Meditations on First Philosophy René Descartes, 2002

Discourse on the Method René Descartes, 1996-01-01

Descartes' ideas not only changed the course of Western philosophy but also led to or transformed the fields of metaphysics, epistemology, physics and mathematics, political theory and ethics, psychoanalysis, and literature and the arts. This book reprints Descartes' major works, *Discourse on Method* and *Meditations*, and presents essays by leading scholars that explore his contributions in each of those fields and place his ideas in the context of his time and our own. There are chapters by David Weissman on metaphysics and psychoanalysis, John Post on epistemology, Lou Massa on physics and mathematics, William T. Bluhm on politics and ethics, and Thomas Pavel on literature and art. These essays are accompanied by others by David Weissman and by Stephen Toulmin that introduce the idea of intellectual lineages, discuss the period in which Descartes wrote, and reexamine the premises of his philosophy in light of contemporary philosophical, political, and social thinking.

Descartes: Meditations on First Philosophy René

Descartes, 2017-02-16 This is an updated edition of John Cottingham's acclaimed translation of Descartes's philosophical masterpiece, including an abridgement of Descartes's *Objections and Replies*.

Meditations on First Philosophy René

Descartes, 1993-10-01 Descartes's *Meditations on First Philosophy*, the fundamental and originating work of the modern era in Western philosophy, is presented here in Donald Cress's completely revised edition of his well-established translation, bringing this version even closer to Descartes's original, while maintaining its clear and accessible style.

Descartes: Meditations on First Philosophy René

Descartes, 1996-04-18 The Meditations, one of the key texts of Western philosophy, is the most widely studied of all Descartes' writings. This authoritative translation by John Cottingham, taken from the much acclaimed three-volume Cambridge edition of the Philosophical Writings of Descartes, is based upon the best available texts and presents Descartes' central metaphysical writings in clear, readable modern English. As well as the complete text of the Meditations, the reader will find a thematic abridgement of the Objections and Replies (which were originally published with the Meditations) containing Descartes' replies to his critics. These extracts, specially selected for the present volume, indicate the main philosophical difficulties which occurred to Descartes' contemporaries and show how Descartes developed and clarified his arguments in response. This edition contains a new comprehensive introduction to Descartes' philosophy by John Cottingham and the classic introductory essay on the Meditations by Bernard Williams.

Meditations on First Philosophy Rene Descartes, John Veitch, 2014-08-23 Meditations on First Philosophy In which the Existence of God and the Immortality of the Soul are Demonstrated Rene Descartes Meditations on First Philosophy is a philosophical treatise by Rene Descartes first published in 1641. The book is made up of six meditations, in which Descartes first discards all belief in things which are not absolutely certain, and then tries to establish what can be known for sure. The meditations were written as if he was meditating for 6 days: each meditation refers to the last one as yesterday. (In fact, Descartes began work on the Meditations in 1639.) The Meditations consist of the presentation of Descartes' metaphysical system in its most detailed level and in the

expanding of Descartes' philosophical system, which he first introduced in the fourth part of his Discourse on Method (1637). Descartes' metaphysical thought is also found in the Principles of Philosophy (1644), which the author intended to be a philosophy guidebook. The motive which induces me to present to you this Treatise is so excellent, and, when you become acquainted with its design, I am convinced that you will also have so excellent a motive for taking it under your protection, that I feel that I cannot do better, in order to render it in some sort acceptable to you, than in a few words to state what I have set myself to do. I have always considered that the two questions respecting God and the Soul were the chief of those that ought to be demonstrated by philosophical rather than theological argument. For although it is quite enough for us faithful ones to accept by means of faith the fact that the human soul does not perish with the body, and that God exists, it certainly does not seem possible ever to persuade infidels of any religion, indeed, we may almost say, of any moral virtue, unless, to begin with, we prove these two facts by means of the natural reason. And inasmuch as often in this life greater rewards are offered for vice than for virtue, few people would prefer the right to the useful, were they restrained neither by the fear of God nor the expectation of another life; and although it is absolutely true that we must believe that there is a God, because we are so taught in the Holy Scriptures, and, on the other hand, that we must believe the Holy Scriptures because they come from God (the reason of this is, that, faith being a gift of God, He who gives the grace to cause us to believe other things can likewise give it to cause us to believe that He exists), we nevertheless could not place this argument before infidels, who might accuse us of reasoning in a circle. And, in truth, I have noticed that you,

