The Training of Cavalry Remount Horses (Classic Reprint) Lewis Edward Nolan, 2017-11-27 Excerpt from The Training of Cavalry Remount Horses Most certainly not with either. Our men are superior to those of other nations, and there is no quality in which the well-bred English horse does not excel, no performance in which he cannot beat all competition. No, it is the system which is at fault. To ascertain and expose the faults of an existing state of things is easier than to substitute a different one, which shall not be liable to greater objections; a trial of the system which I advocate, will, at least, prove interesting, and I hope establish beyond a doubt the great advantages to be derived from it. The Training of Cavalry Remount Horses; a New System Lewis Edward Nolan, 2013-09 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1852 edition. Excerpt: ...their horses well up to the bit, and putting them together with the use of hand and leg; to see that in all turns, circles, &c, &c, the men bend their horses' heads and necks in the new direction before leaving the boards. Endeavour to make them perfect in their bending and trotting lessons; practise the going about on the haunches by frequently halting the rides when at the boards, and giving the word, On the Haunches About March. You then form up and finish with the same bending lessons you began with, namely, Circling on the forehand, on the Haunches, Reining in, and Applying the Spur. The Horse's Paces. WALK, TROT, AND CANTER. How to Strike off a Horse to both Hands at a Canter--How to change when False or Disunited. The Walk. Monsieur Baucher does not begin the trot till he has perfected the horse at the walk, but I found it answered better in practice to go on with the trotting at the same time; however get a thing well done at a walk before you try it at a trot. Before moving forward, the horse should be light in hand, the head brought home (and not with the nose stuck out), the neck arched, and he should stand evenly on both hind legs. Close the legs and communicate a sufficient impulse to carry him forward, but do not ease the hand at the same time, as laid down in the old system, because if you do, the head and neck may relapse into a position which will defy the control of the hand. The rider should always have a light feeling of both reins, and when

the horse bores on the bit, keep the hand steady, use both legs, which, by bringing his haunches under him, will oblige the horse to take his weight off your hand. THE TROT. A horse trots...

Loyal to the Land Billy Bergin, 2006-08-31 This heartfelt and often personal work continues the story of the Big Island's Parker Ranch, one of the largest and most beautiful cattle ranches in the United States. It begins with the dynastic transition in ranch management from the

formidable A. W. Carter to his son, Hartwell, who would be responsible for bringing the ranch effectively into the twentieth century. Although supervision of the ranch officially changed hands in 1937, A. W.'s wide-ranging influence continued to be felt for at least another decade. Later Hartwell Carter would also have to contend with the whims of ranch owner Richard Smart, who returned to the Islands in 1959, eager to take direct control of his estate. Under Carter's stewardship, Parker Ranch raised its cow herd size by fifty percent and, through its subsidiary, Hawaii Meat Company, converted its beef marketing from a range-finished animal to a feedlot-confined, corn-fed, marbled carcass acceptable to the modern housewife. Hartwell Carter was followed by his assistant, Richard (Dick) Penhallow, as ranch manager in 1960. Penhallow's tenure is given a detailed overview that illuminates his ambitious goals for improvements in water, land, livestock, personnel development, and the economics of the beef industry. Although Penhallow's grand scheme for reorganizing an inefficient and divided industry into a single cooperative using state-of-the-art facilities ultimately failed, the subsequent history of beef marketing in the Islands bears out the soundness and wisdom of his ideas. In 1962 Smart selected Radcliffe (Rally) Greenwell as Penhallow's successor. The new ranch manager arrived with strong, traditional values of stewardship handed down from generations of Kona ranchers. Greenwell's initiatives were clear: to further enhance water development and increase the cow herd by thirty percent. He also instituted research to determine the cause of a scourge among young cattle called yellow calf syndrome. As the nine-year management of Greenwell unfolds, the book offers a close look at the leadership team of the era, which included Harry Kawai, John Kawamoto, Willie Kaniho, Yutaka Kimura, John

Lekelesa, and Harry Ah Fong Ah Sam. The author, who became ranch veterinarian in 1970, also provides personal insights in the later sections of the book into the use of the element copper to greatly enhance the growth and health of cattle and the birth and expansion of the ranch's Animal Health Program. The work concludes with the introduction of the mainland management team of Rubel and Lent, whose attempt to return to a pyramidal management structure took Parker Ranch by storm.
