

Real Toss

Stefan Hollos,J. Richard Hollos

Toss James Roberts Jr,2011-01-27 You would think waking up from a coma would be the best thing to ever happen to someone. A love triangle changed John forever. It left him with no trust in humanity. A new sense of bitterness, hate, confusion, scars and stitches. This is all dramatic but even worse is after his hospital stay is the fact that deep down he's not scared and unable to sleep which leads him to slowly lose his mind. He hears voices and begins to see things from sleep deprivation. The newly turned twisted loner soon finds that the only way he's able to sleep at all is from pills, drinking, any extreme high or from the aftermath of a adrenaline rush. Finding this "high" soon takes over his life. His new path turns him into a person he never thought he would be. He's finally alive and acting out trying everything that he never thought he never would have the nerve to try before which includes being a sexual deviant, drugs and even murder.

Mathematical Elegance Steven Goldberg,2017-09-08 The heart of mathematics is its elegance; the way it all fits together. Unfortunately, its beauty often eludes the vast majority of people who are intimidated by fear of the difficulty of numbers. Mathematical Elegance remedies this. Using hundreds of examples, the author presents a view of the mathematical landscape that is both accessible and fascinating. At a time of concern that American youth are bored by math, there is renewed interest in improving math skills. Mathematical Elegance stimulates students, along with those already experienced in the discipline, to explore some of the unexpected pleasures of quantitative thinking. Invoking mathematical proofs famous for their simplicity and brainteasers that are fun and illuminating, the author leaves readers feeling exuberant-as well as convinced that their IQs have been raised by ten points. A host of anecdotes about well-known mathematicians humanize and provide new insights into their lofty subjects. Recalling such classic works as Lewis Carroll's Introduction to Logic and A Mathematician Reads the Newspaper by John Allen Paulos, Mathematical Elegance will energize and delight a wide audience, ranging from intellectually curious students to the enthusiastic general reader.

Turn a Blind Eye: -A Mother's True Story- Pushed to Perform, an Adolescent Nightmare Karen Montgomery,2005-06-01 How do youngsters cope with the pressures of competitive endeavors? What are their deepest fears? Why do many talented kids feel like failures regardless of their successes? Learn the shocking truth how some teens deal with mounting insecurities. Discover the repercussions that can happen when parents are blinded to performance pressures facing youngsters, particularly when entering chaotic adolescence. My narrative is a heartfelt, sometimes humorous journal detailing the nurturing of my daughter from birth through her turbulent adolescent years. The intensity of her stormy evolution was inflamed by nine years in highly competitive professional dance environments and resulted in her self-destructive acting out behavior. It's a retrospective chronicle providing an insightful glimpse of what may await unsuspecting parents with youngsters in competitive activities. What happened to us can happen to any well-intentioned family with children who are pushed to perform in academics, the arts, or athletics.

Bottle Toss Howard Odentz,2019-10-31 A beer bottle thrown carelessly at the windshield of a passing car sends the vehicle careening off the road, and the lives of high school seniors Denny Ford, his foster sister Jen McKnatt, and her sometimes boyfriend Brody Erwin, spinning out of control. Over the next several days as the three experience increasingly bizarre, frightening, and seemingly unrelated events, they are forced to examine the ramifications of their actions and how their lives have been irrevocably altered. What they've done can never be undone. After all, it only takes one bottle toss to turn their world cockeyed forever. Praise for Howard Odentz: A simmering psychological thriller bolstered by a dynamic narrative voice and a few unexpected twists. --Kirkus Reviews on What We Kill This author has a real knack for the weird and the wonderful.--TheMostSublime.com About the Author: Author and playwright Howard Odentz is a lifelong resident of the gray area between Western Massachusetts and North Central Connecticut. His love of the region is evident in his writing as he often incorporates the foothills of the Berkshires and the small towns of the Bay and Nutmeg states into his work. In addition to The Dead (A Lot) Series, he has written the horror novel Bloody Bloody Apple, the short story collection Little Killers A to Z, and a couple of horror-themed, musical comedies produced for the stage.

Keep This Toss That Editors at Reader's Digest,2015-03-03 Are you afraid to open your kitchen cabinet because you know food storage containers are going to come pouring out like an erupting volcano? Do you spend hours searching for the email you need? Will you regret it tomorrow if you give away all your old concert T-shirts? And how many tote bags will you really use? Keep This, Toss That answers all of these questions and much more. Featuring dozens of illustrated Keep/Toss Checklists, the book shows you exactly what you need—and what you can safely toss, regret-free (even if you're a sentimentalist or saver)—in every room of your house, for each hobby or activity, and even online. It also includes: • quick tips on clever storage solutions • tools and utensils that can do double duty • advice on how to customize the lists to suit your house, your family, and your lifestyle Answering the one key question you need to get organized and live happily with just the stuff you love, Keep This, Toss That is the one organizing book you must have.