along with all the theologians, did not only affirm that the existence of God may be proved by the natural reason, but also that it may be inferred from the Holy Scriptures, that knowledge about Him is much clearer than that which we have of many created things, and, as a matter of fact, is so easy to acquire, that those who have it not are culpable in their ignorance. This indeed appears from the Wisdom of Solomon, chapter xiii, where it is said Howbeit they are not to be excused; for if their understanding was so great that they could discern the world and the creatures, why did they not rather find out the Lord thereof? and in Romans, chapter i., it is said that they are without excuse; and again in the same place, by these words that which may be known of God is manifest in them, it seems as through we were shown that all that which can be known of God may be made manifest by means which are not derived from anywhere but from ourselves, and from the simple consideration of the nature of our minds. Hence I thought it not beside my purpose to inquire how this is so, and how God may be more easily and certainly known than the things of the world.

Meditations on First Philosophy René

Descartes, 2008-05-08 'It is some years now since I realized how many false opinions I had accepted as true from childhood onwards...I saw that at some stage in my life the whole structure would have to be utterly demolished' In Descartes's Meditations, one of the key texts of Western philosophy, the thinker rejects all his former beliefs in the quest for new certainties. Discovering his own existence as a thinking entity in the very exercise of doubt, he goes on to prove the existence of God, who guarantees his clear and distinct ideas as a means of access to the truth. He develops new conceptions of body and mind, capable of serving as foundations for the new science of nature.

Subsequent philosophy has grappled with Descartes's legacy, questioning many of its conclusions and even his basic approach, but his arguments set the agenda for many of the greatest philosophical thinkers, and their fascination endures. This new translation includes the Third and Fourth Objections and Replies in full, and a selection from the rest of these exchanges with Descartes's contemporaries that helped to expound his philosophy. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Meditations and Other Metaphysical Writings

René Descartes, 2003-08-28 Of all the works of the man claimed by many as the father of modern philosophy, the *MEDITATIONS*, first published in 1641, must surely be René Descartes' masterpiece. This volume consists of not only a new translation of the original Latin text and the expanded objections and replies, but also includes selected correspondence and other metaphysical writings from the period 1641-49.

Between Two Worlds John Carriero, 2009 *Between Two Worlds* is an authoritative commentary on--and powerful reinterpretation of--the founding work of modern philosophy, Descartes's *Meditations*. Philosophers have tended to read Descartes's seminal work in an occasional way, examining its treatment of individual topics while ignoring other parts of the text. In contrast, John Carriero provides a sustained, systematic reading of the whole text, giving a detailed account of the positions against which

Descartes was reacting, and revealing anew the unity, meaning, and originality of the *Meditations*. Carriero finds in the *Meditations* a nearly continuous argument against Thomistic Aristotelian ways of thinking about cognition, and shows more clearly than ever before how Descartes bridged the old world of scholasticism and the new one of mechanistic naturalism. Rather than casting Descartes's project primarily in terms of skepticism, knowledge, and certainty, Carriero focuses on fundamental disagreements between Descartes and the scholastics over the nature of understanding, the relation between the senses and the intellect, the nature of the human being, and how and to what extent God is cognized by human beings. Against this background, Carriero shows, Descartes developed his own conceptions of mind, body, and the relation between them, creating a coherent, philosophically rich project in the *Meditations* and setting the agenda for a century of rationalist metaphysics.

Meditations Rene Descartes, 2008-12-01 Discourse on the method and the meditations was originally published in 1924--T.P. verso.

