*Olive, Mabel & Me: Life and Adventures with Two Very Good Dogs* Andrew Cotter, 2020-12-01 The story of Olive and Mabel, Labrador retrievers who rose to internet fame as the subjects of Andrew Cotter's BBC sports parodies. When sporting events were put on hold in March 2020, commentator Andrew Cotter shifted to working from home. The one-on-one competitors? His two Labrador retrievers, Olive and Mabel. In the hilarious videos that ensued, the dogs engage in various contests, from bone-snatching and breakfast-eating to crushing it on the dog walk, while Cotter narrates to hilarious effect. The scene of Mabel, simply standing still in a fetid pond was one of the most popular. Why? Because this is how dogs live, and Cotter captured it with humor and joy. It's why the series has been viewed more than 50 million times, entertaining dog owners, sports fans and celebrities around the world. Olive and Mabel are more than online celebrities, however, as revealed in this charming narrative. Filled with stories about how Cotter fell in love with his dogs, his passion for hiking with them through the glens and over the peaks of his native Scotland, and the ongoing relationship between Olive and Mabel (particularly the "competitive fire" lit during these days of quarantine), the memoir is by turns side-splittingly funny and thoughtfully tender. It's sure to resonate with all dog lovers.

**The Third Industrial Revolution** Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into

the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players – heads of state, global CEOs, social entrepreneurs, and NGOs – who are pioneering its implementation around the world.

3D and the Art of Massive Attack Robert Del Naja, Sean Bidder, 2015-07-06 The Vinyl Factory presents 3D and the art of Massive Attack by Robert del Naja (aka 3D) a 300-page 12x12 hardback reversible book format with two different covers starting at the past or the present (with screen printed front covers) on the visual history of the artist and his band who have sold over 11 million records worldwide. Compiled and designed by 3D using images from a personal archive and original artifacts scanned by the artist for the record. Robert's artwork has come to define the iconic style of his band and the book

explores their visual history, presenting both familiar and previously unseen work, from his influential graffiti and stencil art in the Wild Bunch-era of the 80s to Massive Attack cover designs and paste-ups and paintings. Also included is his work made in collaboration with Nick Knight, Tom Hingston, Judy Blame and Michael Nash Associates, as well as unseen photographs documenting Del Naja's ongoing LED work with United Visual Artists. The 300-page book also features an in-depth interview with the artist, where he describes the development of the band's artwork and record sleeve designs, as well as offering insight into his process and inspirations. Del Naja's background as a graffiti artist has shaped his evolving aesthetic, as well as a strong ethos of do it yourself creativity. His instincts as an artist were forged in an atmosphere of spontaneity and innovation – from making flyers to throwing warehouse parties – and this way of working informed the first record sleeves he created. Inspired by magazine culture and comics, 3D drew on wide-ranging influences, from New York's hip-hop scene and Japanese graphics, Jean-Michel Basquiat's cultural juxtapositions to Warhol's pop imagery, politics and punk.
