Paul Robeson's Voices Grant Olwage, 2023-11-20 Paul Robeson's Voices is a meditation on Robeson's singing, a study of the artist's life in song. Music historian Grant Olwage examines Robeson's voice as it exists in two broad and intersecting domains: as sound object and sounding gesture, specifically how it was fashioned in the contexts of singing practices, in recital, concert, and recorded performance, and as subject of identification. Olwage asks: how does the voice encapsulate modes of subjectivity, of being? Combining deep archival research with musicological theory, this book is a study of voice as central to Robeson's sense of self and his politics. Paul Robeson's Voices charts the dialectal process of Robeson's vocal and self-discovery, documenting some of the ways Robeson's practice revised the traditions of concert singing in the first half of the twentieth century and how his voice manifested as resistance.

Musician's Survival Guide to a Killer Record Mixerman, 2018-10-10 Musician's Record It takes many years to excel at recording (whether at home or in a commercial facility), and if you desire to become a professional recordist then that's what's required. But if you're a musician who wants to garner a reaction to your song, then you don't have time for that. You need to make a Killer Record right now. But how? First, stop thinking like a recordist. If you're a musician, and you record, this book will prove an invaluable resource (I encourage you to read the reviews. People love this book). I explain all the things that I've learned as a high-level professional recordist, mixer, and producer over the course of decades, but as they relate to you as a musician, your songs, and the long view of your recording career. The Goal The stated goal of this book is to convert recording decisions into musical ones, and technical decisions into practical ones. Not only do I explain the musical strategies for making a Killer Record, I also break the technical information down to its core so that you can strategize based on your recording reality. So long as you have what you need to make a record, I

can help you make it a Killer Record. This is the only additional gear you'll require to greatly improve the quality of your records. Who am I? I'm Mixerman, a gold and multi-platinum award winning producer, mixer, and recordist. I was in precisely your position at the early stages of my career. I was a musician, frustrated that I could write a good song, only to feel the record itself fell short of it's potential. Over the course of my decades recording, I noticed that the performance and arrangement had a far greater impact on the sound than anything I did on the engineering side. The more musical my decisions, the better my results. What You Can Expect This Studio Field Manual is chock full of recording, mixing, and producing strategies designed to keep recording a fun and focused process. You will return to this manual time and time again to help you overcome any impediment--technical or musical--that might prevent you from achieving the results you seek, regardless of your recording environment, regardless of what equipment you're using, and regardless of your current skillset. You can make a Killer Record under nearly any circumstance. It just requires the right mindset.

In this book, the third in the Zen and the Art Of series, Mixerman distills the inescapable technical realities of recording down to understandable and practical terms. Whether musician or self-taught recordist, whether at home or in a full-blown studio complex, you'll discover a definitive blueprint for recording within the current realities of the business, without ever losing focus on the core consideration the music itself. As Mixerman writes: The moment you start to think in musical terms, your recordings will improve a hundredfold. This enhanced multimedia e-book edition brings recordists deeper into the concepts covered in the text. It features over an hour's worth of supplemental videos in which Mixerman demonstrates various recording techniques in a number of recording spaces. Ron Saint Germain (300+ million in sales, U2, Whitney Houston, 311) Zen and the Art of Recording describes an approach rather than a recipe. This is an excellent overview of the issues to be considered along with a broad variety of proven techniques for addressing them. Bob Olhsson (Stevie Wonder, Jackson Five, Marvin Gaye) It's the videos here that really drive the narrative. Aardvark (Producer of The Daily Adventures of Mixerman Audiobook and Zen RPM) In the absence of an opportunity to apprentice in a major recording studio, this book is the next best thing. A way to learn from the best. William Wittman (Cyndi Lauper, Joan Osborne, The Fixx)
