The Intercountry Adoption Debate Robert L. Ballard, Robert F. Cochran, Naomi H. Goodno, 2015-06-18 Meaningful discussion about intercountry adoption (the adoption of a child from one country by a family from another country) necessitates an understanding of a complex range of issues. These issues intersect at multiple levels and processes, span geographic and political boundaries, and emerge from radically different cultural beliefs and systems. The result is a myriad of benefits and costs that are both global and deeply personal in scope. This edited volume introduces this complexity and ...

Every Rescued Dog Has a Tale Deborah Eades, 2008-12-29 Are you a dog lover? Do you know one? Here is the perfect book for any dog lover! This is not just another book about dogs, but an inspiring book that follows several dogs from death row in a county dog pound to a new life with a loving family. This is all the work of the Dog Rescue Railroad - volunteer drivers who spend their weekends driving a shelter dog about 100 miles toward a better life in another state. These stories will make you cry at what these helpless animals have endured and then inspire you to want to help them in this small way to work toward the day when there will be no more homeless pets. In addition to these heartwarming and sometimes very funny stories, there are dozens of adorable photos of many rescued dogs. Most of the proceeds from the sale of this book are being donated to animal rescue, so your purchase will help save even more lives. Help a homeless dog today and purchase your copy and one for a friend. Together we can make a difference, one dog at a time.

Intercountry Adoption Karen Smith Rotabi, 2016-12-05 Intercountry adoption represents a significant component of international migration; in recent years, up to 45,000 children have crossed borders annually as part of the intercountry adoption boom. Proponents have touted intercountry adoption as a natural intervention for promoting child welfare. However, in cases of fraud and economic incentives, intercountry adoption has been denounced as child trafficking. The debate on intercountry adoption has been framed in terms of three perspectives: proponents who advocate intercountry adoption, abolitionists who argue for its elimination, and pragmatists who look for ways to improve both the conditions in sending countries and the procedures for intercountry transfer of children. Social workers play critical roles in intercountry adoption; they are often involved in family support services or child relinquishment in sending countries, and in evaluating potential adoptive homes, processing applications, and providing support for adoptive families in receiving countries; social workers are involved as brokers and policy makers with regard to the processes, procedures, and regulations that govern intercountry adoption. Their voice is essential in shaping practical and ethical policies of the future. Containing 25 chapters covering the following five areas: policy and regulations; sending country perspectives; outcomes for intercountry adoptees; debate between a proponent and an abolitionist; and pragmatists' guides for improving intercountry adoption practices, this book will be essential reading for social work practitioners and academics involved with intercountry adoption.

From Intercountry Adoption to Global Surrogacy Karen Smith Rotabi, Nicole F. Bromfield, 2016-12-12 Intercountry adoption has undergone a radical decline since 2004 when it reached a peak of approximately 45,000 children adopted globally. Its practice had been linked to conflict, poverty, gender inequality, and claims of human trafficking, ultimately leading to the establishment of the Hague Convention on Intercountry Adoption (HCIA). This international private law along with the Convention on the Rights of the Child affirm the best interests of the child as paramount in making decisions on behalf of children and families with obligations specifically oriented to safeguards in adoption practices. In 2004, as intercountry adoption peaked and then began a dramatic decline, commercial global surrogacy contracts began to take off in India. Global surrogacy gained in popularity owing, in part, to improved assisted reproductive technology methods, the ease with which people can make global surrogacy arrangements, and same-sex couples seeking the option to have their own genetically-related children. Yet regulation remains an issue, so much so that the Hague Conference on Private International Law has undertaken research and assessed the many dilemmas as an expert group considers drafting a new law, with some similarities to the HCIA and a strong emphasis on parentage. This ground-breaking book presents a detailed history and applies policy and human rights issues with an emphasis on the best interests of the child within intercountry adoption and the new conceptions of protection necessary in global surrogacy. To meet this end, voices of surrogate mothers in the US and India ground discourse as authors consider the human rights concerns and policy implications. For both intercountry adoption and global surrogacy, the complexity of the social context anchors the discourse inclusive of the intersections of poverty and privilege. This examination of the inevitable problems is presented at a time in which the pathways to global surrogacy appear to be shifting as the Supreme Court of India weighs in on the future of the industry there while Thailand, Cambodia and other countries have banned the practice all together. There is speculation that countries in Africa and possibly Central America appear poised to pick up the multi-million dollar industry as the demand for healthy infants continues on.

