**Joint Urban Operations** Joint Chiefs Of Staff,Office of the Secretary of Defense,U. S. Department of Defense,2013-11 This publication has been prepared under the direction of the Chairman of the Joint Chiefs of Staff (CJCS). It sets forth joint doctrine to govern the activities and performance of the Armed Forces of the United States in joint operations and provides the doctrinal basis for interagency coordination and for US military involvement in multinational operations. It provides military guidance for the exercise of authority by combatant commanders and other joint force commanders (JFCs) and prescribes joint doctrine for operations, education, and training. It provides military guidance for use by the Armed Forces in preparing their appropriate plans. It is not the intent of this publication to restrict the authority of the JFC from organizing the force and executing the mission in a manner the JFC deems most appropriate to ensure unity of effort in the accomplishment of the overall objective.

Images as Data for Social Science Research Nora Webb Williams,Andreu Casas,John D. Wilkerson,2020-08-13 Images play a crucial role in shaping and reflecting political life. Digitization has vastly increased the presence of such images in daily life, creating valuable new research opportunities for social scientists. We show how recent innovations in computer vision methods can substantially lower the costs of using images as data. We introduce readers to the deep learning algorithms commonly used for object recognition, facial recognition, and visual sentiment analysis. We then provide guidance and specific instructions for scholars interested in using these methods in their own research.

**Endocrine Conditions in Pediatrics** Takara Stanley,Madhusmita Misra,2020-09-25 This book is aimed at primary care providers who care for the pediatric age group (general pediatrician, the PCP working with pediatric patients, and family medicine providers) with the goal of covering the endocrine differential diagnosis of common signs and symptoms of possible endocrine disease as well as appropriate initial laboratory evaluation and interpretation. While multiple pediatric endocrine textbooks exist, most of them are heavy in coverage of physiology and rare diseases, with less discussion of practical steps in evaluation and diagnosis. This book distinguishes itself through a very practical approach. The first section is organized by presenting signs and symptoms, the second section is organized by laboratory interpretation, and the third section provides summaries of common pediatric endocrine disorders. Chapters are concise, providing critical clinical information including clinical pearls, common diagnoses and important points in patient counseling. Written by experts in the field, Endocrine Conditions in Pediatrics is a valuable resource that provides general pediatricians and other primary care providers with all of the information they need to provide superb patient care before transferring to a pediatric endocrinologist when necessary.

Constantine Porphyrogenetos – The Book of Ceremonies ,2017-11-27 This is the first modern language translation of the entire text of the tenth-century Greek Book of Ceremonies (De ceremoniis) , a work compiled and edited by the Byzantine emperor Constantine VII (905-959). **Managing People and Organizations in Changing Contexts** Graeme Martin,2006-08-14 Managing People and Organizations in Changing Contexts addresses the contemporary problems faced by managers in dealing with people, organizations and managing change in a theoretically-informed and practical way. This textbook is a contemporary and relevant alternative to the standard works that cover material on Organization Behaviour and Human Resource Management because it approaches people management from the perspective of managers and aspiring managers. The book has an international orientation and many of the cases and examples in the book reflect this. It addresses the problems that managers face in managing people in old and new economy organisations and is interdisciplinary in its approach, including contributions from management, organisational behaviour, HRM, strategy, marketing and reputation management, and technology. This text meets the requirements of managers, leaders and students in managing people in contemporary and changing contexts. Managing People and Organizations in Changing Contexts offers: \* a contemporary and relevant edge with an original structure \* awareness of international and current trends and up-to-the-minute detail. \* cases based on original research and consulting experience \* new material on the role of management and leadership, technology and reputation management, and covers much of the material for CIPD's core management standards \* material that has been tested with managers and students in Europe, the USA and Asia \* a website on

**Governing Corporate Social Responsibility in the Apparel Industry after Rana Plaza** Anil Hira,Maureen Benson-Rea,2017-05-22 This edited collection critically explores the efforts of the apparel industry to improve safety conditions and suggests governance reforms that will resolve lingering issues. The volume examines two consortia: the Alliance and the Accord, which set up cooperative auditing systems of supplying factories and penalties for non-compliance, and include funding to help factories comply and for workers if factories are idled during repairs, though the editors raise doubts about the long-lasting value of such efforts. In the wake of the 2013 Rana Plaza disaster, leading researchers across labor relations and industry studies tackle and debate such issues, giving their perspective of how multinationals operating in developing countries should regulate labor standards in order to resolve and improve the substandard working conditions under which much of our clothing is made.

