*Digital Culture & Society (DCS)* Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

**The Sheer Curtain** Maria Elena Garza, 2016-06-17 This short novel is dedicated to my wonderful family: my children, Cathy, Fernando, Phillip; my grandchildren Jozette, Alaena, Phoenix; and my husband, Max. The novel is especially written for an audience of young readers or adults who choose to have a child's imagination. It was such fun for me to develop the characters and scenes of this mystery. It all starts with a woman's silhouette that appears on the third-floor window of this old Victorian mansion. No one in the town of Sneila has ever seen her except when she stands behind the sheer curtain. The children of the town look forward to Halloween every year. The children together walk down the dirt road to the mansion that sits at the edge of town behind enormously tall trees and a black iron fence. Every Halloween, the children know that, in front of the mansion outside the gate, there will be a mysterious white cauldron filled with magic candies for each child. The candies are in baggies with each child's name written on the front of the baggie. How does she know every child's name? Where does this candy come from? The children agree that the candy is very different, like it's out of this world. These are only two of the mysteries that exist in the town of Sneila. Much mystery lives in the town of Sneila. The number of people in this town never changes. When one person dies, another is born. People who die are not buried. The number 8 appears throughout the town. Sometimes you have to add two digits to find the 8. The infinity symbol appears throughout the novel. Magic turtles surface and communicate with the two main characters, Samantha and Victoria. Flickering lights, hidden doors, basement, baskets, spaceships, magic turtles, mysterious bubbles, candles, and fairies create a magical kingdom. Wrinkles and gray hair are witnesses to times past. The surprise ending is sure to give you goose bumps! Other books from the author include the following: Sleepy Tears Laughing Tears Sleepy Tears Miss You Tears Gods Love is Real (poetry book) Friends and Angels (poetry book) The Secret Meeting of the Sorcerers

**"W.O. Mitchell's Jake & the Kid: the Popular Radio Play as Art & Social Comment."** Alan J. Yates,2010-06-10 W.O. Mitchell's Jake & The Kid captivated radio audiences in the days before television and enjoyed ratings that rivalled those for the radio broadcasts of the CBC's Hockey Night in Canada. These homespun tales about the hired hand, Jake Trumper and his sidekick, The Kid, explored very human stories about life on the often cruel Prairies of Saskatchewan in a humorous vein that made a household name for the series across the breadth of Canada. Although he wrote many novels, most notably Who Has Seen the Wind, featured during the ceremonies at the 2010 Vancouver Olympics, Mitchell was as well known for these folksy plays. They enabled him to hone his writing craft in a mass medium, when few other outlets were available; to tackle social issues of the day with a light hand, and to develop many of the themes he would explore in his later novels. This study analyzes these popular radio plays, their Prairie and literary roots, the production process and their contribution and critical reception.

**Digital Storytelling** Shilo T. McClean,2008-09-26 How digital visual effects in film can be used to support storytelling: a guide for scriptwriters and students. Computer-generated effects are often blamed for bad Hollywood movies. Yet when a critic complains that technology swamps storytelling (in a review of Van Helsing, calling it an example of everything that is wrong with Hollywood computer-generated effects movies), it says more about the weakness of the story than the strength of the technology. In Digital Storytelling, Shilo McClean shows how digital visual effects can be a tool of storytelling in film, adding narrative power as do sound, color, and experimental camera angles—other innovative film technologies that were once criticized for being distractions from the story. It is time, she says, to rethink the function of digital visual effects. Effects artists say—contrary to the critics—that effects always derive from story. Digital effects are a part of production, not post-production; they are becoming part of the story development process. Digital Storytelling is grounded in filmmaking, the scriptwriting process in particular. McClean considers crucial questions about digital visual effects—whether they undermine classical storytelling structure, if they always call attention to themselves, whether their use is limited to certain genres—and looks at contemporary films (including a chapter-long analysis of Steven Spielberg's use of computer-generated effects) and contemporary film theory to find the answers. McClean argues that to consider digital visual effects as simply contributing the wow factor underestimates them. They are, she writes, the legitimate inheritors of film storycraft.

**The Mind of the Guru** Rajiv Mehrotra,2009-12-01 In The Mind of the Guru, Rajiv Mehrotra presents dialogues with several contemporary sages and masters who have illumined the minds of millions around the world. Ranged here are gurus as diverse as B. K. S. Iyengar, who brought yoga

from the world of the esoteric to our living rooms; Swami Ramdev, who has democratized yoga via television; and Mata Amritanandamayi, whose mere presence invokes an overwhelming awareness of love. There is Deepak Chopra discussing a quantum healing of mind and body, Sogyal Rinpoche encouraging us to look at death so that we might live a better life and Sri Sri Ravi Shankar reaffirming each person's right and access to happiness. And there is the unique and contrary voice of U. G. Krishnamurti telling us that all talk of transformation is poppycock. There are no grand narratives or final solutions, only guides who can show the way to the light within. Here you learn from voices as diverse as that of Thich Nhat Hanh, Bishop Desmond Tutu, Baba Amte and Stanislav Grof. Underlying the dialogues is their wisdom on how we can make ourselves unhappy – and guidance on how we can turn our lives around to achieve happiness.

**Noah as Antihero** Rhonda Burnette-Bletsch, Jon Morgan, 2017-04-21 This collection of essays by biblical scholars is the first book-length treatment of the 2014 film Noah, directed by Darren Aronofsky. The film has proved to be of great interest to scholars working on the interface between the Bible and popular culture, not only because it was heralded as the first of a new generation of biblical blockbusters, but also because of its bold, provocative, and yet unusually nuanced approach to the interpretation and use of the Noah tradition, in both its biblical and extra-biblical forms. The book's chapters, written by both well-established and up-and-coming scholars, engage with and analyze a broad range of issues raised by the film, including: its employment and interpretation of the ancient Noah traditions; its engagement with contemporary environmental themes and representation of non-human animals; its place within the history of cinematic depictions of the flood, status as an 'epic', and associated relationship to spectacle; the theological implications of its representation of a hidden and silent Creator and responses to perceived revelation; the controversies surrounding its reception among religious audiences, especially in the Muslim world; and the nature and implications of its convoluted racial and gender politics. Noah as Antihero will be of considerable interest to scholars conducting research in the areas of religion and film, contemporary hermeneutics, reception history, religion and popular culture, feminist criticism, and ecological ethics.
