**A History of Competitive Gaming** Lu Zhouxiang,2022-05-13 Competitive gaming, or esports – referring to competitive tournaments of video games among both casual gamers and professional players – began in the early 1970s with small competitions like the one held at Stanford University in October 1972, where some 20 researchers and students attended. By 2022 the estimated revenue of the global esports industry is in excess of \$947 million, with over 200 million viewers worldwide. Regardless of views held about competitive gaming, esports have become a modern economic and cultural phenomenon. This book studies the full history of competitive gaming from the 1970s to the 2010s against the background of the arrival of the electronic and computer age. It investigates how competitive gaming has grown into a new form of entertainment, a sport-like competition, a lucrative business and a unique cultural sensation. It also explores the role of competitive gaming in the development of the video game industry, making a distinctive contribution to our knowledge and understanding of the history of video games. A History of Competitive Gaming will appeal to all those interested in the business and culture of gaming, as well as those studying modern technological culture.

Dirt Track Auto Racing, 1919-1941 Don Radbruch,2003-12-11 Prior to World War I, auto racing featured expensive machines and teams financed by auto factories. The teams toured the country, and most of the races were held in large cities, so the vast majority of Americans never saw a race. All this changed after World War I, though, and in the 1920s and 1930s there were approximately 1,000 dirt tracks in the United States and Canada. The dirt tracks offered small-time racing—little prize money and minimal publicity—but people loved it. This pictorial history documents dirt track racing, with what are today called sprint cars, around the United States from 1919 to 1941. Information on dirt track racing in Canada during this time is also provided. Regionally divided chapters detail the drivers, tracks, and specific races of each area of the country. Some of the drivers went on to win fame and fortune while others faded into obscurity. Tracks included well known facilities as well as out-of-the-way sites few people had ever heard of. The cars ranged from state of the art machines to the more common home built specials based on Model T or Model A Ford parts. Taken together, the drivers, tracks, and races of this era were instrumental in making auto racing the popular sport it is today.

**Ascot** Dave Wolin,2023-04-08 Ascot - The story of the iconic dirt track that defined Southern California racing. It began in 1903 as a horse track, then as a one mile dirt track in L.A., then as New Ascot Raceway in East L.A. which became Legion Ascot and finally Southern Ascot in Southgate. Then, Los Angeles Speedway was built in 1957 on the site of a former landfill just south of Gardena. The promoter got into financial difficulties and it became New Ascot Stadium and eventually just Ascot. Everyone raced there, sprint cars, stock cars, midgets, buggies and motorcycles. 90 Indy 500 drivers raced there. Names like A.J. Foyt, Rick Mears and Parnelli

Jones were regulars. It was said that if you haven't raced Ascot, you haven't raced. Read the book to see why it closed in 1990. Written in scrapbook style, decade by decade, full of newspaper and magazine articles, photos and stories from those who were there. Read the review from LACar.com (edited for brevity) -This is a feisty, tough little (is 399 pages with what must be a thousand photos really little?) MOFO (of a book) that triggers memories long dulled by watching racing live, and in person TV racing from four of five camera angles and then again from the blimp or fast-flying drone and over and over in replay. Ascot was a blink and you'll miss it, in your face, wall to wall. It was a shut the (heck) up and race joint that some seem to master, but that very few had a real wrap-around view of. That track seemed to thrive on being mythical, moody, a place where almost everything went for even the best of them and winning was a cause for great celebration. It has always been something of an anomaly that no book (until now) had been written about the place where some of the greatest dirt short track racing ever seen had thrilled generations of Angelenos over its short, 33-year life. If you were lucky enough to have been there, I'm sure noise and smells are hard to forget. Chevy V-8s screaming out while being tortured by competitors who had tipped the can and doctored the nasty, eye-watering methanol fuel with liquid dynamite (nitro-methane) to get a few horsepower over another racer and who's motor oil spit out on to red-hot open exhaust.... In case you didn't notice, this is a book that every LA motorsports fan of a certain age has been asking for for a long time now ... a scrapbook of photos and news clips that recount (and remind in a lot of cases) of the glory that was Ascot, where the ambiance was not about the place, but exclusively about the sort racing that went on there for thirty-three years. But every foot, no matter what the tape made it, was jam-packed with real racing action at that joint. The growling motorcycles, the howling sprint cars, the screaming midgets, the high-flying off-road buggies and three-wheelers, the blunt force trauma of the demolition derby cars, the shouting parents of the bike-x kids, even the occasional over-served fan who decided to see what kind of a lap they could cut on foot, all conspired to make a very satisfying show at Ascot. It always managed to be that kind of place - the one where (the you know whats) COL-LIDE. Wolin's use of photos - and contemporary news articles - pays off in the best way possible for the Ascot legend. There's a ton of truth in this one. Thanks for all the memories Mister Wolin! 399 Pages - 8 1/2 x 11 - B&W. Published by the Racing History Project and autographed by the author.
