Tropical Rainforest Gr. K-2 Vera Trembach, 2004-01-01 Students will learn everything there is to know about the Tropical Rainforest with our comprehensive resource that combines science with language arts. First, students will create a big book, in which the plants and animals that live in the rainforest are broken down into stories of an apartment. Students then exercise their math skills with the Vines, Snails, and Jaguar Tails board game, and the Parrot Place Values board game. Students will reinforce their critical thinking skills with the rainforest facts, by distinguishing the facts as true or false. Finally, students finish up the unit with rebus rhymes and activities, centered around the rainforest theme. This Earth Science lesson provides a teacher and student section with reading passages, activities, board game, word search, rebus rhymes, and big book assembly to create a well-rounded lesson plan.

Rainforests ,2005 Upper Primary Themes books cover relevant, contemporary topics, in this book it looks at the rainforest. It is divided into four-page units which include a teacher information page, student information page, student comprehension page and a cross-curricular activity. There is a detailed overview for each theme, with relevant background information for the teacher.

The Umbrella Jan Brett, 2004-09-09 A walk through the Costa Rican cloud forest provides a wonderfully lush setting for Jan Brett's beloved animal illustrations. When Carlos drops his umbrella to climb a tree for a better view of the animals, they all cram into the banana-leaf umbrella as it floats by--from the little tree frog to the baby tapir to the big jaguar and more. It gets so crowded in the umbrella that there isn't even enough room for a little hummingbird! So over the umbrella tumbles, everyone falls out, and poor Carlos comes back wondering why he didn't see any animals all day. In the spirit of Jan Brett's *The Mitten* and *The Hat*, this cheerful tale of escalation will have readers poring over every illustration for the world of details Jan packs in. With its classic story, exotic jungle setting, and brilliantly colorful menagerie, *The Umbrella* is sure to take its place among Jan's many family favorites.

Tropical Rainforest Responses to Climatic Change Mark B. Bush, John R. Flenley, John Flenley, 2007 The goal of this book is to provide a current overview of the impacts of climate change on tropical forests, to investigate past, present, and future climatic influences on the ecosystems with the highest biodiversity on the planet. *Tropical Rainforest Responses to Climatic Change* will be the first book to examine how tropical rain forest ecology is altered by climate change, rather than simply seeing how plant communities were altered. Shifting the emphasis onto ecological processes e.g. how diversity is structured by climate and the subsequent impact on tropical forest ecology, provides the reader with a more comprehensive coverage. A major theme of this book that emerges progressively is the interaction between humans, climate and forest ecology. While numerous books have appeared dealing with forest fragmentation and conservation, none have explicitly explored the long term occupation of tropical systems, the influence of fire and the future climatic effects of deforestation, coupled with anthropogenic emissions. Incorporating modelling of past and future systems paves the way for a discussion of

conservation from a climatic perspective, rather than the usual plea to stop logging.

We're Roaming in the Rainforest Laurie Krebs, 2019-09-01 Three children embark on a day-long trek through the Amazon, discovering all sorts of rainforest creatures in their natural habitats. The charming, rhyming text highlights an adjective for each creature. The story is complemented by educational endnotes about the creatures in the story and the peoples of the rainforest.

In the Rainforest Debby De Pauw, 1993 This is our most popular theme unit. It's in the news. It's something children wonder about. The rainforest is a magical place, filled with adventure. In this book you will find ideas for teaching beginning sounds, counting, shapes, and colors. Hands-on activities, games, and songs and chants are included for use with the literature. Topics covered include: Layers of the Rainforest, Products of the Rainforest, and Animals of the Rainforest, for which there are numerous activities. There are pages of pictures and information on many indigenous species, including: insects, ants, boa constrictors, elephants, frogs, gorillas, sloths, and birds. Each has associated math, reading and language, and other exercises. There are plenty of reproducible, accurate line art illustrations throughout, as well as a two-sided, full-color pull-out poster featuring the Rainforest on one side and animals on the other. Complete step-by-step instructions for each project. All 48 pages perforated for easy removal.

One Day in the Tropical Rain Forest Jean Craighead George, 1995-09-29 Today is doomsday for a young Venezuelan Indian boy's beloved rain forest and its animal life—unless he and a visiting naturalist can save it. George makes drama large and small out of the minute-by-minute events in an ecosystem . . . gripping ecological theater. —C. An example of nonfiction writing at its best. —SLJ. A Death in the Rainforest Don Kulick, 2019-06-18 "Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature." —The Wall Street Journal "If you want to experience a profoundly different culture without the exhausting travel (to say nothing of the cost), this is an excellent choice." —The Washington Post As a young anthropologist, Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language, Tayap. He arrived knowing that you can't study a language without understanding the daily lives of the people who speak it: how they talk to their children, how

they argue, how they gossip, how they joke. Over the course of thirty years, he returned again and again to document Tayap before it disappeared entirely, and he found himself inexorably drawn into their world, and implicated in their destiny. Kulick wanted to tell the story of Gapuners—one that went beyond the particulars and uses of their language—that took full stock of their vanishing culture. This book takes us inside the village as he came to know it, revealing what it is like to live in a difficult-to-get-to village of two hundred people, carved out like a cleft in the middle of a tropical rainforest. But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village. An engaging, deeply perceptive, and brilliant interrogation of what it means to study a culture, *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes, one that is on the verge of disappearing forever.
