Enabling Context-Aware Web Services Quan Z. Sheng,Jian Yu,Schahram Dustdar,2010-05-06 With recent advances in radio-frequency identification (RFID) technology, sensor networks, and enhanced Web services, the original World Wide Web is continuing its evolution into what is being called the Web of Things and Services. Such a Web will support an ultimately interactive environment where everyday physical objects such as buildings, sidewalks, and commodities become recognizable, addressable, and even controllable via a mostly ubiquitous Web. This integration of the physical and virtual worlds will fundamentally impact the way we live and in doing so afford tremendous new business opportunities with great human benefit, such as support services to keep the elderly independent, and intelligent traffic management that will cut wasted hours from every day. More efficient supply chains, improved environmental monitoring, better access to health services ... the list is endless. Enabling Context-Aware Web Services: Methods, Architectures, and Technologies compiles the newest developments and advances driving this new age forward. With contributions from leading researchers across the world this pioneering work bridges the gap between context-awareness and Web services. A comprehensive presentation of what's already accomplished and what is possible, the chapters of this book are systematically organized into three major sections: Methods focuses on the principle of context awareness in Web services and various ways to model those services at the specification level. Architectures details the infrastructures, frameworks, and standards needed to build context-aware Web services. Technologies presents a cornucopia of techniques adapted from once isolated research areas including semantic Web, database, and artificial intelligence development, as well as formal methods being employed to improve the development of context-aware Web services. Researchers, engineers, entrepreneurs, and educators across any number of fields will find new ideas worth considering, jumping-off points for developing improved software and applications, and seeds for business ventures that efficiently deliver needed products, information, or services. The possibilities are as limitless as we dare to imagine.

All the Restaurants in New York John Donohue,2019-05-14 "An emotional trip down memory lane for those of us who count our favorite restaurants as cherished personalities and members of our family." —Danny Meyer, founder of Shake Shack From romantic spots like Le Bernardin to beloved holes-in-the-wall like Corner Bistro, John Donohue renders people's favorite restaurants in a manner that captures the emotional pull a certain place can have on the hearts of New Yorkers. All the Restaurants in New York is a collection of these drawings, characterized by their appealingly loose and gently distorted lines. These transportive images are intentionally spare, leaving the viewer room to layer on their own meaning and draw connections to their own memories of a place, of a time, of an atmosphere. Featuring an eclectic mix of 100 restaurants—from Minetta Tavern to Frankies 457 and River Café—this charming collection of drawings is accompanied by interviews with the owners, chefs, and loyal patrons of these much-loved restaurants. "I love John's spare, romantic, quirky portrayals of iconic New York restaurants so much that I purchased over a dozen of his prints to hang around my office. These places come to define our lives in New York—that job right next to Balthazar, that boyfriend who lived above Prune, that interview that took place at

'21' . . . They deserve this spotlight, this tribute." —Amanda Kludt, Editor in Chief, Eater "John Donohue is the Rembrandt of New York City's restaurant facades. His collection is an invaluable, evocative guide to the ever-changing, slowly vanishing landscape of the city's great dining scene. It belongs on the bookshelf of every devout chowhound and fresser." —Adam Platt, Restaurant Critic, New York magazine

Restaurant & Bar Marketing II Erik Shellenberger,2019-10-09 Start thinking like a consumer and succeed like a pro! Picture a room full of people all taking a test that nobody studied for. Everyone is copying off of each other's

paper so we end up with a bunch of different versions of the wrong answer. Everyone assumes their neighbor knows more than they do but it turns out everyone is shockingly uneducated. This is the reality of today's Restaurant Marketing Expert. In today's visual online world, presentation and aesthetics are more important than ever. If your business's online presence was a Tinder profile, would you score a date? Or would you continue to live through endless uneventful weekends? Google, Yelp and Tripadvisor are often the consumer's first impression of your brand, especially in a tourist economy. Is your business dominating your competition or have you not addressed your search engine ranking because you show up if you Google your own business? Good enough right? Not even close. What works for your competitor's brand could be worthless for yours. Stop the copy/ paste madness and create your own plan on your own terms! If you still think Restaurant Marketing is synonymous with Social Media you're missing the boat! Social media can be an effective tool to market a restaurant but when used incorrectly, it can cost you thousands of dollars per month. Ask yourself a few common sense questions - do YOU click on social media posts from restaurants and then stop on to spend your money? Do YOU click on Sponsored Ads? What's your go-to tool when on vacation to find a great place to eat or drink? I'm guessing Facebook and Instagram don't top this list. Why? You can't follow a restaurant you've never heard of! Restaurant Marketing has evolved quicker than ever yet most people who claim to be Restaurant Marketing Experts fail to realize this and still promote the same ol' tired methods that may have worked 20 years ago but are all but worthless in today's lightning quick online world. We often forget that as consumers, while searching for Restaurants near me we use Google and Yelp almost exclusively. This is common sense yet so few restaurants include SEO (Search Engine Optimization) in their Restaurant Marketing Strategy. Why Ranking high up in the Google results isn't visual. It isn't fun. It isn't what your average college intern even knows how to do. There aren't pictures and videos of cute kittens and playful puppies. You can't share fun photos and clever quotes with your friends. What it DOES do however, is bring traffic into your restaurant or bar. It increases business. It puts your restaurant or bar in front of your competition. It shows your brand to a whole new audience. This audience is looking for your restaurant, not the other way around. This audience is looking to make a right here, right now purchase. This audience most likely doesn't know you exist until they see you on Google. This audience isn't looking for a discount or any type of incentive to make a visit and spend money. This audience is made up of all demographics and backgrounds, from all countries and cities across the globe. In this book you'll learn how to showcase your restaurant to this audience in the best possible light. You'll learn how to be first in line when the hungry consumer types in that magical phrase Restaurants near me. Stop listening to the social media zombies and start implementing a Restaurant Marketing Approach that actually drive business. After all, isn't that what marketing is for Stop thinking in terms of impressions and likes and start thinking of restaurant and bar success in terms of sales. Remember, you can't deposit likes!