Handbook of Adoption Rafael A. Javier, 2007 'Handbook of Adoption' addresses topics in adoption that reflect the many dimensions of theory, research, development, race adjustment and clinical practice which can affect adoption triad members.

Race in Transnational and Transracial Adoption Vilna Bashir Treitler, 2014-07-22 When parents form families by reaching across social barriers to adopt children, where and how does race enter the adoption process? How do agencies, parents, and the adopted children themselves deal with issues of difference in adoption? This volume engages writers from both sides of the Atlantic to take a close look at these issues.

Saving International Adoption Mark Montgomery, Irene Powell, 2018-01-30 Choice Outstanding Academic Title of 2018 International adoption is in a state of virtual collapse, rates having fallen by more than half since 2004 and continuing to fall. Yet around the world millions of orphaned and vulnerable children need permanent homes, and thousands of American and European families are eager to take them in. Many government officials, international bureaucrats, and social commentators claim these adoptions are not in the best interests of the child. They claim that adoption deprives children of their birth culture, threatens their racial identities, and even encourages widespread child trafficking. Celebrity adopters are publicly excoriated for stealing children from their birth families. This book argues that opposition to adoption ostensibly based on the well-being of the child is often a smokescreen for protecting national pride. Concerns about the harm done by transracial adoption are largely inconsistent with empirical evidence. As for trafficking, opponents of international adoption want to shut it down because it is too much like a market for children. But this book offers a radical challenge to this view—that is, what if instead of trying to suppress market forces in international adoption, we embraced them so they could be

properly regulated? What if the international system functioned more like open adoption in the United States, where birth and adoptive parents can meet and privately negotiate the exchange of parental rights? This arrangement, the authors argue, could eliminate the abuses that currently haunt international adoption. The authors challenge the prevailing wisdom with their economic analyses and provocative analogies from other policy realms. Based on their own family's experience with the adoption process, they also write frankly about how that process feels for parents and children.

Research Handbook on Adoption Law Nigel Lowe, Claire Fenton-Glynn, 2023-01-20 Bringing together scholars from a wide range of disciplines, this captivating and judicious Research Handbook provides diverse perspectives on the law and practice of adoption. It examines how adoption laws differ between countries and cultures, and the ongoing effects of adoption on the child, the birth parent(s), and the adoptive parent(s).

Global Families, Inequality and Transnational Adoption Riitta Högbäck, 2017-01-18 This book looks at the simultaneous processes of making and un-making of families that are part of the adoption practice. Whereas most studies on transnational adoption concentrate on the adoptive family, the author identifies not only the happy occasion when a family gains a child, but also the sorrow and loss of the child to its family of origin. Situating transnational adoption in the context of the Global North-South divide, Högbäck investigates the devastating effects of unequal life chances and asymmetrical power relations on the adoption process and on the mothers whose children are adopted. Based on unique primary material gathered in in-depth interviews with South African families of origin and Finnish adoptive families, the book investigates the decision-making processes of both sets of parents and the encounters between them. The first mothers' narratives are juxtaposed with those of the adopters and of the adoption social workers who act on the principles of the wider adoption system. Concluding with a critique of the Global Northism that exemplifies current practices, Högbäck sketches the contours of a more just approach to transnational adoption that would shatter rather than perpetuate inequality. The book can also be read as an expose of the consequences of current inequalities for poor families. *Global Families, Inequality and Transnational Adoption* will be of interest to students and scholars of adoption studies, family and kinship, sociology, anthropology, social work and development.

