So Sad Today Melissa Broder, 2016-03-15 From acclaimed poet and creator of the popular twitter account @SoSadToday comes the darkly funny and brutally honest collection of essays that Roxane Gay called sad and uncomfortable and their own kind of gorgeous. Melissa Broder always struggled with anxiety. In the fall of 2012, she went through a harrowing cycle of panic attacks and dread that wouldn't abate for months. So she began @sosadtoday, an anonymous Twitter feed that allowed her to express her darkest feelings, and which quickly gained a dedicated following. In *So Sad Today*, Broder delves deeper into the existential themes she explores on Twitter, grappling with sex, death, love low self-esteem, addiction, and the drama of waiting for the universe to text you back. With insights as sharp as her humor, Broder explores--in prose that is both ballsy and beautiful, aggressively colloquial and achingly poetic--questions most of us are afraid to even acknowledge, let alone answer, in order to discover what it really means to be a person in this modern world.

The High House Jessie Greengrass, 2022-01-04 Shortlisted for the 2021 Costa Novel Award In this powerful, highly anticipated novel from an award-winning author, four people attempt to make a home in the midst of environmental disaster. Perched on a sloping hill, set away from a small town by the sea, the High House has a tide pool and a mill, a vegetable garden, and, most importantly, a barn full of supplies. Caro, Pauly, Sally, and Grandy are safe, so far, from the rising water that threatens to destroy the town and that has, perhaps, already destroyed everything else. But for how long? Caro and her younger half-brother, Pauly, arrive at the High House after her father and stepmother fall victim to a faraway climate disaster—but not before they call and urge Caro to leave London. In their new home, a converted summer house cared for by Grandy and his granddaughter, Sally, the two pairs learn to live together. Yet there are limits to their safety, limits to the supplies, limits to what Grandy—the former village caretaker, a man who knows how to do everything—can teach them as his health fails. A searing novel that takes on parenthood, sacrifice, love, and survival under the threat of extinction, *The High House* is a stunning, emotionally precise novel about what can be salvaged at the end of the world.

Hatching Twitter Nick Bilton, 2014-09-30 The dramatic, unlikely story behind the founding of Twitter, by New York Times bestselling author and Vanity Fair special correspondent The San Francisco-based technology company Twitter has become a powerful force in less than ten years. Today it's everything from a tool for fighting political oppression in the Middle East to a marketing must-have to the world's living room during live TV events to President Trump's preferred method of communication. It has hundreds of millions of active users all over the world. But few people know that it nearly fell to pieces early on. In this rousing history that reads like a novel, *Hatching Twitter* takes readers behind the scenes of Twitter's early exponential growth, following the four hackers—Ev Williams, Jack Dorsey, Biz Stone, and

Noah Glass, who created the cultural juggernaut practically by accident. It's a drama of betrayed friendships and high-stakes power struggles over money, influence, and control over a company that was growing faster than they could ever imagine. Drawing on hundreds of sources, documents, and internal e-mails, Bilton offers a rarely-seen glimpse of the inner workings of technology startups, venture capital, and Silicon Valley culture.

Power of Reading Frank Furedi, 2015-10-08 Here is a natural companion to Christopher Booker's bestselling *The Seven Basic Plots* (Continuum) and John Gross's seminal study *The Rise and Fall of the Man of Letters* (Weidenfeld and Nicolson). The most eminent cultural and social historian Frank Furedi presents an eclectic and entirely original history of reading. The very act of reading and the choice of reading material endow individuals with an identity that possesses great symbolic significance. Already in ancient Rome, Cicero was busy drawing up a hierarchy of different types of readers. Since that time people have been divided into a variety of categories- literates and illiterates, intensive and extensive readers, or vulgo and discreet readers. In the 19th Century, accomplished readers were praised as 'men of letters' while their moral opposites were described as 'unlettered'. Today distinctions are made between cultural and instrumental readers and scorn is communicated towards the infamous 'tabloid reader'. The purpose of this book is to explore the changing meanings attributed to the act of reading. Although it has an historical perspective, the book's focus is very much on the culture of reading that prevails in the 21st Century. There are numerous texts on the history of literacy (Hoggart), yet there is no publication devoted to the the history of readers and their relationship with wider culture and society. It is thus a fascinating insight into understanding the

post-Gutenberg debates about literacy in a multimedia environment with such a strong emphasis on the absorption of information. Taking a cue from George Steiner, Furedi argues vigorously for the restoration of the art of reading—every bit as important as the art of writing.

It enables users to read and reply to short text-based messages ('tweets'), and helps users generate a following. When linked to other social media channels, such as Pinterest, for example, it can be a useful promotional tool for your book. Likewise, we explain how social cataloguing websites like Shelfari, with its book clubs and forums, and Goodreads, which allows users to rate and review books, can help you and your book to reach its intended market.
