The Power of News Donald Read,1999 This is the story of Reuters, the international news agency. In 1851 Julius Reuter set up the London organization which was eventually to extend throughout most of the world. Over a century later, Reuters was first with the news of the erection of the Berlin Wall in 1961, and then first with the story of its breaching in 1989. The Power of News is a fascinating account of the company which for almost 150 years has brought us history as it is being made.

*When Not in Rome, Don't Do as the Romans Do* Stefano Pelle,2013-04-18 Two suitcases and the telephone numbers of two friends of friends: this was what I was carrying when I landed in India on October 22, 1998. What an irony in the fact that just a few years earlier, while boarding a plane from New Delhi to Rome, I had promised to myself not to go back to India, at least not until my retirement age. But as fate would have it, Stefano Pelle eventually returns to post-liberalized India as an expatriate working for the Perfetti Van Melle Group and what starts from there is a journey through emerging markets. At the heart of Stefano's psyche and his management beliefs are innumerable situations when a one-sided biased perspective would have led to failure in business deals or problems in personal life; more so being an Italian married to an Indian wife, currently settled in the Middle East and with responsibility over a geographical area extending from Bangladesh to Senegal. Overall, the story wrought here is one of hard work, ambition, and success.

*This Unquiet Land* Barkha Dutt,2016 India's fault lines run wide and deep. Some of them go back centuries, others are of comparatively recent origin. The myriad villains these fault lines have spawned include rapists, murderers, terrorists, prophets of religious hatred, corrupt politicians, upholders of abhorrent caste traditions, opponents of free speech and dissent, apologists for regressive cultural practices, and external adversaries who try to destabilize our borders. All of them are responsible for impeding the country's progress, destroying the lives of numberless innocents, usually the poorest and most vulnerable of our people, and besmirching the democratic, plural, free and secular nature of our society. Set against these enemies of our nation's promise are the heroic ones-the poor, illiterate woman who was gang-raped but helped change the nation's attitude towards women through her determined fight for justice; the young soldier whose courage and sacrifice in the high Himalayas was an inspiration to his comrades fighting the Kargil War; the wife whose husband was beheaded by Maoist terrorists, yet sought not revenge but succour for the poor and underprivileged; and the son of the village blacksmith who was lynched by a mob of religious fundamentalists appealing for an end to discord and sectarian violence. These stories, and dozens of others like them, map our country's fault lines. In this book, Barkha Dutt recounts the ones that have left an indelible mark on her. Taken together, they provide a vivid, devastating and unforgettable portrait of our unquiet land.

When Crime Pays Milan Vaishnav,2017-01-01 The first thorough study of the co-existence of crime and democratic

processes in Indian politics In India, the world's largest democracy, the symbiotic relationship between crime and politics raises complex questions. For instance, how can free and fair democratic processes exist alongside rampant criminality? Why do political parties recruit candidates with reputations for wrongdoing? Why are one-third of state and national legislators elected--and often re-elected--in spite of criminal charges pending against them? In this eye-opening study, political scientist Milan Vaishnav mines a rich array of sources, including fieldwork on political campaigns and interviews with candidates, party workers, and voters, large surveys, and an original database on politicians' backgrounds to offer the first comprehensive study of an issue that has implications for the study of democracy both within and beyond India's borders.

Communicating India's Soft Power D. Thussu, 2013-10-23 In recent years, India has emerged as a major economic and political power. Yet, the country's cultural influence outside India has not been adequately analyzed in academic discourses. This book, a pioneering attempt, from an international communication/media perspective, is aimed to fill the existing gap in scholarship in this area.

The Power of News Donald Read, 1992 This is the story of Reuters, the international news agency. In 1851 Julius Reuter set up the London organization which was eventually to extend throughout most of the world. Over a century later, Reuters was first with the news of the erection of the Berlin Wall in 1961, and then first with the story of its breaching in 1989. The Power of News is a fascinating account of the company which for over 140 years has brought us history as it is being made. Donald Read's authoritative and readable history of Reuters shows how the company has always been in the forefront of communications technology, from the days of pigeon post and the first transatlantic cables to the age of the satellite and computer link. For a century Reuters was especially the news agency of the British Empire. As Britain's imperial power faded, Reuters moved into selling economic information to the world trading community, a venture that generated annual 'pre-tax profits of \$280 million by the end of the 1980s. Equally lucrative was the flotation of Reuters as a public company in 1984, the full story of which is told here for the first time. Throughout all these exciting changes Reuters has tried to remain committed to 'truth in news', a commitment watched over by the Reuter Trust, created in 1941.

