Return on Ambition Nicolai Chen Nielsen, Nicolai Tillisch, 2021-01-05 How do you become highly successful—while living a fulfilling life and growing as a person? Most ambitious people struggle in at least one of these areas, yet they feel they don't have the tools to improve their situation. Return on Ambition is the culmination of an ambitious effort to harness insights from recent research in psychology and neuroscience to help people pursue their ambitions more fruitfully. The result is a radical and holistic approach to achievement, growth, and well-being that includes: • The Return on Ambition Self-Assessment: instructive, clear measures of how well you are currently doing in getting the return you aspire to • The Trinity of Achievement, Growth, and Well-Being: research and wisdom that show that compromises in any of these three elements will cause declines in the others over time • The 7 Frenemies: descriptions of personal attributes that are your core strengths as an ambitious person, but that can also be the biggest obstacles to your success and fulfillment in life • The Return on Ambition Toolbox: 4 tools that will help you articulate and pursue your ambition, expand your self-awareness, and help you learn consciously • 4 Self-Coaching Sessions: instructions for 30–60-minute contemplations inspired by thought-provoking questions Nielsen and Tillisch have tried-and-tested experience inside the world of grand ambitions. This means that readers will find not only concepts brought to life with rich interviews and stories, but also two authors who inherently understand their audience. Nicolai Chen Nielsen is an associate partner at McKinsey & Company, where he advises clients on leadership development, culture change, and agile transformations. He is the co-author of Leadership at Scale and has published several articles on personal development. He is currently based in New York with his wife, Samira, and their two dogs, Napoleon and Caesar. Nicolai Tillisch works with Cultivating Leadership, the global coaching firm, and is a co-founder of Deliberate Development, the venture behind the StepUpYourDay software solution. He has been a consultant with McKinsey & Company and was an executive with DDB Worldwide, Hutchison, and Nokia Siemens Networks. Nicolai lives with his wife Ida and their children, Margaux and Axel, in Denmark.

City of Ambition: FDR, LaGuardia, and the Making of Modern New York Mason B. Williams, 2013-05-28 Two political titans forge a modern city and a vibrant public sector in this history of strong leadership at a time of national crisis. City of Ambition is a brilliant history of the New Deal and its role in the making of modern New York City. The story of a remarkable collaboration between Franklin Roosevelt and Fiorello La Guardia, this is a case study in creative political leadership in the midst of a devastating depression. Roosevelt and La Guardia were an odd couple: patrician president and immigrant mayor, fireside chat and tabloid cartoon, pragmatic Democrat and reform Republican. But together, as leaders of America's two largest governments in the depths of the Great Depression, they fashioned a route to recovery for the nation and the master plan for a great city. Roosevelt and his "Brain Trust"—shrewd, energetic advisors such as Harold Ickes and Harry Hopkins—sought to fight the Depression by channeling federal resources through America's cities and counties. La Guardia had replaced Tammany Hall cronies with policy experts, such as the imperious Robert Moses, who were committed to a strong public sector. The two leaders worked closely together. La Guardia had a direct line of communication with FDR and his staff, often visiting Washington carrying piles of blueprints. Roosevelt relied on the mayor as his link to the nation's cities and their needs. The combination was potent. La Guardia's Gotham became a laboratory for New Deal reform. Roosevelt's New Deal transformed city initiatives into major programs such as the Works Progress Administration, which changed the physical face of the

United States. Together they built parks, bridges, and schools; put the unemployed to work; and strengthened the Progressive vision of government as serving the public purpose. Today everyone knows the FDR Drive as a main route to La Guardia Airport. The intersection of steel and concrete speaks to a pair of dynamic leaders whose collaboration lifted a city and a nation. Here is their story.

A Perfect Ambition (The Worthington Destiny Book #1) Dr. Kevin Leman, Jeff Nesbit, 2015-05-26 As the firstborn son of an old and powerful family, William Jennings Worthington VI knows what it's like to be under pressure. Groomed from birth with the relentless message that he was destined for greatness, Will has always pushed himself to succeed--nearly as much as his never-satisfied financial tycoon father pushes him. Becoming CEO of his company seems the next logical step on the success ladder. But when circumstances turn, Will finds himself staring down a road that leads to Capitol Hill. Can he trade the board room for the Senate floor? Or will a closetful of family secrets keep him from his destiny? Bestselling author, psychologist, and birth order expert Dr. Kevin Leman teams up with novelist and journalist Jeff Nesbit for this compelling new series. In a culture that can't get enough of political intrigue and sneak peeks inside powerful families, this book is sure to find a ready audience.

The Way of Ambition Robert Hichens, 1913

Giants John Stauffer, 2008-11-03 Frederick Douglass and Abraham Lincoln were the preeminent self-made men of their time. In this masterful dual biography, award-winning Harvard University scholar John Stauffer describes the transformations in the lives of these two giants during a major shift in cultural history, when men rejected the status quo and embraced new ideals of personal liberty. As Douglass and Lincoln reinvented themselves and ultimately became friends, they transformed America. Lincoln was born dirt poor, had less than one year of formal schooling, and became the nation's greatest president. Douglass spent the first twenty years of his life as a slave, had no formal schooling--in fact, his masters forbade him to read or write--and became one of the nation's greatest writers and activists, as well as a spellbinding orator and messenger of audacious hope, the pioneer who blazed the path traveled by future African-American leaders. At a time when most whites would not let a black man cross their threshold, Lincoln invited Douglass into the White House. Lincoln recognized that he needed Douglass to help him destroy the Confederacy and preserve the Union; Douglass realized that Lincoln's shrewd sense of public opinion would serve his own goal of freeing the nation's blacks. Their relationship shifted in response to the country's debate over slavery, abolition, and emancipation. Both were ambitious men. They had great faith in the moral and technological progress of their nation. And they were not always consistent in their views. John Stauffer describes their personal and political struggles with a keen understanding of the dilemmas Douglass and Lincoln confronted and the social context in which they occurred. What emerges is a brilliant portrait of how two of America's greatest leaders lived.