The Toss Up Alyssa Martin,2023-03-01 She was a girl. He was a boy. Until the morning they weren't. Chloe Donovan is many things: a medal-winning gymnast, twin sister, pre-law major, and doing her best to work out the kinks in her sex life. After waking up in the bed and body of a near stranger, she's also now a man. Now she's got a few extra things, but, hey, she's flexible... or she was. Knox Benson has it easy: an active and uncomplicated love life, good grades, great friends, and a successful run as starting wide receiver on Saxon university's football team. When he finds himself in the bed and body of a strange woman he barely knows, everything just got so much harder... and not the fun hard. An awkward confrontation sends the two spiraling into chaos, and they're forced to work together to fix the mix up or stay each other forever. Knox gets in touch with his feminine side, handling hip circles and monthly cycles. Chloe learns what it means to man up, coping with evening practice and morning wood. Can the pair right themselves and keep their teammates, close friends, and families in the dark? When they're back in the right bodies, will they make a run for yards in opposite directions, or vault headlong into a bond that's more than skin deep? **This story contains content that may be troubling to some individuals, including, but not limited to: mild violence, sexual assault, discussion of nonconsensual recording, explicit sexual situations (18+), depiction of menstruation, and intimate details of the physiological differences of the sexes. The Toss Up, while detailing differences between two cis-gendered characters, is for entertainment only and not meant to be a commentary on transgendered peoples. Trans rights are human rights.

The Coin Toss Stefan Hollos,J. Richard Hollos,2012-11-20 The coin toss is really just a metaphor for a random event that has only two possible outcomes. The actual tossing of a real coin is just one way to realize such

an event. There are many examples of questions that are equivalent to a coin toss. For example: Will the stock market close up or down tomorrow? Will a die roll come up with an even or odd number? Will we make contact with extraterrestrials within the next ten years? Will a car drive by in the next minute? Will tomorrow be sunny or cloudy? Will my medical test result be negative or positive? Will I enjoy this movie? Will the next joke be funny? Will the Earth's average temperature go up next year?Because a coin toss is equivalent to such a wide variety of questions, the results in this book are widely applicable.Because the coin toss is the simplest random event you can imagine, many questions about coin tossing can be asked and answered in great depth. The simplicity of the coin toss also opens the road to more advanced probability theories dealing with events with an infinite number of possible outcomes.This book is very mathematical. Some knowledge of calculus, discrete math, and generating functions is helpful to get the most out of it. A review of discrete math is provided in the index,

Luck of Losing the Toss Frank Henson,2018-12-19 Frank Henson grew up in poverty on the Whitehawk estate in Brighton. He didn't know his father and got into trouble at an early age. In the swinging sixties he became a paratrooper, then a hairdresser and a racing driver. Chance encounters led to work as a film extra, then as a stunt performer on some of the major films of the day. He had found his calling. Fifty years later he reflects on a life in the movies and on TV, as one of Britain's best-loved stunt performers. Here he describes his early life and his route into working on some of the most successful films of all time, including Return fo the Jedi and Indiana Jones and The Temple of Doom. He's also worked with some of cinema's biggest stars including John Wayne, Robert Mitchum and Pierce Brosnan. The Luck of Losing the Toss contains photos from Frank's private collection, published here for the first time. Today Frank lives on his farm in Sussex and still makes the odd cameo appearance as a stunt performer in films.

A Toss of the Dice Natasha T. Hays,2005 Natasha T. Hays uses stories from her paediatric practice to illustrate the challenges faced by children with different types of special needs, including autism, bipolar disorder, genetic syndromes, cerebral palsy, attention deficit hyperactivity disorder, and giftedness.

Supersports Helen Greathead,2016-12-15 Running any marathon takes months of training and a bit of courage. Tackling that distance on the Great Wall of China takes the event to another level! Readers encounter incredible sports events, such as the luge and the skeleton, and choose which they would rather try. Facts about each inform the tough questions readers ask themselves in order to make the choice, helping them to exercise their decision-making skills. Full-color photographs and an action-packed design aid readers choices by illustrating the exciting sports, extreme athletes, and odd sports from around the world.

A Treatise on Probability John Maynard Keynes,1921

QBism Hans Christian von Baeyer,2016-10-03 Short for Quantum Bayesianism, QBism adapts conventional features of quantum mechanics in light of a revised understanding of probability. Using commonsense language, without the equations or weirdness of conventional quantum theory, Hans Christian von Baeyer clarifies the meaning of quantum mechanics and suggests a new approach to general physics.

Operationalizing Sustainability Pierre Massotte,Patrick Corsi,2015-10-19 This book focuses on the emergence of the science of sustainability and the key concepts in making sustainability operational in an organization. The authors discuss the methods, techniques and tools needed to manage the impact of sustainability and how these can be reformulated into business models and solutions for new growth and applications. They then move onto the reformulation of future thinking processes before ending by looking towards an approach for the measurement of sustainability and competitiveness.

Logical Conclusions James Dustin,2020-11-18 Chapters in this volume include: Chapter 1: American Government 101 Schools are supposed to teach this subject, but schools never teach what actually goes on at the local, state, and national levels. If they did, students would be mightily entertained Chapter 2: Our Weird, Weird World You would not believe how the behavior police want you to act while backpacking in the wilderness and other weirdness. Chapter 3: We Muse on the News So why don't rich people pay more in taxes, how to sell air, and other interesting stuff. Chapter 4: Sports There are only two sports that remain where one can drink while one is playing the sport and other observations. Chapter 5: Dog Tales I live in a town where dogs are so admired that we may give them the right to vote. Chapter 6: Space and Science The next gold rush will occur in outer space, where a single asteroid could be worth \$100 trillion. Chapter 7: The Gopher Relays I can't help it. This happens every spring. You almost have to witness this activity to appreciate it. Chapter 8: Useful History What did they do about pirates back in the eighteenth century? Who actually won the Crusades? And honestly, a school forgot about Christmas? Chapter 9: Government Finances If this chapter doesn't frost your eyebrows, you probably don't pay taxes. Chapter 10: We Get Mail A big part of the fun of owning a newspaper is opening the mail. I mean, really. Chapter 11: Diving Us Crazy The days of Route 66 may be ending, and why I don't go abroad. Ever.
