Loran-C and Omega Owen Wilkes, Nils Petter Gleditsch, Ingvar Botnen, 1987 Historically-oriented studies of the arms race tend to focus on major weapons and ignore the associated subsystems. In this book, the authors consider one subsystem--the navigation instruments and land-based transmitters--of the submarine-launched ballistic missile (SLBM) system. Paying particular attention to the Loran-C and Omega navigational units, the authors are able to draw conclusions on the accuracy of submarine-launched missiles and the reliability of America's sea-based nuclear deterrent.

Pub117, 2005 Radio Navigation Aids NIMA Staff, 2005 Radio Navigational Aids (Pub 117) contains a detailed list of selected worldwide radio stations that provide services to the mariner. The publication is divided into chapters according to the nature of the service provided by the radio stations. The services include RDF and Radar Stations; stations broadcasting navigational warnings, time signals or medical advice; communication traffic for distress, emergency and safety including GMDSS; and long range navigational aids. It also contains chapters describing procedures of the AMVER system, and the interim emergency procedures and communication instructions to be followed by U.S. merchant vessels in times of crisis.

Lives in Peace Research Stein Tønnesson, 2022-04-26 This open access book explains how PRIO, the world's oldest peace research institute, was founded and how it survived through crises. In this book, twenty-four of its researchers and associates, including Johan Galtung, Ingrid Eide, and Mari Holmboe Ruge, who founded the institute back in 1959, tell the stories of their roles in inventing and developing peace research. They reflect on their personal experiences with peace and conflict, tell what drove their peace engagement, and discuss the balance sought in the field between the cold dictates from academic rigor and the hot pursuit of peace, a desire for research to make a positive difference. Most of the chapters are interviews where one colleague interviews another. Some are self-reflective essays, while others are memorial essays written about a peace researcher who has passed away. Taken together, the

book presents a lively picture of a thriving world-leading research environment and a wealth of conflicting or mutually reinforcing perspectives on war, violence, conflict, conflict management and resolution, negotiations and mediation, peacemaking, peace building, and the contested concept of peace. "The Oslo Stories is an indispensable source to the history of peace research." Dr. Olav Njølstad, Director, Nobel Institute, Oslo

Secrecy and Liberty: National Security, Freedom of Expression and Access to Information Joan Fitzpatrick, Piotr Hoffman, Sandra Coliver, Stephen Bowen, 2021-09-27 The tension between national security and freedom of expression and information is both acute and multifaceted. Without national security, basic human rights are always at risk. On the other hand, the tendency of governing elites to confuse 'the life of the nation' with their own survival has often resulted in excessive restrictions on expression and information, as well as other fundamental rights. A proper balance between secrecy and liberty requires a vigilant press and an independent judiciary. It also requires greater clarity than currently exists as to how competing rights and interests should be weighed. This book addresses that gap. Its centerpiece is a set of Principles drafted by a group of international and national law experts, many of whom contributed chapters, to guide governments, courts and international bodies in how to strike a proper balance. The Principles have been widely endorsed, among others by United Nations experts on freedom of expression and independence of judges and lawyers. Sixteen country studies - profiling, among other states, Albania, Chile, China, Egypt, France, Germany, India, Israel, Japan, Norway, South Africa, South Korea, Turkey, the United Kingdom, the United States, and the Federal Republic of Yugoslavia - explore the tremendous diversity of national security doctrines and the penal and other measures aimed at suppressing allegedly secret information and speech claimed to be subversive, separatist or otherwise dangerous. Five chapters examine the cases considered and approaches taken by the UN Human Rights Committee, three regional human rights bodies, and the European Court of Justice. A Commentary draws on the other chapters to support and elucidate the Principles, noting where they reflect an existing consensus and the points at which they attempt to elicit a more rights-protective approach.
