Toyota Celica GT-Four Graham Robson,2015-04-21 This is a comprehensive study of the career of the Toyota Celica GT-Four. Starting in 1988, three generations of this effective turbocharged four-wheel-drive car – known by enthusiasts as ST165, ST185 and ST205 types – fought for World Championships, and were amazingly successful for almost a decade. All types combined high-performance, great reliability, and superb preparation by Toyota Team Europe (based in Cologne, Germany), their 300bhp/four-wheel-drive chassis package being among the best in the world. Over the years, the cars won some of the roughest events in the world (such as the Safari and the Acropolis), and were also supreme on tarmac, snow and ice, including Monte Carlo. After fighting a running battle with Lancia for years, the Celicas won the World Manufacturers' Championship twice. Its famous drivers included Carlos Sainz (World Champion in 1990 and 1992), Juha Kankkunen (Champion in 1993) and Didier Auriol (Champion in 1994). Never far from controversy, and at times embroiled in technical and regulatory disputes, these cars brought real glamour to the colourful sport of rallying, and were only replaced by an even higher-tech Toyota – the Corolla World Rally Car – in 1997.

The N64 Encyclopedia Chris Scullion, 2022-12-29 The fourth book in Chris Scullion's critically acclaimed series of video game encyclopedias, The N64 Encyclopedia is dedicated to the Nintendo 64, one of the most well-loved games consoles ever released. Although the Nintendo 64 didn't sell as well as some of Nintendo's other systems, and although it struggled in the shadow of the bold newcomer that was the Sony PlayStation, everyone who owned an N64 was in love with it and the four-player multiplayer it provided as standard. Despite its relatively small library, the Nintendo 64 had a healthy number of groundbreaking titles that would revolutionise the way we played video games. The likes of Super Mario 64, GoldenEye 007, Mario Kart 64 and The Legend of Zelda: Ocarina of Time remain iconic in the eyes of video game fans 25 years down the line. This book naturally contains those games, but it also contains every other game released for the system, no matter how obscure. It also covers every game released in Japan, including those for the ill-fated Nintendo 64DD add-on which never left the country. With over 400 games

covered, screenshots for every title and a light-hearted writing style designed to make reading it a fun experience, the N64 Encyclopedia is the definitive guide to a truly revolutionary gaming system.

The Cutting Edge Rod Millen, 2014-08-15 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles, armored and off-road

vehicles and subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre, ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsyberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

Peugeot 205 T16 Graham Robson, 2016-01-21 Four-wheel-drive was authorised in rallying from 1979, but for a time no serious car-manufacturer even tried to harness it to their cars. Soon, though, it was Audi who produced the world's first rally-winning four-wheel-drive car the Quattro. However it was Peugeot who designed, developed, campaigned and won with the first truly sophisticated four-wheel-drive Group B Car the 205 Turbo 16. It was the first

truly great, purpose-designed, Group B car. Determined to win at almost any cost, Peugeot hired Jean Todt (who would later transform the fortunes of the Ferrari F1 organisation) in 1981, and set him an ambitious target. His dream car had to be running in 1983, homologated in 1984, and capable of winning World Championships by 1985. Nothing, no excuses and no lack of application, was to get in the way of that. Apart from being obliged to use the silhouette of the still-secret new 205 road car, Todt was able ask for anything. Getting approval for whatever he needed and fast-tracking the engineering of the four-wheel-drive rally was not an issue in reaching one simple objective victory. This is precisely what was achieved. This book tells the detailed story, and lists all the cars, the influences, and the personalities behind a magnificent success story. No sooner had the new turbocharged, transverse-mid-engined car started competing than it was ready to win, yet its dominant career was cut short at the end of 1986 by an abrupt change in rallying regulations. Not only is the engineering story laid out in great detail, but the interaction between company personalities, super-star drivers (including Ari Vatanen) and the highly-charged atmosphere of motorsport at this time is all analysed. Because Group B was cancelled even before the 205 T16 had reached maturity, it went on to have a successful career in desert Raid rallies, and at Pike Peak in the USA, all of which is described in this amazingly authoritative study. Packed with illustrations, technical details, facts, figures and successes of this innovative car this book is a must for

any rally fan.
