Dark Ecology Timothy Morton, 2016-04-12 Timothy Morton argues that ecological awareness in the present Anthropocene era takes the form of a strange loop or Möbius strip, twisted to have only one side. Deckard travels this oedipal path in *Blade Runner* (1982) when he learns that he might be the enemy he has been ordered to pursue. Ecological awareness takes this shape because ecological phenomena have a loop form that is also fundamental to the structure of how things are. The logistics of agricultural society resulted in global warming and hardwired dangerous ideas about life-forms into the human mind. Dark ecology puts us in an uncanny position of radical self-knowledge, illuminating our place in the biosphere and our belonging to a species in a sense that is far less obvious than we like to think. Morton explores the logical foundations of the ecological crisis, which is suffused with the melancholy and negativity of coexistence yet evolving, as we explore its loop form, into something playful, anarchic, and comedic. His work is a skilled fusion of humanities and scientific scholarship, incorporating the theories and findings of philosophy, anthropology, literature, ecology, biology, and physics. Morton hopes to reestablish our ties to nonhuman beings and to help us rediscover the playfulness and joy that can brighten the dark, strange loop we traverse.

Cataract City Craig Davidson, 2014-02-06 Cataract City, a dead-end border town overlooking Niagara Falls. Owen Stuckey and Duncan Diggs are fast friends as kids - united by wrestling, go-karts, and metal bands - but as they grow into young men, their once simple affection competes with the tensions created by their respective circumstances. Owen, born to relative privilege, seems destined to get out of the city, while Duncan, honest but hard, is hurtling along the rails towards a future working the assembly line at the soulless biscuit factory, The Bisk. As Duncan becomes more and more desperate to escape, he finds himself at opposite ends of the law to Owen, and as the coils of the city creep ever tighter around the two friends, they find themselves struggling not to break free, but simply to survive.

Penguins with People Problems Mary Laura Philpott, 2015-06-02 Stress-eating after a breakup? Frustrated by the cost of a good cocktail? Stymied by the weirdness of abstract art? These penguins share your pain. The random penguins are a lineup of quirky, lovable weirdos with minds of their own. They understand the agony of social awkwardness, the power of the perfect smoky eye, and the arm- (or wing)-flapping terror of having a bee in the car. In fact, these winged characters get into the same sticky situations we all do. They are Penguins with People Problems. So meet your favorite new flightless friends. They're brutally honest (except when they're lying), comically insecure, and totally relatable.

The Varieties of Scientific Experience Carl Sagan, 2006-11-02 “Ann

Druyan has unearthed a treasure. It is a treasure of reason, compassion, and scientific awe. It should be the next book you read.” —Sam Harris, author of *The End of Faith* “A stunningly valuable legacy left to all of us by a great human being. I miss him so.” —Kurt Vonnegut

Carl Sagan’s prophetic vision of the tragic resurgence of fundamentalism and the hope-filled potential of the next great development in human spirituality

The late great astronomer and astrophysicist describes his personal search to understand the nature of the sacred in the vastness of the cosmos. Exhibiting a breadth of intellect nothing short of astounding, Sagan presents his views on a wide range of topics, including the likelihood of intelligent life on other planets, creationism and so-called intelligent design, and a new concept of science as informed worship. Originally presented at the centennial celebration of the famous Gifford Lectures in Scotland in 1985 but never published, this book offers a unique encounter with one of the most remarkable minds of the twentieth century.

Culinary Linguistics Cornelia Gerhardt, Maximiliane

Frobenius, Susanne Ley, 2013-07-04 Language and food are universal to humankind. Language accomplishes more than a pure exchange of information, and food caters for more than mere subsistence. Both represent crucial sites for socialization, identity construction, and the everyday fabrication and perception of the world as a meaningful, orderly place. This volume on Culinary Linguistics contains an introduction to the study of food and an extensive overview of the literature focusing on its role in interplay with language. It is the only publication fathoming the field of food and food-related studies from a

linguistic perspective. The research articles assembled here encompass a number of linguistic fields, ranging from historical and ethnographic approaches to literary studies, the teaching of English as a foreign language, psycholinguistics, and the study of computer-mediated communication, making this volume compulsory reading for anyone interested in genres of food discourse and the linguistic connection between food and culture. Finding Medusa: The Making of an Unlikely Rock Star Donna F. Brown, 2019-04-02 Donna F. Brown's *Finding Medusa* takes you on a historical journey through the turbulent sixties in Chicago, the music, the drugs, as well as a personal journey through her darkest and brightest moments. From first co-founding the Chicago based rock group, Medusa, and waiting 40 years for the release of their LP, *First Step Beyond*, Medusa finally secured a place in music history. The second incarnation of Medusa in 1975 produced the new album *Rising From The Ashes*, and led to several tours. At the heart of *Finding Medusa* is a story of resilience and survival. With adept control of the pen, Donna F. Brown shares intimate details of a 40-year journey in a memoir that records important events of the '60s she experienced, including the 1968 Democratic Convention riots in Lincoln Park in Chicago, in which she saw friends and strangers alike, lying beaten and bloody. She takes the reader through her experiences with drugs, the rock scene in Chicago in the 1970s, run-ins with authority, her difficult home life, a nursing career, her training as a mime with Marcel Marceau, and ultimately a return to Medusa and the music where it all started. *Finding Medusa* may make you laugh or make you cry, but you will most likely find, in Donna's story, deep connections to your own.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatised in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal

life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Heavenly Bridegrooms (Jabberwoke Pocket Occult) Ida

Craddock, 2021-09 Heavenly Bridegrooms, reprinted in the medical journal *Alienist and Neurologist*, has been left entirely unedited by Mr. Theodore Schroeder, with the exception of a brief explanatory note. I must say that it is one of the most human documents ever produced, and it should certainly find a regular publisher in book form. The authoress of the MS. claims that she was the wife of an Angel. She expounds at the greatest length the philosophy connected with this thesis. Her learning is enormous. She finds traces of similar beliefs in every country in the world, and (having a similar experience of her own) she can hardly be blamed for arguing that one thing confirms the other. Mr. Schroeder is quite logical in calling her paper 'An Unintentional Contribution to the Erotogenetic Interpretation of Religion,' but commits the errors of *petitio principii* and *non distributio medii* with the most exquisite nonchalance. Only a lawyer could be so shameless. He begs the question with regard to this particular case, assuming that her relation with the angel was pure hallucination, of which he has no evidence whatsoever. He argues that, since one person both loves and is religious, religion is nothing but a morbid manifestation of the sexual instinct. One does not have even to disagree with him to see how worthless is his reasoning. As a matter of fact, I do half agree with him in my calmer moments in a general way, but the conclusion can be carried a step further. When you have proved that God is merely a name for the sex instinct, it appears to me not far to the perception that the sex instinct is God. This particular MS. is sane in every line. The fact that the woman

committed suicide twelve or fifteen years afterwards is no more against the sanity of the MS. than the suicide of Socrates proves that the Republic is merely the lucubration of a lunatic. I am very far from agreeing with all that this most talented woman sets forth in her paper, but she certainly obtained initiated knowledge of extraordinary depth. She seems to have had access to certain most concealed sanctuaries. I should personally be inclined to attribute her suicide rather to the vengeance of the guardians of those palaces than to any more obvious cause. She has put down statements in plain English which are positively staggering. This book is of incalculable value to every student of occult matters. No Magick library is complete without it. -Aleister Crowley