Godly Ambition Alister Chapman, 2011-08-01 British Christian leader John Stott was one of the most influential figures of the evangelical movement

during the second half of the twentieth century. Called the pope of evangelicalism by many, he helped to shape a global religious movement that grew rapidly during his career. He preached to thousands on six continents. Millions bought his books and listened to his sermons. In 2005, Time included him in its annual list of the 100 most influential people in the world. Alister Chapman chronicles Stott's rise to global Christian stardom. The story begins in England with an exploration of Stott's conversion and education, then his ministry to students, his work at All Souls Langham Place, London, and his attempts to increase evangelical influence in the Church of England. By the mid-1970s, Stott had an international presence, leading the evangelical Lausanne movement that attracted evangelicals from almost every country in the world. Chapman recounts how Stott challenged evangelicals' habitual conservatism and anti-intellectualism, showing his role in a movement that was as dysfunctional as it was dynamic. *Godly Ambition* is the first scholarly biography of Stott. Based on extensive examination of his personal papers, it is a critical yet sympathetic account of a gifted and determined man who did all he could to further God's kingdom and who became a Christian luminary in the process.

China's Big Power Ambition under Xi Jinping Suisheng Zhao, 2021-12-14
Instead of emphasizing China as a developing country, Chinese President Xi Jinping has identified China as a big power and accentuated China's big power status. This book explores the narratives and driving forces behind China's big power ambition. Three narratives rooted in Sino-centralism are examined. One is China's demands for the reform of global governance to reflect the values and interests of China as a rising power. Another is China's Belt and Road Initiative to construct a nascent China-centred world order. The third is the China model and self-image promotion in the developing countries. There are many forces that have driven or constrained China's big power ambition. This collection focuses on two sets of forces. One is China's domestic politics and economic incentives and disincentives. The other is China's geo-political and geo-economic interests. These forces have both motivated and constrained China's big power ambition. The chapters in this book were originally published in the *Journal of Contemporary China*.

Imperial Ambition in the Early Modern Mediterranean Céline Dauverd, 2015
Imperial Ambition in the Early Modern Mediterranean Genoese Merchants and the Spanish Crown. This book examines the alliance between the Spanish Crown and Genoese merchant bankers in southern Italy throughout the early modern era, when Spain and Genoa developed a symbiotic economic relationship, undergirded by a cultural and spiritual alliance. Analyzing early modern imperialism, migration, and trade, this book shows that the spiritual entente between the two nations was mainly informed by the religious division of the Mediterranean Sea. The Turkish threat in the Mediterranean reinforced the commitment of both the Spanish Crown and the Genoese merchants to Christianity. Spain's imperial strategy was reinforced by its willingness to acculturate to southern Italy through organized beneficence, representation at civic ceremonies, and spiritual guidance during religious holidays. Celine Dauverd is Assistant Professor of History and a board member of the Mediterranean

Studies Group at the University of Colorado Boulder. Her research focuses on sociocultural relations between Spain and Italy during the early modern era (1450-1650). She has published articles in the *Sixteenth Century Journal*, the *Journal of World History*, *Mediterranean Studies*, and the *Journal of Levantine Studies*--

Remaking China's Great Cities Samuel Y. Liang, 2014-07-25 China's rapid urbanization has restructured the great socialist cities Beijing, Shanghai, and Guangzhou into mega cities that embrace global capitalism. This book focuses on the urban transformations of these three cities: Beijing is the nation's political and cultural capital; Shanghai is the economic and financial powerhouse; and Guangzhou is the capital of Guangdong Province and the regional center of south China. All are historical cities with rich imperial, colonial, and regional heritages, and all have been drastically transformed in the last six decades. This book examines the cities' continuous urban legacies since 1949 in relation to state governance, economic reforms, and cultural production. By adopting local historical perspectives, it offers more nuanced accounts of the current urban change than the modernization/globalization paradigm and conceptualizes the change in the context of the cities' socialist, colonial, and imperial legacies. Specifically, Samuel Y. Liang offers an overview of the urban planning and territorial expansion of the great cities since 1949; explores the production and consumption of urban housing, its spatial forms, media representations, and socio-political implications; and examines the state-led redevelopment of old urban cores and residential neighborhoods, and the urban conservation movement. *Remaking China's Great Cities* will be of great interest to students and scholars working across a range of fields including Chinese studies, Chinese culture and society, urban studies and architecture.

Age of Ambition: Chasing Fortune, Truth, and Faith in the New China Evan Osnos, 2014-05-13 A Beijing correspondent for *The New Yorker* documents the political, economic and cultural changes occurring in today's China, examining a transition from Communist to personal power while addressing key questions about national freedom, generational identity and the influence of the West. 50,000 first printing.
