Joaquin Jay Gonzalez III,Roger L. Kemp

Cincinnati Police History Christine Mersch,2007 The Village of Cincinnati appointed its first marshal, James Smith, in 1802. Today the Cincinnati Police Department boasts a dedicated staff of more than 1,000 sworn officers. Throughout its 200-plus years, the department has celebrated many firsts, such as being the first police agency to use telephones, and has also persevered through some difficult times, the most recent being the 2001 race riots. The Cincinnati police have won such awards as the Best Community Police Program by National League of Cities, the Governor's Community Policing Award of Excellence, and more than 35 local, state, national, and international awards. Programs like the Cadet/Intern Program, the Civilian Volunteer Program, the Juvenile Aid Bureau, the Youth Services Section, and the Citizens Police Academy are ways the police have reached out to the community to educate and protect over the years.

The Municipal Budget Crunch Roger L. Kemp,2014-01-10 This book is based on a national literature search focusing on the best practices of cities, of all sizes and geographic locations, intended to maintain public services while holding down taxes. Many public officials have great ideas, but tend to work in a vacuum, so they don't know what other cities are doing. This volume codifies knowledge in this new field for the first time. Every case study included in this book has the city's website listed. This reference work makes it easy for professionals seeking additional information on any and all budget reduction methods that seem to work somewhere.

Police Leaders as Thinkers Arvind Verma,Dilip K. Das,2023-02-21 This book identifies police leaders who have stood out and chalked a path that has transformed their organizations. It describes these thinkers, who look deep into the challenges of policing and comment critically upon various responses and actions. Featuring profiles of police leaders from various countries, this book features officers with an aptitude for learning, presenting the situations they have confronted and the methods they have adopted to change systems and usher reforms. It identifies the characteristics of thinking police officers, and suggests the ways in which the serious policing challenges of modern times can be addressed by creative and outside the box thinking by leadership. Appropriate for students of criminal justice and policing, for researchers studying law enforcement and for practitioners discussing policing reform, this book will initiate a new debate about the nature and possibilities of building new police for the 21st century.

Privatization in Practice Joaquin Jay Gonzalez III,Roger L. Kemp,2016-07-12 Cost efficiency was the initial goal of privatization--achieved in many cases but not consistently. Public services provided by the private sector were cheap in the beginning but became increasingly expensive, especially to low-income citizens. The lessons learned from early successes and failures gave birth to a new goal--effectiveness of services, as measured by accountable results. Government officials are not looking just for proven budget savings; they must also be concerned with the quality of public services and ultimately the happiness of citizens and communities. In its updated second edition, this collection of essays explores the good and the bad sides of privatization. Instructors considering this book for use in a course may request an examination copy here.

Community Policing Victor E. Kappeler,Larry K. Gaines,2010-06-07 This text explores community policing -- a philosophy and an organizational strategy that expands the traditional police mandate. It broadens the focus of fighting crime to include solving community problems, urging police to form a partnership with the people in the community so average citizens can contribute to the police process in exchange for their support and participation. Now includes a chapter on Community Crime Prevention. Profiles feature community policing programs in various cities, and problem-solving case studies cover special topics. Includes: The Ten Principles of Community Policing. Includes ten principles of community policing, profiles in community policing, and problem-solving case studies.

Hope Matters John A. Calhoun,2007 Mary Gonzales strolls the streets of Chicago's meatpacking district every evening, keeping a watchful eye over her neighborhood kids. Tony Ortiz encourages young men in California state prisons to break free of the brutal gang life he once knew all too well. Joe Hynes, Brooklyn's district attorney, champions women and children, not wanting them to suffer as he suffered. They, and the twenty-one other amazing people interviewed by Jack Calhoun, are reshaping lives and communities across America. They include Christians of every denomination, Muslims, Jews, and others, some who pray five times a day and some who are, frankly, not that religious. But each tells Calhoun, there's much more to the story. You may have heard of some of these Americans. Several are in the news. The good words of all shine brightly in their communities. What you haven't heard about is the underlying force, the hidden source of their seemingly endless energy and selflessness. It is faith -- a deep and, in some cases, unsuspected spirituality. They have the unshakable sense that they work not only for their organizations -- and each individual they encounter -- but especially for God. Calhoun was once an eager divinity school student, hungry to make a difference. Through the years he rose to national prominence in the field of public policy, spending twenty-plus years as the founding president of the National Crime Prevention Council. However, something wasn't right. Caught up in a parade of committee meetings, speaking engagements, and policy and program initiatives, he had lost touch with the bedrock of his vocation. It took an encounter with an unusually clear-sighted volunteer to reconnect his daily work to his faith in God. Reinvigorated, Calhoun embarked on a two-year cross-country quest to find out how faith motivates some of America's hardest-working public servants. They pursue a range of innovative and ambitious plans to help their communities, and their accomplishments are impressive. But just try telling them so. They have been chosen, they'll explain, to fulfill a larger purpose. Their paths have been rocky, their burdens heavy, and the work hasn't always been fun. Yet they feel blessed, emboldened by their trust in a higher power to live lives of acceptance and unbounded love. Some recent books have laid divisiveness and hostility at faith's door. Hope Matters brings to light the togetherness and reconciliation that faith truly engender when good people heed its call to action. You won't hear Mary, Tony, Joe or the rest preaching from the pulpit, or even in the streets. They have no sermon or script to follow. There is a ministry of open arms and second chances, of waking up each morning with new challenges and going to bed each night with renewed faith. Their stories just might inspire you to make your own place of worship a little bigger.