Environmental Law in Indian Country: to 1:28 William H. Rodgers, 2005 This publication is a guide to understanding the National Environmental Policy Act (NEPA). This publication covers NEPA, the Endangered Species Act, and the Wilderness Act. It focuses on the environmental work of the 562 Indian tribes that play an important role in the environmental arena. The book uses chiefly Indian and tribal cases (162 case studies in all) to illustrate the finer points of NEPA doctrine as it exists in the broader field of Indian law.--The publisher's website.

**The Changing Business of Journalism and Its Implications for Democracy** David A. L. Levy, Rasmus Kleis Nielsen, 2010 The business of journalism is widely held to be in a terminal crisis today, in particular because the rise of the internet has drained audience attention and advertising revenue away from existing media platforms. This book, the first systematic international overview of how the news industry is dealing with current changes,

counters such simplistic predictions of the supposedly technologically determined death of the news industry. It offers instead nuanced scrutiny of the threats and opportunities facing legacy news organisations across the world in countries as diverse as the United States, the United Kingdom, France, Germany, Finland, Brazil, and India as they transition to an increasingly convergent media landscape.

**Guinness World Records 2011** Craig Glenday, 2011 The 2011 edition of the most famous book of world records, including circus skills and sideshow arts, celebrity exploits, animal activities, and a tour of the world of records in a city-by-city guide.

**Hamas** Beverley Milton-Edwards, Stephen Farrell, 2013-04-30 Declared a terrorist menace yet elected to government in a free election, Hamas now stands as the most important Sunni Islamist group in the Middle East. How did Hamas grow to be so powerful? Who supports it? What is its future? This essential insight into Hamas answers these questions. Milton-Edwards and Farrell have between them spent decades researching and reporting from the heartlands of the Hamas movement and gained unrivalled access to the world of Islamic resistance and radical Islam in its potent Palestinian form. Drawing on their frontline experiences of recent events, their access to secret documents from the western intelligence community and interviews with leaders, militants, and commanders of Hamas' armed battalions, they reveal the full story of Hamas and the future of political Islam in the Middle East. Milton-Edwards and Farrell show Hamas to be a broad and thus more powerful regional phenomenon than previously thought, and by doing so contend that it is now time to rethink the war and the nature of Islam and its role in the Middle East. Beverley Milton-Edwards is Professor in the School of Politics, International Studies and Philosophy at Queens University, Belfast. She is the author of books such as *Contemporary Politics in the Middle East* (2006) and *The Israeli-Palestinian Conflict: a People's War* (2009). Prize-winning journalist Stephen Farrell is Foreign Correspondent for the New York Times and was previously Middle East correspondent for The Times.

*News Agencies from Pigeon to Internet* K. M. Shrivastava, 2007 Deals with a very important business in global communication of news -- the news agencies. The first news agencies started their business when the fastest technology was a combination of telegraph and carrier pigeon. They have survived several technological developments since then and have used these technologies for further diversification of services and revenues. The Internet, some thought, will make the news agencies extinct like dinosaurs. But, well run news agencies found a new opportunity in this threat. Though there have been some corporate biographies of news agencies, there has not been any comprehensive analytical work in the past 25 years on this business. This book is an attempt to fill this void in the global literature on journalism, media studies, international communication and business management studies. Besides, the students of these academic disciplines, diplomats, policymakers, and all types of communication professionals will find this book useful. It will also be a good read for lay persons who unconsciously consume the products of news agencies through all types of media -- from newspapers to mobile phones.

