**Advanced Criminal Investigations and Intelligence Operations** Robert J Girod, 2014-06-26 Tradecraft is a term used within the intelligence community to describe the methods, practices, and techniques used in espionage and clandestine investigations. Whether the practitioner is a covert agent for the government or an identity thief and con man, the methods, practices, tactics, and techniques are often the same and sometimes learned from the same sources. *Advanced Criminal Investigations and Intelligence Operations: Tradecraft Methods, Practices, Tactics, and Techniques* reveals how intelligence officers and investigators conduct their tradecraft. You'll learn how to plan an operation, how to build an identity and cover story for deep cover operations, and how to detect those who have created false identities for illegal purposes. You'll also get insight into the technical aspects of intelligence (the INTs), counterintelligence, and criminal investigations, and legal considerations for conducting intelligence investigations. Topics include: A discussion of black bag operational planning HUMINT (human intelligence)—the gathering of information from human sources DAME (defenses against methods of entry), forced entry into buildings, safes and combination locks, and automobile locks PSYOPS (psychological operations) and the use of social networks ELINT (electronic intelligence) and SIGINT (signals intelligence)—electronic interception of intelligence, bugs, wiretaps, and other communications interceptions EMINT (emanations intelligence), which concerns the emanation of data, signals, or other intelligence from C4I systems IMINT (imagery intelligence), involving any intelligence gathered using images Intelligence files and analytical methods Based upon the author's training and experience over more than three decades as a law enforcement investigator and military officer, as well as research conducted as an attorney and in academia, the book provides you with an insider perspective on sensitive covert and overt operations and sources. Supplemented with roughly 140 illustrations and photos, this collection of special skills and reference materials is essential to the professional investigator and intelligence operative.

*Finance 101* Danny Singh, 2012-11 No Credit Bad Credit Average Credit Just Want To Learn About Finance Well, congratulations because you have found the right book. Not even the table of contents can show all the lessons contained within this book meant to help consumers fight all types of financial problems just as Danny Singh fights for his mother including avoiding a foreclosure, reclaiming a repossessed car, fixing credit, avoiding deceptive loans as well as checking accounts filled with fees, and getting denied credit applications approved. In response to the student loans crisis looming in America and as a community college student himself, Danny advocates going to a community or state college and doing the maximum number of classes is the best financial decision that can be made versus getting into \$100,000 of debt. Without needing bogus and expensive credit repair agencies, Danny will emphasize the most effective debt repayment plans and methods to save money on everyday purchases allowing for consumers to be debt free in months instead of years. Besides student loan debt, Danny expresses credit unions are the solution for consumers to effectively pay off any type of debt such as credit cards, auto loans, and mortgages. Being free of debt will cause their insurance premiums to decrease and increase their chances of better employment. In addition, consumers will be

able to enjoy lives free of bankruptcy. Saving for retirement and other financial goals will be a breeze. Despite the financial conditions of a consumer or the economy, perfect credit is never impossible and Danny proves this in Finance 101: The Whiz Kid' Perfect Credit Guide! If the knowledge in this book does not boost your credit scores and bank account balances then feel free to return or sell it. The purchase of this book is the only investment that is risk free but makes the most earnings.
