessly as a producer, administrator and adviser at the state broadcaster to bring the music of Canada to the world and the world of music to Canadians. Roberts also played a crucially important role in commissioning, disseminating and promoting new music by Canadian composers.

Women in Radio Geneviève A. Bonin-Labelle, 2020-09-22 Who are, au féminin, the legends who shaped radio in Canada? What did they contribute locally, regionally, and nationally? How was their experience in radio broadcasting different from that of their male counterparts? *Women in Radio* presents the women who built careers in the radio industry—yet whose contribution has often been overlooked simply because they were women. This collection of stories highlights the multi-faceted contributions they made to their field and explores issues specific to them. Academic research, interviews, personal reflections and accounts, historical reviews, and hybrid texts combine neatly in this eclectic yet well-researched edited volume to reflect the fast-paced world of radio broadcasting. Whether through storytelling, direct quotes, or quasi transcriptions best read aloud, the reader will come away with a real sense of the aural nature of radio, of the voice unaccompanied, of the pure spoken word and how it differs from the printed word. Published in English.

History of Radio Canada International Arthur Siegel, 1996-10-01

Radio Canada International Arthur Siegel, 1996 This book focuses on the history of Radio Canada International as it sought to make itself heard in the hot war against the Nazis, in the cold war against communism and in the periods of détente and reconciliation. In its 50 year history, Radio Canada International has had programs in more than 40 languages and developed into an important voice in the international radio arena.

CBC/Radio-Canada Marion Ménard, 2014 CBC/Radio-Canada (the Corporation) has played a unique role as Canada's national public broadcaster for more than 75 years. Whether by television, radio or Internet, CBC/Radio-Canada is available nearly everywhere

across Canada. It is one of the few federal institutions that reach thousands of households across the country on a daily basis, a significant presence for a federal institution. However, the Corporation is also the subject of heated debate. Its supporters praise its commitment to Canadian content, while its critics say it presents unfair competition for private broadcasters. The purpose of this paper is not to resolve this debate, but rather to provide an overview of the various facets of CBC/Radio-Canada's operations. First, it looks at the Corporation's mandate and the services it offers, as well as the licences for radio and television services that were renewed by the Canadian Radio-television and Telecommunications Commission (CRTC) in May 2013. Second, it examines the Corporation's governance and the most recent special examination report published by the Office of the Auditor General (OAG) of Canada. Third, it provides a general overview of the Corporation's revenues and expenses since 2008-2009, including the effects the Deficit Reduction Action Plan, announced in the 2012 federal budget, will have on the Corporation. The last part is a general discussion on the role of CBC/Radio-Canada in a Canadian broadcasting system undergoing extensive change.

The Age of International Radio Elżbieta M. Olechowska, 2007 A significant contribution to our understanding of the role of media in the shaping of our age! International radio has been a very significant instrument in the evolution of media and as an instrument of foreign policy for many nations. It has also undergone major transformations over the past 50 or more years. Every major political power, many countries around the world, and many other quasi-national bodies and organisations, such as the Vatican, have used international radio to get their messages disseminated internationally. **THE AGE OF INTERNATIONAL RADIO** examines the many players, organisations and national agencies which have been active in the arena of international radio. The volume unravels the many transformations and evolutions of international radio and focuses on Radio Canada International, RCI, which has been one of the prime players in the field. The intent of the volume, as the author states, is ...through a discussion of successive comparative and internal program evaluations, to reveal, if not a full picture, at least a reasonable glimpse of the output of RCI and several international broadcast organizations during the last two decades.

The Canadian Federal Election of 2019 Jon H. Pammett, Christopher Dornan, 2020-12-17 The Canadian federal election of 2019 is extensively analyzed in this collaborative volume edited by Jon Pammett and Christopher Dornan. Bringing together leading political scientists and media scholars, the book examines the strategies, successes, and failures of each of Canada's major political parties, with special attention given to the pressing question of climate change. In Canadian elections, the context of the campaign is vital. Here, contributors consider in detail the way public opinion polls were reported leading up to the election, how traditional media portrayed events, why the electorate waited to make up their minds, and the means by which social media dealt with fears of a disinformation wave. The book uses data to identify the important factors in determining the voting behaviour of Canadians in 2019 and the ways these factors combined to produce a minority Liberal government. The Canadian Federal Election of 2019 is the essential resource for every interested political observer wanting to dissect the last election and required reading to prepare for the next one.

Big City Elections in Canada Jack Lucas,R. Michael McGregor,2021-10-01 Local elections are an increasingly popular area of research among scholars of Canadian political behaviour, offering invaluable insights into the attitudes and motivations of Canadian electors. The Canadian Municipal Election Study (CMES) has collected unparalleled individual-level survey data in eight major Canadian municipal elections: Vancouver, Calgary, Winnipeg, London, Mississauga, Toronto, Montreal, and Quebec City. These elections, which took place in 2017 and 2018, were high-profile, contentious, and often surprising, featuring mayoral defeats, record-breaking turnouts, provincial-municipal tensions, and the first ranked-ballot election in Canada in decades. Combining unprecedented individual-level survey data from the CMES with local expertise from political scientists across Canada, Big City Elections in Canada provides a data-driven overview of each election, while also highlighting the more general lessons the elections teach us about municipal politics and voting behaviour. The chapters in this book make substantial empirical and theoretical contributions to the voting behaviour and urban political science subfields and will appeal to students, journalists, and engaged citizens who are interested in learning more about municipal elections in their cities.

Islands of Resistance Andrea Langlois,Ron Sakolsky,Marian van der Zon,2010-05-14 Since radio's invention, some Canadians have been concerned about the increasingly commercialized and centralized nature of medium. Sometimes working alone, more often in teams, and always illegally, these activists represent islands of resistance within the ocean of homogenous frequencies, pirating radio signals for personal, political and artistic expression. In the first book published on the subject, Islands of Resistance gives you a view from the crow's nest of the phenomenon of pirate radio in Canada. Here is a collection of seventeen activist manifestos, artistic treatises of intent, historical essays on the development of radio and its regulatory bodies, sociological examination of pirate radio's application in new social movements, and personal anecdotes from behind the eyepatch. Just as the new media ostensibly renders the old obsolete, Islands of Resistance unveils the existence of a thriving clandestine counterculture. An invaluable addition to an unscrutinized subject in Canadian media studies, Islands of Resistance appeals to the anarchist, anti-authoritarian impulses in all of us. Visit the Islands of Resistance website for more about the book and to hear audio clips of pirate radio.

Together they present the results of a content analysis of French language and English language media, both programming and advertising, on television and on radio. This study is the largest and most comprehensive content analysis of sex roles undertaken on Canadian media.
