*Replay* Steven Sandor,2013-03-01 Growing up above his parents' Chinese family restaurant in Sexsmith, Alberta, Warren Chen has always dreamed of being a football star. At 90 pounds and five feet tall, he's not exactly built like a linebacker, but even short kids from tiny towns have big dreams. At first the coach is reluctant to even let him try out, but soon he sees Warren's strengths -- he is small, slippery, and no one can catch him. Warren is named the team's new running back. In their first game of the season, the Sexsmith Shamrocks face their biggest rivals, Grande Prairie. In a breathtaking dash along the sideline, Warren reaches the end zone to score the game-winning touchdown -- almost. But Warren celebrates anyway, and the referee buys it. Sexsmith's losing streak is broken, and Warren has proven himself worthy to be on the team, a genuine football star! But he knows it's not quite the truth, and sooner or later, someone will find out. Warren has to decide whether to come clean and cost his school the victory, or continue living the smalltown football dream. [Fry reading level - 3.5]

*It's Not All Black and White* Mike Liner,2009-08-20 From junior high football games to the Sugar Bowl with a national championship up for grabs, Mike Liner has seen it all in football. President and CEO of a bank by day, Liner has been a Texas football official on Fridays and Saturdays for the past 35 years. It's Not All Black and White offers a view of college football seen through a different set of eyes, the eyes of an official. Liner takes readers through the story of his ascension up the officiating hierarchy and describes the bumps in the road he encountered along the way. In doing do, he puts a human face on an aspect of football that all too often is dehumanized -- the officiating of the game. With a foreword by SEC Coordinator of Football Officials Rogers Reding and an afterword by Tim Millis, Executive Director, NFL Referees Association, It's Not All Black and White lifts the curtain on big-time college football, revealing what Liner saw as he observed it and why the game means so much to him. Liner also recounts important lessons he learned through football about life as a business leader, as a family man and as someone whose faith has grown through the years.

**A Tough Job Made Harder** Richard Lister,2021-05-11 With pressure to perform free from error in America's most popular sport—an impossibility—the work done by football officials has become more difficult than ever. A Tough Job Made Harder explores how this has happened and looks at the challenges that lie ahead for the game and its officials. Cultural imperatives grounded in team allegiance have increased the stresses on football's judges to invariably “get it right.” Officials offer a path of low resistance for those channeling ire over a game's untoward outcome. Fans', coaches', and players' investment in their teams' success often leads to anger toward the officials, adding strain to those overseeing and judging the games. Even physical assault on officials is not unheard of in today's football. The increased demand for perfection has invited technology into officiating. Paradoxically, the tools designed to cure mistakes have led to unintended consequences that have made the job even more daunting. Fans expect officials' eyesight to match the slow-motion, high-definition images television affords. And with increasing stress on player safety, the burden to make the game safer has been added to those already borne by the profession. Underappreciated for their skill and dedication, the dynamics impacting the work and perceptions of it are leading to high attrition. This trend is troubling for the game's future. In A Tough Job Made Harder, Richard Lister, having consulted such preeminent officiating voices as Mike Pereira, Jerry Markbreit, Bill Carollo, Dean Blandino, and Terry McAulay, looks at the demands on football officials as well as what makes the work so rewarding to those who embark on it. Despite the proclivity for fans to criticize and lay blame on officiating, those who undertake it do so with immense pride and professionalism. In addition to A Tough Job Made Harder, Lister has written The Third Team, NFL Officials: Their Lives, Their Stories, the only third-person perspective on NFL game officials. He also collaborated with renowned NFL offensive line coach Howard Mudd to write The View From the O-Line, an oral history of Mudd's career intertwined with those of twenty NFL offensive linemen whose career arcs led them to play football's most essential and underappreciated position.

**The Third Team: NFL Officials. Their Lives, Their Stories** Richard Lister,2019-12-19 The only third-person account describing the lives and work of NFL game officials. There would be no NFL football without him. He is an accountant, educator, lawyer, sales executive, policeman, dentist, business owner, corporate executive, or fireman. He is an NFL game official. His life is a little like Clark Kent's; he lives a mainstream life Monday through Friday. On Sunday he puts on a uniform lending impressive power. He makes decisions affecting lives, careers, and fortunes. On his best day he is anonymous and unappreciated; on his worst, he is despised. He does a job from which fans, coaches, players, and even he himself demand perfection. He will never achieve it. Though having an essential part in a popular game, he prefers a low profile. His anonymity evokes curiosity about who he really is. The Third Team takes stories and reflections from interviews with 25 past and current National Football League officials, including some among football's greatest, to give the reader a look into a job that is far more exacting than even the most astute fan appreciates. The stories reveal the kind of person who reaches the pinnacle. Though competitive, wanting to be the best among peers, each man recognizes that his crew's performance has higher value than individual achievement. Becoming a team player will bond each crewmember into a powerful brotherhood. Their stories ranging from humorous to poignant give the reader insight into those working to keep NFL playing fields level for both teams. The perspectives are complemented by observations from former NFL coaches Tony Dungy, Steve Mariucci, Herman Edwards, and Jerry Glanville along with former player and current television analyst Matt Millen. The Third Team will appeal to the fan who is interested in the game's inner workings and who will appreciate stories from behind the scenes and inside the country's most popular spectator sport.

The Umpire Was Blind! Jonathan Weeks,2020-05-21 In the words of former American League umpire Nestor Chylak, umpires are expected to be perfect on the first day of the season and then get better every day. Forced to deal with sullen managers and explosive players, they often take the blame for the failures of both. But let's face it--umpires are only human. For well over a century, the fortunes of Major League teams--and the fabric of baseball history itself--have been dramatically affected by the flawed decisions of officials. While the use of video replay in recent decades has reduced the number of bitter disputes, many situations remain exempt from review and are subject to swirling controversy. In the heat of the moment mistakes are often made, sometimes with monumental consequences. This book details some of these more controversial calls and the men who made them.