Meditations, Objections, and Replies René Descartes, 2006-03-30 This edition features reliable, accessible translations; useful editorial materials; and a straightforward presentation of the *Objections and Replies*, including the objections from Caterus, Arnauld, and Hobbes, accompanied by Descartes' replies, in their entirety. The letter serving as a reply to Gassendi--in which several of Descartes' associates present Gassendi's best arguments and Descartes' replies--conveys the highlights and important issues of their notoriously extended exchange. Roger Ariew's illuminating Introduction discusses the *Meditations* and the intellectual environment surrounding its reception.

A Guided Tour of René Descartes' Meditations on First Philosophy Christopher Biffle,1996 This guided tour by Rene Descartes' Meditations is specifically designed for the philosophical novice. It actively engages students with Descartes' work through a variety of tasks that help them develop their critical thinking, reading, and writing skills.

An Analysis of Rene Descartes's Meditations on First Philosophy Andreas Vrahimis,2017-07-05 René Descartes's 1641 *Meditations on First Philosophy* is a cornerstone of the history of western thought. One of the most important philosophical texts ever written, it is also a masterclass in the art of critical thinking – specifically when it comes to reasoning and interpretation. Descartes sought to do nothing less than create a new foundation for the pursuit of knowledge – whether philosophical, scientific, or theological. To that end, he laid out a systematic programme that reinterpreted prior definitions of knowledge, and reasoned out a systematic means of obtaining, verifying, and building on existing human knowledge. To this end, Descartes created a definition of true knowledge as that which is based on things which cannot be called into doubt by radical scepticism. If, he suggests, we can find a belief that cannot be called into doubt, this will provide a solid foundation upon which we can build systematic reasoning. This ‘cartesian’ method, as it has come to be known, is a blueprint for reasoning that continues to shape the study of philosophy today: a careful

weighing of possibilities, searching out solid ground and building on it step by step.

Rene Descartes' Meditations on First Philosophy in Focus Stanley Tweyman, 2013-04-15 This volume presents the excellent and popular translation by Haldane and Ross of Descartes' Meditations on First Philosophy, an introduction by Stanley Tweyman which explores the relevance of Descartes' Regulae and his method of analysis in the Meditations, and six articles which indicate the diversity of scholarly opinion on the topic of method in Descartes' philosophy.

Descartes' Meditations, Bro Tommy Maranges, 2015-10-01

Meditations on First Philosophy Rene Descartes, 2019-01-31 I again undertake to treat of God and the human soul, and at the same time to discuss the principles of the entire First Philosophy, without, however, expecting any commendation from the crowd for my endeavors, or a wide circle of readers. On the contrary, I would advise none to read this work, unless such as are able and willing to meditate with me in earnest, to detach their minds from commerce with the senses, and likewise to deliver themselves from all prejudice; and individuals of this character are, I well know, remarkably rare. But with regard to those who, without caring to comprehend the order and connection of the reasonings, shall study only detached clauses for the purpose of small but noisy criticism, as is the custom with many, I may say that such persons will not profit greatly by the reading of this treatise; and although perhaps they may find opportunity for cavilling in several places, they will yet hardly start any pressing objections, or such as shall be deserving of reply. But since, indeed, I do not promise to satisfy others on all these subjects at first sight, nor arrogate so much to

myself as to believe that I have been able to foresee all that may be the source of difficulty to each one I shall expound, first of all, in the Meditations, those considerations by which I feel persuaded that I have arrived at a certain and evident knowledge of truth, in order that I may ascertain whether the reasonings which have prevailed with myself will also be effectual in convincing others. I will then reply to the objections of some men, illustrious for their genius and learning, to whom these Meditations were sent for criticism before they were committed to the press; for these objections are so numerous and varied that I venture to anticipate that nothing, at least nothing of any moment, will readily occur to any mind which has not been touched upon in them. - Taken from Meditations On First Philosophy written by Rene Descartes.

Meditations on First Philosophy René

Descartes, 1979 Many other matters respecting the attributes of God and my own nature or mind remain for consideration; but I shall possibly on another occasion resume the investigation of these. Now (after first noting what must be done or avoided, in order to arrive at a knowledge of the truth) my principal task is to endeavour to emerge from the state of doubt into which I have these last days fallen, and to see whether nothing certain can be known regarding material things.