*Ants Among Elephants* Sujatha Gidla, 2017-07-18 Like one in six people in India, Sujatha Gidla was born an

untouchable. While most untouchables are illiterate, her family was educated by Canadian missionaries in the 1930s, making it possible for Gidla to attend elite schools and move to America at the age of twenty-six. It was only then that she saw how extraordinary -- and yet how typical -- her family history truly was. Her mother and uncles were born in the last days of British colonial rule. They grew up in a world marked by poverty and injustice, but also full of possibility. The Independence movement promised freedom. Yet for untouchables and other poor people, little changed. In rich, novelistic prose, *Ants Among Elephants* tells Gidla's extraordinary family story detailing her uncle's emergence as a poet and revolutionary and her mother's struggle for emancipation through education.

Empire and Post-Empire Telecommunications in India Pradip Ninan Thomas, 2018-12-31 Telecommunications was vital to the imperial project and connecting India--the jewel in the British crown--was a key priority. However, intercolonial rivalries outside and within India as well as contestations between private and public ownership of telecommunications made that task difficult. The author explores these differences and ties the history of telegraph, cable, and wireless in British India to the evolving story of telecommunications in post-Independence India. This book examines the role of the telegraph, oceanic cables, and the wireless in the context of the political economy and compulsions of Empire to control global flows of communications. It argues that history is absolutely critical to understanding the present, and the imprint of the past continues to shape the Indian state's engagements with telecommunications. This volume undertakes the project of bridging the gap between past and present, and highlighting a narrative of time- and space-specific innovation and growth tempered by political circumstances, geopolitical developments, and economic compulsions.

The India Way S. Jaishankar, 2020-09-04 The decade from the 2008 global financial crisis to the 2020 coronavirus pandemic has seen a real transformation of the world order. The very nature of international relations and its rules are changing before our eyes. For India, this means optimal relationships with all the major powers to best advance its goals. It also requires a bolder and non-reciprocal approach to its neighbourhood. A global footprint is now in the making that leverages India's greater capability and relevance, as well as its unique diaspora. This era of global upheaval entails greater expectations from India, putting it on the path to becoming a leading power. In *The India Way*, S. Jaishankar, India's Minister of External Affairs, analyses these challenges and spells out possible policy responses. He places this thinking in the context of history and tradition, appropriate for a civilizational power that seeks to reclaim its place on the world stage.

*Local Journalism* Rasmus Kleis Nielsen, 2015-06-30 For more than a century, local journalism has been taken almost for granted. But the twenty-first century has brought major challenges. The newspaper industry that has historically provided most local coverage is in decline and it is not yet clear whether digital media will sustain new forms of local journalism. This book provides an international overview of the challenges facing changing forms of local journalism today. It identifies the central role that diminished newspapers still play in local media ecosystems, analyses relations between local journalists and politicians, government officials, community

activists and ordinary citizens, and examines the uneven rise of new forms of digital local journalism. Together, the chapters present a multi-faceted portrait of the precarious present and uncertain future of local journalism in the Western world.

**Reporting the Raj** Chandrika Kaul, 2017-03-01 This book is the first analysis of the dynamics of British press reporting of India and the attempts made by the British Government to manipulate press coverage as part of a strategy of imperial control. The press was an important forum for debate over the future of India and was used by significant groups within the political elite to advance their agendas. Focuses on a period which represented a critical transitional phase in the history of the Raj, witnessing the impact of the First World War, major constitutional reform initiatives, the tragedy of the Amritsar massacre, and the launching of Gandhi's mass movement. Asserts that the War was a watershed in official media manipulation and in the aftermath of the conflict the Government's previously informal and ad hoc attempts to shape press reporting were placed on a more formal basis.

**A Journalism Reader** Michael Bromley, Tom O'Malley, 1997 A variety of contributors - including journalists, cultural theorists, philosophers, historians and newspaper proprietors - offer insights and perspectives on the history, status and craft of journalism.

**Communications and Power** Milton Israel, 1994-04-14 At the end of the First World War, Government of India officials and Indian nationalist politicians began to recognise the need for an organized communications network that could reach out to a large and diverse Indian population. The challenge for Government and nationalists alike was to create an effective propaganda machine that could both disseminate news and, at the same time, elicit the desired political response. Milton Israel's 1994 book describes the role of the press, news services and propaganda agencies in the last stage of the nationalist struggle in India before the departure of the British, emphasizing the media's participation in the development of a 'national' perspective. Within this context, the author examines the significance of the encounter between imperialism and nationalism and the influence one had upon the other in achieving often conflicting objectives.
