D-Day Cover Up at Pointe du Hoc Gary Sterne,2019-03-30 A follow-up to the New York Times-bestselling *The Cover-Up at Omaha Beach*. "The second volume of the epic study breaks new ground." —Firetrench Gary Sterne, a keen collector of militaria and co-founder of *The Armourer* and *Skirmish* magazines, has always been fascinated by the D-Day landings. In particular he was intrigued by the lack of precise information relating to the mystery of the "missing guns" of Pointe du Hoc. His research led to the finding of a map which indicated the position of an "unknown" German gun position buried in the village of Maisy. The rediscovery of the Maisy Batteries made headline news around the world and his bestselling book *The Cover-Up at Omaha Beach* subsequently changed the history of the Omaha sector and made many start to question the Rangers' Pointe du Hoc mission. The Maisy site is now one of the major Normandy D-Day attractions. For the first time ever this follow-up book now offers complete Rangers history for the seven months prior to D-Day and does so using period documents, many of which have only recently been released from TOP SECRET status in U.S. Archives. The author fills in the gaps that many have only guessed at concerning the Rangers' real missions on D-Day, he explains why a battalion commander was removed hours before the landings, why the Rangers were not briefed on their actual D-Day missions and the extraordinary role that Lt. Col. Rudder played at Pointe du Hoc. This book is a historical game-changer that pulls no punches.

To Fight with Intrepidity... John D. Lock,Harold G. Moore,1998 U.S. Ranger Major John Lock vividly brings to life the horrific battles and the heroic exploits--from the French and Indian War to Desert Storm--of a special breed of men for whom valor, honor, and country mean more than life itself. Weapons of the US Special Operations Command Chris McNab,2019-07-25 The units and formations of the US Special Operations Command (SOCOM) have privileged access to the finest weaponry in the world's arsenal. Whether Army, Navy, Air Force, or Marines, the SOCOM troops select weapons that match their mission requirements, but which also sit at the cutting edge of combat technology. This means that, while SOCOM troops frequently use standard-issue weaponry, they also adopt many specialist pieces of kit that are not so accessible to the broader armed services, including sniper rifles, battle rifles, and machine guns, as well as high-tech tactical accessories used to transform standard weaponry into something exceptional. Assessing the technology and capabilities of these combat weapons, as well as how they have been used in modern combat, this fully illustrated study lifts the veil on some of the most distinctive hand-held weapon systems of US special operations forces since 1987.