**The Politics of Party Coalitions in Africa** Denis Kadima,2006 This important book goes some way to filling that vacuum. **Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

**Conflicted** Ian Leslie,2021-02-23 Drawing on advice from the world's leading experts on conflict and communication—from relationship scientists to hostage negotiators to diplomats—Ian Leslie, a columnist for the New Statesman, shows us how to transform the heat of conflict, disagreement and argument into the light of insight, creativity and connection, in a book with vital lessons for the home, workplace, and public arena. For most people, conflict triggers a fight or flight response. Disagreeing productively is a hard skill for which neither evolution or society has equipped us. It's a skill we urgently need to acquire; otherwise, our increasingly vociferous disagreements are destined to tear us apart. Productive disagreement is a way of thinking, perhaps the best one we have. It makes us smarter and more creative, and it can even bring us closer together. It's critical to the success of any shared enterprise, from a marriage, to a business, to a democracy. Isn't it time we gave more thought to how to do it well? In an increasingly polarized world, our only chance for coming together and moving forward is to learn from those who have mastered the art and science of disagreement. In this book, we'll learn from experts who are highly skilled at getting the most out of highly charged encounters: interrogators, cops, divorce mediators, therapists, diplomats, psychologists. These professionals know how to get something valuable – information, insight, ideas—from the toughest, most antagonistic conversations. They are brilliant communicators: masters at shaping the conversation beneath the conversation. They know how to turn the heat of conflict into the light of creativity, connection, and insight. In this much-need book, Ian Leslie explores what happens to us when we argue, why disagreement makes us stressed, and why we get angry. He explains why we urgently need to transform the way we think about conflict and how having better disagreements can make us more successful. By drawing together the lessons he learns from different experts, he proposes a series of clear principles that we can all use to make our most difficult dialogues more productive—and our increasingly acrimonious world a better place.

*B.E.F.: The Whole Story of the Bonus Army* Charles Sheehan-Miles,2014-01-14 In the summer of 1932, General Douglas MacArthur led regular United States Army troops into the streets of Washington, D.C. to evict more than ten thousand veterans of the Great War from the streets of Washington. This is the story of those veterans, told by one of their number. Walter W. Waters, a World War I Army sergeant, set out from Portland, Oregon with 300 other veterans in 1932 to petition Congress for early payment of the bonus promised to veterans of the World War. With the Great Depression at its height, these men crossed the county on freight trains, then lived in shacks and abandoned buildings in Washington while seeking to improve their circumstances. This is their story, told by one of their own.

**Evangelical and Frontier Mission** Beth Snodderly,A. Scott Moreau,2011 Description: The centennial celebrations of the Edinburgh 1910 conference offered Christians of all stripes multiple opportunities to reflect on the past century of mission. Over the course of the twentieth century one of the stories of the church that has moved towards center stage is the growth of evangelicalism around the world. While certainly until the late 1980s this went largely unnoticed among the academic elite of the world, even so by then the vast majority of the missionaries serving to and from every corner of the globe were framed in some way by this evangelical surge. As we reflect on the past century, then, the stories of the evangelical world church deserve to be heard. Endorsements: This extraordinary compendium documents and illustrates the movement from what Edinburgh 1910 designated as 'unoccupied fields' to what R. Winter strategically designated as 'unreached people groups' thus repioneering frontier missiology focused on 'finishing the task.' Peter Kuzmic This important volume demonstrates that, 100 years after the World Missionary Conference in Edinburgh, Evangelicalism has become truly global. Twenty-first-century Evangelicalism continues to focus on frontier mission, but significantly, and in the spirit of Edinburgh 1910, it also has re-engaged social action. Pentecostalism exhibits a similar direction, and these characteristics (global reach, frontier focus, social engagement) point to a vibrant future for both movements. At the same time, however, the essays in this volume present a cautionary tale of overstating goals and plans as they relate to proclamation and development. Todd Johnson, Associate Professor of Global Christianity, Gordon-Conwell Theological Seminary About the Contributor(s): Beth Snodderly is President of William Carey International University in Pasadena, California, Vice President of the Southwest Region of the Evangelical Missiological Society, and became editor of the World Christian Foundations degree study program following the death of Ralph D. Winter. Scott Moreau is Professor of Intercultural Studies and Missions at Wheaton College. He is Editor of Evangelical Missions quarterly and General Editor of the Encountering Mission Series. He has written or edited more than a dozen books and numerous articles in journals, magazines, dictionaries and Web sites.

*Pandaemonium 1660-1886* Humphrey Jennings,2012-10-04 Collecting texts taken from letters, diaries, literature, scientific journals and reports, Pandaemonium gathers a beguiling narrative as it traces the development of the machine age in Britain. Covering the years between 1660 and 1886, it offers a rich tapestry of human experience, from eyewitness reports of the Luddite Riots and the Peterloo Massacre to more intimate accounts of child labour, Utopian communities, the desecration of the natural world, ground-breaking scientific experiments, and the coming of the railways. Humphrey Jennings, co-founder of the Mass Observation movement of the 1930s and acclaimed documentary film-maker, assembled an enthralling narrative of this key period in Britain's national consciousness. The result is a highly original artistic achievement in its own right. Thanks to the efforts of his daughter, Marie-Louise Jennings, Pandaemonium was originally published in 1985, and in 2012 it was the inspiration behind Danny Boyle's electrifying Opening Ceremony for the London Olympic Games. Frank Cottrell Boyce, who wrote the scenario for the ceremony, contributes a revealing new foreword for this edition.