Roby's Moonlit Night Christine Young, 2021-10-23 Once she'd been a pampered child with high expectations for her future blessed with love. Then she became an innocent pawn in a terrible game of greed and power. Now, with a noose around her neck, Pippa was to hang before she had the chance to unveil the men who drove her from her home, before she had the chance to live. Roby McKenna was a man blessed with endless charm and wit. While he searched for his eternal love across the Atlantic in a new land, he would have to come home to find her. His silver blue eyes could sparkle with amusement or harden to steel gray with displeasure. He had all the women a man could want or need. As he grew older, mistresses were not enough. A quirk of fate brought him to the gallows, a spark of destiny made him claim the condemned Pippa as his bride.

The Globalization of Adoption Becca McBride, 2016-07-14 This book expands our understanding of a growing, yet largely unstudied phenomenon: the flow of children across borders through intercountry adoption. What explains the spread of intercountry adoption through the international system over time? McBride investigates the interconnected networks of states, individuals, and adoption agencies that have collaborated to develop the practice of intercountry adoption we see today. This book tells the story of how adoption agencies mediate between individuals and states in two ways: first by teaching states about intercountry adoption as a policy, and second by helping states implement intercountry adoption as a practice. McBride argues that this process of states learning about intercountry adoption from adoption agencies has facilitated the global development of the practice in the past seventy years.

Non-Emerging Adulthood Dan Dulberger, Haim Omer, 2021-05-20 This book offers a therapeutic approach to a problem that many families and mental health institutions face: a growing number of adult children who struggle to progress to a psychological, social adulthood. The family patterns that revolve around adult children can remain inert for decades, are often resistant to conventional therapy, and can cause chronic suffering to adult children, parents, and extended families. The authors present a guide that addresses parents of adult children as suffering people in their own right and as essential to assisting their child into entering functional adulthood. The authors, one of whom is the originator of the Non-Violent Resistance Therapy approach (NVR), provide an intervention manual that implements NVR principles for helping families of adult children. The book is based on the authors' ten-year journey of helping such families in cases where traditional interventions and therapeutic values seem not to work.

A Legal History of Adoption in Ontario, 1921-2015 Lori Chambers, 2016-09-23 Lori Chamber's fascinating study explores the legal history of adoption in Ontario since the passage of the first statute in 1921. This volume explores a wide range of themes and issues in the history of adoption including: the reasons for the creation of statutory adoption, the increasing voice of unmarried fathers in newborn adoption, the reasons for movement away from secrecy in adoption, the evolution of step-parent adoption, the adoption of Indigenous children, and the growth of international adoption. Unlike other works on adoption, this book focuses explicitly on statutes, statutory debates, and the interpretation of statutes in court. In doing so, she concludes that adoption is an inadequate response to child welfare and on its own cannot solve problems regarding child neglect and abuse. Rather, Chambers argues that in order to reform the area of adoption we must first acknowledge that it is built upon social inequalities within and between nations.

Adoption Beyond Borders Rebecca J. Compton,2016-02-01 International adoptions have decreased dramatically in the last decade, despite robust evidence of the tremendous benefits that early placement in adoptive families can confer upon children who are not able to remain with birth families. Adoption Beyond Borders integrates evidence from a range of disciplines in the social and biological sciences-- including psychology, neuroscience, evolutionary biology, sociology, anthropology, and social work -- to provide a ringing endorsement of international adoption as a viable child welfare option. The author interweaves narrative accounts of her own adoption journey, which involved visiting a Kazakhstani orphanage daily for nearly a year, to illustrate the complexities and implications of the research evidence. Topics include: the effects of institutionalization on children's developing brains, cognitive abilities, and socio-emotional functioning; the challenges of navigating issues of identity when adopting across national, cultural, and racial lines; the strong emotional bonds that form even without genetic relatedness; and the methods in which adoptive families can address the special needs of children who experienced early neglect and deprivation, thereby providing a supportive environment in which those children can flourish. Striving to attain a balanced, evidence-based perspective on controversial issues, Adoption Beyond Borders argues that international adoption must be maintained and supported as a vital means of promoting international child welfare.
