*10% Happier* Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. *10% Happier* takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Waking Up Sam Harris, 2014-09-09 For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

Getting into the Vortex Esther Hicks,Jerry Hicks,2020-07-21 Living a better-feeling life really comes down to one thing only: coming into alignment with the Energy of our Source. Abraham reminds us that we are truly Source Energy focused into our physical bodies, and that a conscious Connection to that Broader Non-Physical part of us is necessary if we are to be the joyful Beings that we were born to be. Abraham calls that wonderful alignment Getting into the Vortex. Through a series of Leading Edge books (New York Times bestsellers), Abraham has emphasized the importance of our conscious alignment with the Source within us. They have let us know that our natural state of Being is inside our Vortex of Creation in complete alignment with Source Energy—and that every aspect of our physical experience reflects our alignment with, or resistance to, that Connection. Everything—from the physical well-being of our bodies, the clarity of our minds, and the abundance we allow to flow, to the satisfaction in every relationship we experience—is impacted by our all-important relationship with our Vortex. Abraham has helped us to understand that our dominant intent in every day is to get into the Vortex! And now, they have lovingly and specifically guided Jerry and Esther Hicks in the creation of an innovative and valuable tool that promises to get us into the Vortex right now . . . and that tool is enclosed in the Getting into the Vortex User Guide in the form of a 70-minute audio download. This unique recording contains four powerfully guided daily meditations that have been designed to get you into the Vortex of Creation in four basic areas of your life: • General Well-Being • Financial Well-Being • Physical Well-Being • Relationships. Jerry and Esther are thrilled to offer this powerful, first-of-its kind, musically scored, breath-enhancing, user-friendly tool from Abraham that will get you into the Vortex.

**The Tapping Solution** Nick Ortner, 2013-04-02 Nick Ortner, founder of the Tapping World Summit and best-selling filmmaker of *The Tapping Solution*, is at the forefront of a new healing movement. In his upcoming book, *The Tapping Solution*, he gives readers everything they need to successfully start using the powerful practice of tapping – or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In *The Tapping Solution*, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want.

*Mindfulness in Your Everyday Life* Adrian Tanase, 2020-08-21 The simple practice of mindfulness, which can be explained in a few words as directing our awareness in the present moment, can help us maintain a clear mind and sharp attention, and it is discussed, explained, and analyzed from many different perspectives, uncovering most of the facets of conscious living, in our today's society. This book is all about mindful living, where two different practices are recurrently present, as a means to sustain our conscious approach: mindfulness and meditation. I am presenting simple techniques that will sustain a conscious approach to life, where your perception will always be clear and rooted in the present moment, and your life will always have a stress-free, relaxed, and aware point of view. Even if you already know about mindfulness or that you are looking to find a resource to explain it more in-depth to you, this book manages to touch most of the aspects that are related to our mind, and to our relation to this world, to the direct experience that we can have when we discard or transcend our Ego, and mostly, to our personal relationship with the dynamic and ever-changing present moment. I hope that everyone that reads my book will get to witness, in time, their pristine, clear, and natural state of mind, getting to gradually see the gaps of thought, through the practice of mindfulness and meditation, and finally, witnessing the unwavering mind of no-thought, which will illuminate and radically change their perception on life. Namaste

**Dropping Ashes on the Buddha** Stephen Mitchell, 2007-12-01 The classic guide for Zen students pursuing the true way. "Somebody comes into the Zen center with a lighted cigarette, walks up to the Buddha-statue, blows smoke in its face and drops ashes on its lap. You are standing there. What can you do?" This is a problem that Zen Master Seung Sahn was fond of posing to his American students who attended his Zen centers. *Dropping Ashes on the Buddha* is a delightful, irreverent, and often hilariously funny living record of the dialogue between Korean Zen Master Seung Sahn and his American students. Consisting of dialogues, stories, formal Zen interviews, Dharma speeches, and letters using the Zen Master's actual words in spontaneous, living interaction, this book is a fresh presentation of the Zen teaching method of "instant dialogue" between Master and student which, through the use of astonishment and paradox, leads to an understanding of ultimate reality.

Harris found that meditation made him more focused and less yanked around by his emotions. According to his wife, it also made him less annoying. Science suggests that the practice can lower your blood pressure, mitigate depression and anxiety, and literally rewire key parts of the brain. So what's holding you back? In *Meditation for Fidgety Skeptics*, Harris and Jeff Warren, a masterful teacher and "Meditation MacGyver," embark on a gonzo cross-country quest to tackle the myths, misconceptions, and self-deceptions that keep people from meditating.
