Why We Root (Vol. 1): Mad Obsessions of a Chicago Sports Fan Jack M. Silverstein, 2024-02-02 Why We Root: Mad Obsessions of a Chicago Sports Fan is a collection of Jack M Silverstein's sportswriting, including pieces from 1999 to 2023 that reveal the sports-fan mindset and show readers why we root for our teams. This collection of eighty-one articles is organized based on a fan's emotional journey—from learning the game, to knowing the game, to emotional heartbreak, and eventually to celebrating championships. Included in the book are Silverstein's real-time articles on many of the best known Chicago sports events of the early 21st century, including: the White Sox, Blackhawks, and Cubs breaking winning their first championships after massive droughts; the Bears reaching, and losing, the Super Bowl; the rise and fall of saviors-to-be Derrick Rose and Jay Cutler; the Chicago Sky winning the 2021 WNBA championship; the Blackhawks' famed 17 seconds championship; the Bears' agonizing double doink; and the Cubs' horrific Bartman game, retold from

multiple perspectives in multiple years, including ten years later by pitcher Mark Prior and catcher Paul Bako. Also included are Silverstein's look back at the Bulls-Pistons rivalry of the 1990s, the 1995 Northwestern Wildcats Rose Bowl team, and Michael Jordan's flu game.

Rethinking Rachel Doležal and Transracial Theory Molly Littlewood McKibbin, 2021-11-23 Using real-life examples, this book asks readers to reflect on how we—as an academic community—think and talk about race and racial identity in twenty-first-century America. One of these examples, Rachel Doležal, provides a springboard for an examination of the state of our

discourse around changeable racial identity and the potential for “transracialism.” An analysis of how we are theorizing transracial identity (as opposed to an argument for/against it), this study detects some omissions and problems that are becoming evident as we establish transracial theory and suggests ways to further develop our thinking and avoid missteps. Intended for academics and thinkers familiar with conversations about identity and/or race, Rethinking Rachel Doležal and Transracial Theory helps shape the theorization of “transracialism” in its formative stages.

Service Innovation Anders Gustafsson, Per Kristensson, Gary R. Schirr, Lars Witell, 2016-04-15 All the world's most advanced economies are dominated by service. The service sector also employs the largest number of people and it is the fastest growing sector, both in number of companies and employees. The questions posed in the book are: (1) How is it growing; (2) what are these new service innovations; (3) what are the drivers; and (4) how can organizations work with service innovations in a structured way? The book views service as the value-creating activity that customers perform in their own context. The role of a company is to provide the resources and knowledge to enable value creation. Based on this view, we develop a model of service innovation and develop guidelines for what is required from the organizational perspective; how should an organization view its customers in order to be successful, what does a service development process look like, and how to transform an organization that has a product focus to a service or solution provider.

Barrel-Aged Stout and Selling Out Josh Noel, 2018-06-01 Goose Island opened as a family-owned Chicago brewpub in the late 1980s, and it soon became one of the most inventive breweries in the world. In the golden age of light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. With distribution in two dozen states, two brewpubs and status as one of the 20 biggest breweries in the United States, Goose Island became an American success story and was a

champion of craft beer. Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned. Josh Noel broke the news of the sale in the Chicago Tribune, and he covered the resulting backlash from Chicagoans and beer fanatics across the country as the discussion escalated into an intellectual craft beer war. Anheuser-Busch has since bought nine other craft breweries, and from among the outcry rises a question that Noel addresses through personal anecdotes from industry leaders: how should a brewery grow?

HBO's Original Voices Victoria McCollum, Giuliana Monteverde, 2018-05-01 This book constitutes the first major exploration of HBO's current programming, examined in the context of the transformation of American television and global society. With studies of well-known shows such as Game of Thrones, Girls, Insecure, Looking, Silicon Valley, The Comeback, The Leftovers, True Detective and Veep and Vinyl, the authors examine the trends in current programming, including the rise of queer characters, era-defining comedy, reinvented fantasy series, and the content's new awareness of gender, sexuality and family dysfunction. Interdisciplinary and international in scope, HBO's New and Original Voices explores the sociocultural and political role and impact that HBO's current programmes have held and the ways in which it has translated and reinterpreted social discourses into its own televisual language. A significant intervention in television studies, media studies and cultural studies, this book illuminates the emergence of a new era of culturally relevant television that fans, students, and researchers will find lively, accessible and fascinating.

Torn Apart Judy Rickard, 2011-04-01 The horrors that thousands of lesbian and gay couples face are detailed in this moving political and personal story of immigration and love. As Judy and Karin's legal battles reveal, when only one half of a gay couple is an American citizen, immigration struggles are confounded by the fact that the partners cannot legally marry in most parts of the United States. With resources that outline which organizations can help and what the challenges and the realities of this situation are, this reference reaches out to couples, their friends and family, and anyone interested in assisting by offering advice and camaraderie on this subset of the gay marriage issue. Royalties from the book, which is published in association with Immigration Equality and Out4Immigration, go to groups working to overcome immigration denial for gay couples.

Keto Clarity Jimmy Moore, Eric Westman, 2014-08-05 Have you looked at a low-carb diet simply as a means to lose weight? What if you learned that combining a low-carb nutritional approach with a high fat intake produces a powerful therapeutic effect on a wide variety of health conditions that most people think requires medication to control? That's what *Keto Clarity* is all about. Jimmy Moore, the world's leading low-carb diet blogger and podcaster, has reunited with his Cholesterol Clarity coauthor Dr. Eric C. Westman, a practicing internist and low-carb diet researcher, to bring you the crystal-clear information you need to understand what a ketogenic diet is all about and why it may be the missing element in your pursuit of optimal health. This book includes exclusive interviews from twenty of the world's foremost authorities from various fields bringing their depth of expertise and experience using this nutritional approach. Moore and Westman clearly explain why ketosis is normal, how this nutritional approach is being used therapeutically by many medical professionals, a step-by-step guide to help you produce more ketones and track your progress, real-life success stories of people using a ketogenic diet, and more. The solid evidence for nutritional ketosis in dealing with many of the chronic health problems of our day is presented, including coverage of epilepsy, Type 2 diabetes,

The good evidence for ketogenic diets is also shared in dealing with Alzheimer's Disease (AD), Parkinson's Disease, dementia, mental illness, schizophrenia, bipolar, depression, narcolepsy, and sleep disorders. Plus, you'll get the details on the emerging science that is showing great promise in treating cancer, autism, migraines, chronic pain, brain injury, stroke, kidney disease, and so much more. Keto Clarity is your definitive guide to the benefits of a low-carb, high-fat diet.
