Read & Burn Wilson Neate,2013-06-01 Read & Burn is the first serious, in-depth appraisal of Wire, one of the most influential British bands to emerge during the punk era. If Wire were briefly a punk band, however, it was largely by historical accident. Despite the fact that they had complicated and transformed that category almost before they'd begun, they seem never to have quite escaped the label. Be it punk, post-punk, or art-punk, critics have clung onto the p-word in an attempt to capture the essence of Wire's innovative uniqueness. But their story - which honours punk's original yet quickly forgotten commitment to the new - is one of constant remaking and remodelling, one that stubbornly resists reduction to a single identity. As a result, the group's projects have always balanced uneasily between artistic endeavour and the need for commercial sustainability, played out against the backdrop of the musicians' perennially complex creative relationships. Tracing Wire's diverse output from 1977 up until the present, Read & Burn seeks to do justice to their highly influential and restlessly inventive body of work.

Burn for Me Ilona Andrews,2014-10-28 In this spellbinding first novel in #1 New York Times bestselling author Ilona Andrews's urban fantasy Hidden Legacy series, private detective Nevada Baylor navigates her way through an alternate world where dynasties, built on inherited wealth and magic, guide the course of humanity. Nevada Baylor runs a small-time detective agency in Houston, Texas, busting scammers, exposing cheaters, and dealing with petty criminals. She's very good at her job—helped by a magical ability to sense when someone tells the truth or lies. But when she's forced into accepting a case to find a radical pyrotechnic who can conjure heat and fire at will, Nevada knows she's out of her league. To bring him to justice, she'll have to join forces with someone who wields an even more dangerous power. Connor "Mad" Rogan is a former combat mage, a telekinetic singularly responsible for mass destruction in war-torn countries, and a member of one of the most powerful magic families in the world. His nephew has been kidnapped by the fugitive pyromaniac, and Nevada is his best chance at finding them both. But unlike Nevada, Connor could care less about societal law and

order, and has no qualms about extinguishing his family's enemy. Bound by their mission, Nevada and Connor clash over their tactics and moral beliefs, even as things undeniably heat up between them. But the man they're chasing is involved in a darker conspiracy that threatens to destroy the city—and destabilize the balance of power the elite magical families use to influence every nation on Earth.

Don't Burn This Book Dave Rubin, 2020-04-28 Topical, engaging, personable, and above all, reassuring. -Dr. Jordan B. Peterson, author of 12 Rules for Life From host of The Rubin Report, the most-watched talk show about free speech and big ideas on YouTube right now, a roadmap for free thinking in an increasingly censored world. The left is no longer liberal. Once on the side of free speech and tolerance, progressives now ban speakers from college campuses, cancel people who aren't up to date on the latest genders, and force religious people to violate their conscience. They have abandoned the battle of ideas and have begun fighting a battle of feelings. This uncomfortable truth has turned moderates and true liberals into the politically homeless class. Dave Rubin launched his political talk show The Rubin Report in 2015 as a meeting ground for free thinkers who realize that partisan politics is a dead end. He hosts people he both agrees and disagrees with—including those who have been dismissed, deplatformed, and despised—taking on the most controversial issues of our day. As a result, he's become a voice of reason in a time of madness. Now, Rubin gives you the tools you need to think for yourself in an age when tribal outrage is the only available alternative. Based on his own story as well as his experiences from the front lines of the free speech wars, this book will

empower you to make up your own mind about what you believe on any issue and teach you the fine art of: Checking your facts, not your privilege, when it comes to today's most pervasive myths, from the wage gap and gun violence to climate change and hate crimes. Standing up to the mob against today's absurd PC culture, when differences of opinion can bring relationships, professional or personal, to a sudden end. Defending classically liberal principles such as individual rights and limited government, because freedom is impossible without them. The Progressive Woke Machine is waging war against the last free thinkers in the world. Don't Burn This Book is the definitive account of our current political upheaval and your guide to surviving it.
