**The Theft of History** Jack Goody,2012-03-29 In The Theft of History Jack Goody builds on his own previous work to extend further his highly influential critique of what he sees as the pervasive Eurocentric or occidental biases of so much western historical writing and the consequent 'theft' by the West of the achievements of other cultures in the invention of (notably) democracy, capitalism, individualism and love. Goody, one of the world's most distinguished anthropologists, raises questions about theorists, historians and methodology and proposes a new comparative approach to cross-cultural analysis which allows for more scope in examining history than an East versus West style.

*Belief and Islam* MAWLÂNÂ DIYÂ' AD-DÎN KHÂLID AL-BAGHDÂDÎ,2016-02-23 This work, Belief and Islam, originally was written in Persian under the title I'tiqâd-nâma by Hadrât Mawlânâ Khâlid al-Baghdâdî, a profound 'âlim of Islam and a specialist in ma'ârif of tasawwuf. Hâjî Faydullah Effendi of Kemah, a khalîfa of great walî Mavlânâ Mahmûd Sâhib, the brother of the author, translated the book into Turkish and named it Farâid-ul-fawâid which was printed in Istanbul in 1312 A.H.[1894]. Our bookstore had it translated again from the Persian original into Turkish and, some explanations and three chapters, published it with the title Imân ve Islâm in 1966. German, French and Arabic versions are also published by our bookstore. This book, explains five fundamentals of Islam, six fundamentals of îmân and the contemporary information about the matter and refutes those who are against Islam and those who are lâ-madbhabî.

Samuel Beckett's Endgame ,2007-01-01 This collection of essays – the first volume in the Dialogue series – brings together new and experienced scholars to present innovative critical approaches to Samuel Beckett's play Endgame. These essays broach a broad range of topics, many of which are inherently controversial and have generated significant levels of debate in the past. Critical readings of the play in relation to music, metaphysics, intertextuality, and time are counterpointed by essays that consider the nature of performance, the history of the theater and the music hall, Beckett's attitudes to directing his play, and his responses to other directors. This collection will be of special interest to Beckett scholars, to students of literature and drama, and to drama theorists and practitioners.

Critical Cultural Awareness Yumiko Furumura,Maria Lebedko,Yau Tsai,2014-09-26 In a rapidly globalizing world, one of the most challenging barriers to be overcome is the stereotype. Part 1 of the book explores ways of defining, eliciting and illustrating stereotypes from theoretical standpoints. Part 2 showcases ways of addressing stereotypes through intercultural (language) education to provide teachers with a firm platform for the practical application of their knowledge and skills when attempting to manage stereotypes in the classroom.

The Simpsons and Their Mathematical Secrets Simon Singh,2013-10-29 You may have watched hundreds of episodes of The Simpsons (and its sister show Futurama) without ever realising that they contain enough maths to form an entire university course. In The Simpsons and Their Mathematical Secrets, Simon Singh explains how the brilliant writers, some of the mathematicians, have smuggled in mathematical jokes throughout the cartoon's twenty-five year history, exploring everything from to Mersenne primes, from Euler's equation to the unsolved riddle of P vs. NP, from perfect numbers to narcissistic numbers, and much more. With wit, clarity and a true fan's zeal, Singh analyses such memorable episodes as 'Bart the Genius' and 'Homer3' to offer an entirely new insight into the most successful show in television history.

**Cases on Challenges Facing E-Learning and National Development** Ugur Demiray,2010 E-Learning offers many opportunities for individuals and institutions all over the world. Individuals can access to education they need almost anytime and anywhere they are ready to. Institutions are able to provide more cost-effective training to their employees. E-learning context is very important. It is common to find educators who perceive e-learning as internet-only education that encourages a static and content-focused series of text pages on screen. Others envisage the shallow and random online messages that are typical of a social real-time chat session, and wonder how that type of communication could add any value to academic discourse. Some may have experienced e-learning done poorly, and extrapolate their experience into a negative impression of all e-learning. The book will examine the emergence and growth of e-learning. The use of the e prefix indicates the application of information and communication technology (ICT) in government, finance, and all forms of socio-economic and community development. This eBook is designed and presented in two volumes. The first volume consists of the country cases of Algeria, Belarus, Bulgaria, Egypt, Estonia, Finland, Greece, Jordan, Hungary, Iraq, Iran, Israel, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Macedonia, Moldova, and Morocco.
